### ALUMNAE PLAY PROGRESSING

Production Tomorrow Night Promises Much Interest

The play on which the alumnae have been working for several weeks is rapidly being rounded into shape and will be ready for production tomorrow night. The cast has put in a great deal of time on this play, for they felt that this was one way in which they could really help their school and do their part toward equipping the new building. The leading parts are taken by those who had previous experience in dramatics while in school so an excellent as well as entertaining production is assured.

On account of the lack of funds the board was unable to finish the gym or equip it. Nevertheless, several graduating classes have left funds for this purpose and if the alumnae play is well supported it will be possible to buy all the equipment needed for basketball as well as a few essential pieces of apparatus.

The play will be given on both Thursday and Friday nights and seats are now being reserved at Horning's Shack.

### Unequally Divided

Not enough room for either professional men or farmers, is the problem in Holland today, where there are 205 persons to each square mile. France has 74 to a square mile, United States 11, Argentina only 3 and Australia, not quite 1 to a square mile.

Courier classified ads bring results.

### Not So Easy

Stanley Gleason, 20-year-old San Francisco bank clerk, lost his job because creditors started calling on him during office hours. Out of work, he sought easy money. One of his new companions killed a policeman who interfered with a holdup they had planned. Now Stanley is held on a murder charge. Co.
