OREGON WEATHER

Pacific Coast States: California: Fair weather in interior; considerable cloudy and foggy weather near the coast; normal temperature. Oregon and Washington: Considerable cloudiness and normal temperature with probability of widely scattered showers. Fire weather hazard will remain high in the interior of California and normal in Oregon and Washington.

FEAR OF MILITARISM

The United States is a peaceable, peace-loving nation and abhors war as destructive, wasteful and horrible. This nation has participated in several wars but never has it entered into a conflict until it appeared that all other means of adjudicating the international difficulty had failed. When declaring war on Germany in 1917, the President clearly announced that this country was entering the world conflict solely in the name of democracy, justice and humanity, and would not accept any territorial or other concessions as a result of the anticipated victory.

A dancing rondo! Tex Rickard, who has promoted everything from a knitting contest to a Democratic National Convention, will soon create the greatest dancing carnival in the world. The attempt to find the best toewinklers in the United States will penetrate into the smallest hamlet. Winners of local prize dancing shoes will meet in State contests and the State winners will gather together in Madison Square Garden here for the grand finale, with a \$12,000 prize for the winner.

And there will be rules. Just like baseball, matrimony, or any other national institution. "Dancing masters by the way, are trying to replace the 'Bootleggers' Shake," the "Tiger Twaddle" and the "Camel Canter" with dances containing less figure and more feet. Chief among the proposed substitutions is the "Raggedy Ann," a foxtrot, like a slow movie.

As one professor explained the situation, in academic terms: "If a kangaroo got on a modern dance floor he'd feel like a piker. People ain't taking dancing lessons no more. They don't have to."

The twenty-six miles of New Jersey's famous automobile shore-drive

national wealth to be protected Great Britain's army is 10 times, France's nearly 19 times and Japan's more than 24 times as large as ours.

Although we pay our soldiers far better wages and maintain them better than any other country, the per capita cost of our army is the smallest in the world, being only \$2.20, against \$2.60 in Japan, \$6.40 in Great Britain, \$9.50 in Italy and \$22.23 in France.

Our military budget is only 7.75 percent of the whole, while Great Britain's is 9.52, Japan's 16.19 and France's 18.06. The present increase in our actual military expenditures over those just before the war is only 1.33 per cent while Japan's is 3.24, Great Britain's is 4.19 and France's is 4.26. Before the war about one-fourth of our total budget went to the War Department, but now only about one-tenth goes to it.

DAILY NEWS LETTER
Gossip of Staff Correspondents at World Centers of Population

New York, August 21.—(U. N. S.)—Women have entered almost every profession, and now they have become a useful addition to one of New York's leading masculine industries—rum-running. The plebeian name for the position they occupy is "decoy". Dressed in the height of yachting fashion, they recline in wicker chairs on the decks of the vessels.

Revenue officials recently discovered the trick when they captured a ship unloading a ton of hooch which they had previously ignored, thinking it a pleasure yacht. The City of White Lights has received a fiery splash of color in the use of red flashlights in the palms of traffic policemen at night.

This new method of traffic direction is being experimented with in congested areas. If it proves successful it will be adopted throughout the city.

A dancing rondo! Tex Rickard, who has promoted everything from a knitting contest to a Democratic National Convention, will soon create the greatest dancing carnival in the world.

The attempt to find the best toewinklers in the United States will penetrate into the smallest hamlet. Winners of local prize dancing shoes will meet in State contests and the State winners will gather together in Madison Square Garden here for the grand finale, with a \$12,000 prize for the winner.

And there will be rules. Just like baseball, matrimony, or any other national institution. "Dancing masters by the way, are trying to replace the 'Bootleggers' Shake," the "Tiger Twaddle" and the "Camel Canter" with dances containing less figure and more feet.

As one professor explained the situation, in academic terms: "If a kangaroo got on a modern dance floor he'd feel like a piker. People ain't taking dancing lessons no more. They don't have to."

The twenty-six miles of New Jersey's famous automobile shore-drive

is to be saved from the inroads of the Atlantic Ocean by the erection of a series of super-jetties.

Since the completion of the first jetty, measuring 720 feet, at Monmouth Beach, N. J., six weeks ago, 500 feet of white sandy beach have been added to the Campbell estate, on which the structure is situated, and it is expected that a new beach will be built up for half a mile down the coast.

The jetty is modeled along the design of that outside the Panama Canal, with a forty-degree angle and a mammoth line of rocks on each side of a wooden core. It cost \$120,000.

