OREGON WEATHER
Pacific Coast States: Con-
siderable cloudiness and occa-
sional rains, except that snows
are likely in the mountains;
temperature below normal in
Washington and Oregon and
normal in California.

Cloudy tonight and Thurs-
day, local rains.

COOLIDGE — THE NATION'S
CHOICE

By an overwhelming majority,
President Coolidge has been elected
to the position to which he suc-
ceeded upon the death of President War-
ren G. Harding. The voice of the
nation was heard at the polls yester-
day when one of the largest votes
in the history of the country was
counted. The selection of President
Coolidge followed one of the most
active campaigns ever staged by op-
posing candidates and is all the
more remarkable with the split
caused by the candidacy of LaFol-
lette, who attempted to re-create the
party, composed of the followers of
Theodore Roosevelt.

President Coolidge will continue
in his office in the firm conviction
that his choice was the popular one
with the electorate. He goes in with
a majority of the votes cast in the
nation and not as a minority candi-
date. His strength was felt, not only
in the north, but also well into the
border states, which are normally
democratic.

The nation has shown its confi-
dence in the "silent man of the
White House", who has paid strict
attention to the business of the coun-
try even during the most trying days
of a presidential campaign. It has
upheld the principles of the Repub-
lican party and has guaranteed an-
other four years of prosperity.