Millionaires' Row, at Monmouth Beach and Deal, has been endangered for years from the unprotected fury of the surf in stormy weather.

Where do New York girls and boys spoon? In moving picture theatres, on buses, in hallways and taxicabs. The old fashioned courting in parlors is not popular due to the tissue-paper qualities of city apartment houses, wherein a kiss sounds like an automobile backfire.

In spite of its sixty-nine newspapers printed in foreign languages, the Americanization of the East Side goes on automatically, thanks to the alert following of the latest styles by the East Side feminine sex.

Division street is the Fifth avenue of this picturesque foreign section, and the show windows are as brightly electrified and as artistically decorated as those of its uptown sister avenue.

And the creations — not called that by Division street customers, however, — are every bit as chic. There is no good reason why they shouldn't be, as the same manufacturer sells to Division street as to Fifth avenue.

You may feel illlady of the East Sixties and Riverside Drive as to price and quality of gowns, but there is small chance to hoodwink the Division street belle. She is the one who helps produce the garments in some loft factory during the day.

AMUSEMENTS

"The Breaking Point" Love, mystery and melodrama in Mary Roberts Rinehart's great story, "The Breaking Point", combined with the direction of Herbert Brenon, has produced a Paramount picture which will be one of the most eminently conceived mysteries that has ever been woven into the plot of a motion picture.

Judson Clark, reckless millionaire, is infatuated with an actress, Beverly Carlyle. He invites her to visit his ranch in Wyoming, accompanied by her foster-brother, Fred Gregory and her worthless husband, William Lucas.

While there Gregory learns from an old letter that he is the illegitimate son of Judson Clark Sr. He is furious to think that Judson Clark, his host, possesses all the money which might have been his. He rushes back to the Clark ranch to find Judson and Lucas, both intoxicated, struggling. The lamp is knocked

PEOPLE'S MARKET

Advertisements under this heading 5c per line per issue. All Classified ads appear under this heading the first time

FOR SALE—Modern seven room bungalow, with all built-in conveniences, shade, nice yard, lots of flowers. Must be seen to be appreciated. On easy terms. Call at 670 North Third St. 81

FOR SALE—Bull calf, 4 days old, Peter Olson, phone 500-R-2. 79

over and when it is relighted, Lucas is found shot to death.

Judson escapes through a window into a howling storm and through exposure loses his mind. A lapse of 10 years and many new conditions involve the principles which combine a very tragic climax.

ADDITIONAL LOCAL

Rev. and Mrs. D. Lester Peck have returned from Newport and Portland where they have been spending their vacation.

R. I. Helm was in Grants Pass today from his Picket creek ranch. Mr. Helm states that he has a good crop of peaches, the frost not having touched them. As a result he has a crop that is bringing top notch prices. He brought a load to market this morning.

Rifle Club to Meet—The American Legion rifle club will meet at the range on Saturday afternoon at 4 o'clock for practice.

Injunction Is Sought—A temporary injunction, sought by B. W. Baldwin and Sol C. Stone, placed miners on the Big Applegate river, against Maude Kubli, Chester Kubli, Harold Kubli, Edith Kubli, Edward Kubli and Jackson county, restraining them from interference with the construction of a ditch, under the county road, and the irrigation flume, known as the "Kubli Ditch" was granted Tuesday by County Judge George A. Gardner, acting for the circuit court.

Attorneys Reames and Reames represented the defendant, and a "perpetual injunction" is sought. This suit will be decided upon the return of Judge C. M. Thomas, who is out of the city. The complain alleges "that the defendants, Kubli, give out and assert they will by force if necessary prevent the plaintiffs from constructing said ditch."—Medford Mail-Tribune.

Historic Salt Springs Slowly Disappearing

Springfield, Ill.—Gradual disappearance of the Gallatin county saltines, believed to have been worked on by the Indians, is removing from Illinois one of its most historic spots. Jacob W. Myers, Harrisburg, who has made a study of the salt springs, states that there are now no memorials to mark the spot.

"Tradition has it that from time immemorial salt has been produced and manufactured at the springs in Gallatin county," Mr. Myers relates. "Around the region of the two principal springs, known as 'H'-Carson Dick' and 'Nigger Well', is found a kind of pottery, the existence of which can be explained in no other way than that it may be fragments of large pots and kettles used in evaporating salt water.

"So little remains of the present site that the passerby would never know that he was on historic ground," says Myers. "About all that is left of 'Nigger Well' is a few decayed timbers in the old well, which is now practically filled up.