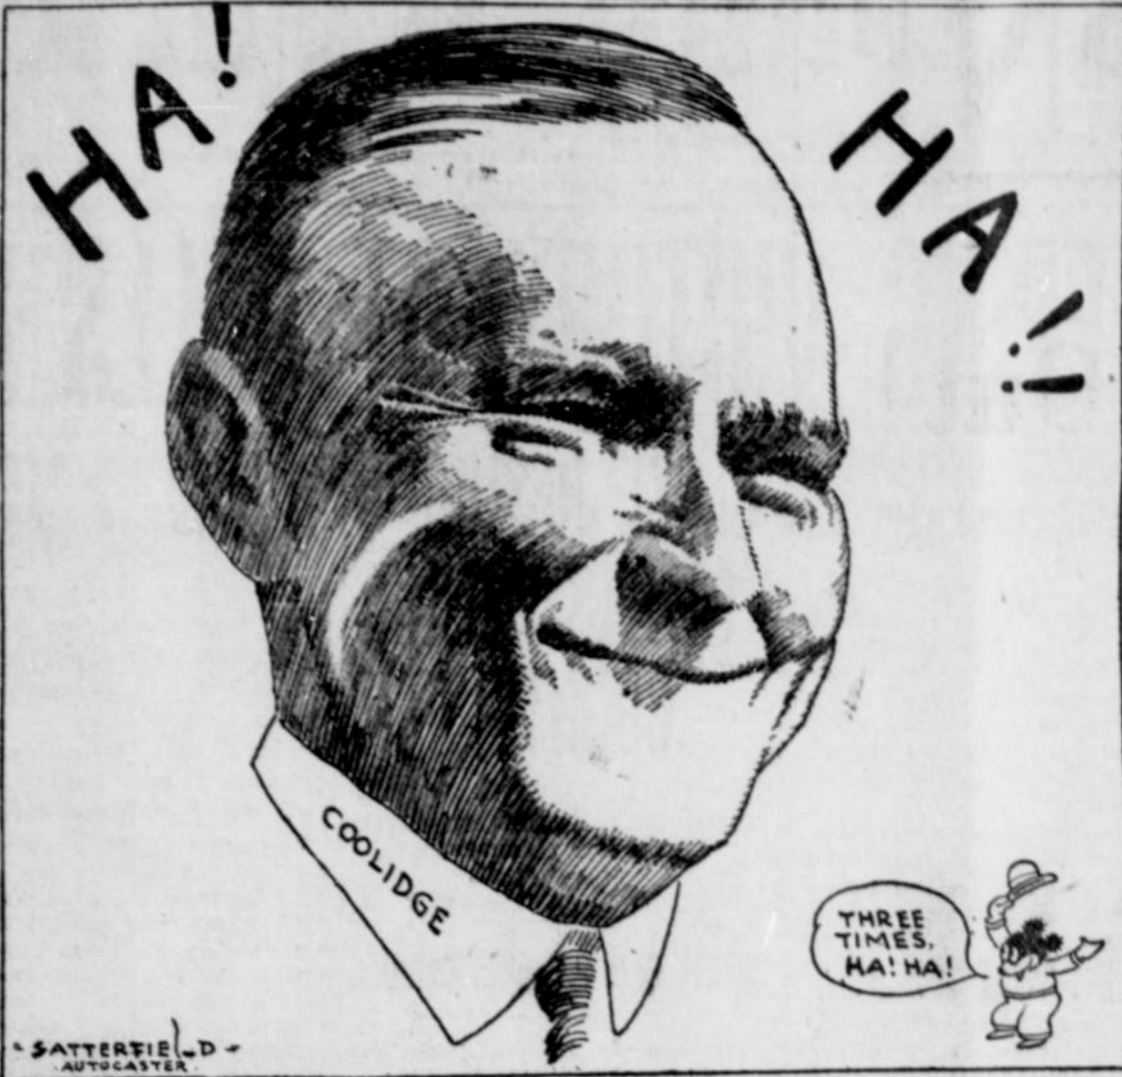

DEMAND FOR TURKEYS
AT ROSEBURG IS SMALL

Roseburg, Ore., Nov. 5.—Very lit-
tle activity is shown in the local tur-
key market preliminary to the an-
nual Thanksgiving trade. Neither
the quantity of birds in this, the big-
gest turkey raising county in the
state, nor the quality generally will
be up to the standard of previous
years, nor does the present outlook
promise to be as remunerative for
the grower.

Trading in the local market is
confined for the most part to first
grade birds of a nine pound medium
weight, other hens or gobblers on a
basis of 22 cents. Old toms, live,
are quoted at 17 cents. No dressed
birds will be brought to the local
buyers before the next ten days at
the earliest.

It has been found that the actual
work of the "busy" bee is performed
in about half a day.

BREAKING THE SILENCE

GOVERNMENT WINNING
IN TEXAS EPIZOOTIC

Washington, Nov. 5.—(U. P.)—
Control measures of the Department
of Agriculture employed in eradica-
tion of the foot-and-mouth disease in
southeastern Texas have proven ef-
fective, according to the reports to
the Department by Dr. Marion Imes,
in charge of the State and Federal
forces engaged in checking the mal-
ady.

Since the outbreak occurred on
September 27, the infection has not
spread from the area originally map-
ped out as dangerous territory. The
last infected herd was found by vet-
erinary inspectors October 15 and
was slaughtered and buried the same
day. The toll of the disease so far
has been limited to six herds con-
taining about 2,700 animals, and in
addition about 4,600 stray cattle
rounded up from exposed pastures.

Extraordinary precautions are be-
ing taken to guard the quarantined
area for stray animals. Public offi-
cials, railroad companies, stock-
men, and the public are giving
"wholehearted cooperation," and the
presence of Texas rangers have an
influence in obtaining compliance
with the necessary regulations, ac-
cording to Dr. Imes.

Regulations and restrictions of
States prohibiting the entry of live-
stock and other specified commodi-
ties from Texas, "are more reason-
able" than those promulgated during
the California outbreak of the dis-
ease, the Department believes. Re-
strictions imposed by Great Britain
on importations of livestock and an-
imal products from the United States
when the Texas outbreak was re-
ported, have been modified and now
restrict, chiefly, import shipments
originating in the Western and
Southwestern States.

AMERICANS TO BUY
IRISH FISHERIES

Dublin, Nov. 5.—(I. N. S.)—Re-
ports are in circulation here that an
American company, with a capital of
\$5,000,000, is being formed to take
over the Irish fishing industry. The
intention is to organize the industry
into one indivisible unit, so that the
losses incurred in one part of the
country may be recouped by profits
made elsewhere.

TWO WOMEN ARE GOVERNORS

"Ma" Ferguson Elected in Texas and
Mrs. Ross in Wyoming

Dallas, Tex., Nov. 5.—(A. P.)—
"Ma" Ferguson was elected governor
of Texas. Her opponent refuses to
concede the election, claiming ir-
regularities.

Cheyenne, Nov. 5.—(A. P.)—The
election of Mrs. Nellie T. Ross, Dem-
ocrat, widow of the late governor, to
the governorship is conceded.

SEEKING TO EXPAND
U. S. FOREIGN TRADE

Washington, Nov. 5.—(I. N. S.)—
Expansion of American foreign trade
is the objective of a move of the De-
partment of Commerce in establish-
ing new trade commission offices at
a number of points, and the enlarge-
ment of the forces in the already ex-
isting foreign stations.

New offices have been opened, or
are planned, at Helsingfors, Fin-
land; Christiania, Hamburg; Bombay,
and Calcutta, India; Montevideo,
Uruguay; Ottawa, Canada, and Can-
ton, China.

SOUTH DAKOTA IS SAFE

State Gives 19,000 Lead Over Sena-
tor La Follette

Sioux Falls, S. D., Nov. 5.—(A.
P.)—Coolidge's lead over LaFollette
was 19,000 and McMaster, Republi-
can, led Cherry for the senate by
15,000. Returns are in from more
than half the state.

BROOKHART DEFEATED BY
DEMOCRAT IN IOWA

Des Moines, Nov. 5.—(A. P.)—
Daniel F. Steek, Democrat, continues
today to increase his lead over Sena-
tor Smith W. Brookhart, the insur-
gent.

Replaces Wallace

Asst. Secy. of Agriculture How-
ard M. Gore. He gave up cam-
paigning for his election as Gov-
ernor of West Virginia, to take
over the full duties of the late
Secy. Wallace.

house, close in. Phone 139-R. 42tf

WANTED—Home in Grants Pass,
State price and terms. \$3500 and
under. No. 707 care Courier.

LET'S HELP CRESCENT CITY

Crescent City, California—here's a
spot we know too little about. We
of the North Bay counties are apt
to think of our own location as the
finest and best in California and,
while we have many things to just-
ify these opinions, we must remem-
ber that our neighboring counties
are similarly equipped with nature's
advantages.

Can you imagine an undeveloped
Marin county where nature is in its
most primitive state? That is just
what Del Norte county is. This
primitiveness does not mean back-
wardness, for the people of this dis-
trict are enthused over their advan-
tages and just as proud of their coun-
try as we are of Marin.

Crescent City, the metropolis of
this unspoiled area, is a thriving
community of enthusiasts who are
determined to make their city mod-
ern and attractive and to preserve
the natural advantages that have
attracted so many.

They have a harbor here that is
pleading for development. It is Cal-
ifornia's most northern seaport and
as such should be developed. We of
Marin county and the other counties
of this North-of-Bay region should
co-operate with Del Norte for the
completion of Crescent City harbor.
Our congress can do good for all nor-
thern California by finishing this
work. We are a part of the North-
of-Bay section and should be willing
to help Del Norte realize its hopes.

No matter how far you may get
into the wilderness, if you look
around you will have reminders of
Marin county presented to you. The
scenery is home-like in the extreme.
While visiting back in the mountains
about 30 miles I had another rem-
inder of Marin county. "California
Wild Flowers," by Mary Elizabeth
Parsons of Bolinas, was a textbook
of a community of flower lovers in
Bertalita, a mountain fastness pro-
in wild flowers and shrubs.—

Utmost protection
against weather and fire!

NO matter what the architecture of your home, if you want to protect it to the
utmost, you will select Carey Asbestos Slate Shingles.

Consider that thirty per cent of all fires are caused by outside contact, then you realize the impor-
tance of using asbestos shingles. Carey Asbestos Shingles bear the Class B Label of the Under-
writers' Laboratories, Inc. This label indicates that these shingles have successfully passed four
very rigid tests, one of which is the placing of two 8" x 16" cedar shingles, thoroughly ignited on
both sides, on a Carey Asbestos Slate Shingle roof (with space for air underneath) fanned by a
twelve mile breeze. The Carey Asbestos Slate Shingle withstood all four tests perfectly.

Asbestos felt is thoroughly saturated with asphalt and then coated with natural slate (in deep,
rich colorings, blue-black, red and green)—that is the way Carey Asbestos Slate Shingles are made.

They meet every possible requirement. Fire-resisting, durable, economical, attractive, practical.

Carey Asbestos Slate Shingles are approved by Underwriters' Laboratories and carry the Class B
Underwriters' label, thus meeting the requirements of strict building codes.
