NEW SOVET BUDGET INVOLVES HUGE SUM

Moscow, Nov. 25.—(A. P.)—Soviet Russia's budget for the coming year amounts to \$1,500,000,000, but its income from state industry and trade is only \$5,000,000. During the first eight months of this year only \$3,500,000 of this sum was realized, of which industry contributed a profit of \$2,100,000 and trade about \$1,400,000.

These revenues, small as they are, show a slight improvement over those of last year and are derived principally from the export of grain and the production of sugar and oil.

POLICE STATE THAT BLOOD STAINS ON ARTICLES ARE DISCOVERED

SUICIDE IS HELD POSSIBLE

Authorities Think Mrs. Sheatsley May Have Killed Herself and Another Person Concealed Body

Columbus, Ohio, Nov. 25.—(A. P.)—Authorities today said they believed Mrs. Sheatsley, whose body was found in the furnace of her home on November 17, was either murdered and cast into the furnace or committed suicide and was placed there by a person wishing to conceal the act. The discovery of alleged human blood stains on articles in the parsonage was declared by officers to indicate murder.

Dark stains which may be spots of human blood, found on a table covering stuffed away in an upstairs closet, on a pair of blue trousers, on a floor rug, on the asbestos covering of a heat conduit directly above the furnace door, and in other places, Prosecutor King said, proved it was with other evidence he had in his possession, that Mrs. Sheatsley was murdered and that her body was cast into the furnace in an effort to hide all trace of the crime.

The only other possible theory that Prosecutor King had in mind was that she might have committed suicide and her body placed in the furnace by some person who did not want it to become known that she had taken her life, he said.

Emphasis is laid, however, on the decided backing the bank has given the sugar industry and the resulting increase of production by the government controlled sugar properties to four times the output of 1921.

FOOTBALL SEASON WILL END

High School to Meet Eugene Next Thursday Afternoon

The last football game of the season will be played here on Thanksgiving day when the local high school eleven meets the fast aggregation from the Eugene high school. A fast game is in prospect with the blue and white wearers working out nightly for the battle. In the game with the northern team last year, the local boys were defeated, but only after giving their opponents one of the hardest sessions of the season. This year the Grants Pass outfit is much stronger and has a better all-round team. Fans have a good game in prospect with regular football weather promised.

Coach Brown expects his team to be in good condition for the game, although some of the boys were bruised up considerably in the Ashland game. Eugene is going strong with a victory chalked up last Saturday over Albany, the score being 7 to 0. The game will be a whirlwind wind-up for the season which has been most successful in recent years for the locals, with four games won and two lost.

The game will start at 2 o'clock sharp at the high school grounds. The ticket sale is now on, with two sides at the high school conducting a contest. Four hundred must be sold to let the high school break even on the day.

PRISONER NOT D'AUTREMONT

Five Postal Inspectors Fail to Establish Identification

McAlester, Okla., Nov. 25.—(A. P.)—Five postal inspectors late yesterday failed to identify the man held here, as Ray "Nick" DeAutremont, wanted in Oregon in connection with the Siskiyou train robbery. Posing in Muskogee as W. J. Porter, a millionaire owner of California property, the man succeeded in passing a number of "hot" checks and started to California with a customer to whom he proposed to trade a \$5,000,000 apartment house.

Five government inspectors examined the prisoner and declared he was not the man wanted for the Siskiyou tunnel robbery.

In McAlester, Smith, alias Porter, registered as J. B. McAlester of New York. He was arrested while purchasing a railroad ticket for which he tendered a check for \$100. Receipts in his possession indicated that he recently passed a check for \$1000 on a furniture firm in Little Rock for the purchase of a bill of furnishings which he claims he left in the store when he secured a few hundred dollars cash on the worthless paper.

FRENCH LOAN GOES OVER

Oversubscription Is Reported by New York Firm

New York, Nov. 25.—(A. P.)—The \$100,000,000 loan to the republic of France, offered here Monday through J. P. Morgan & Co., was from three to four times oversubscribed, bankers estimated last night. Wide distribution of the issue was assured by the response of investors from all part of the country. Subscription books were held open for 45 minutes to receive the flow of buying orders, most of which were said to represent purchases for investment rather than for speculation.

Substantial reductions will be made in allotments of the bonds, bankers indicated, although the cuts will not be so drastic as in the case of the American portion of the German loan, which was more than five times oversubscribed.

The French loan, which replaces a series of revolving credits originally granted to stabilize the franc, represents the third largest foreign financing operation of the year. A Japanese loan of \$150,000,000 was sold here last February and the \$110,000,000 American share of the \$200,000,000 German loan was floated last month.

WILD GAME PRESERVE STARTS

Pacific Coast Will Be Able to Hunt Lions and Tigers

Chicago, Nov. 25.—(U. P.)—Incorporation papers filed by the Pacific Coast Sportsmen's Club at Sacramento insure the establishment of a unique hunting preserve in California, according to an announcement here by the chairman of the board of directors.

The most interesting feature of the club will be a 20,000 acre park of wild land enclosed with a safety-fence of iron wire and stocked with African lions, Bengal tigers and other carnivorous varieties of dangerous big game.

Purchase of 50,000 acres within a few hours' motor drive of Los Angeles is being completed. The club holds options on this land and these will be closed as quickly as possible. Membership will be limited to 4,000. Plans will be worked out rapidly and there seems now little doubt that the club will open its gates next September.

A club house costing \$250,000 with groups of cottages will be erected and the club will be equipped for golf, polo, tennis, archery, swimming, fishing and shooting. The game will include ducks, geese, pheasants, wild turkeys, deer, elk, buffalo, bears, lions, tigers, leopards, and American mountain lions.

ANOTHER LAVA BEAR IS FOUND IN OREGON

Bend, Ore., Nov. 25.—(U. P.)—A second specimen of the lava bear, a dwarfed grizzly long sought in the Central Oregon wilds, is now in captivity. The animal is not more than a foot high and was captured on the ranch of J. M. Small, near Summer Lake. A posse of ranchers succeeded in lassoing the animal after a short chase.

The only other lava bear ever taken was captured last summer by Alfred Andrews, former government trapper, who searched three years before he found one. It was reported that he refused \$2000 offered by the Smithsonian Institute at Washington for the specimen.

PITTSBURGH WILL ERECT HUGE BUILDING TO BE KNOWN AS THE "CATHEDRAL OF LEARNING"

Pittsburgh, Nov. 25.—(A. P.)—A building of great height "to express the spirit of Pittsburgh achievement with such force and such grasp of its sublimity that the whole world will understand" is the underlying idea of the University of Pittsburgh's 52-story "Cathedral of Learning" to be erected at the entrance to Schenley Park and near the site of present facilities of the institution. The cathedral will cost \$10,000,000.

Chancellor J. C. Bowman expressed this idea as the principal purpose of the trustees in planning this radical departure in university building construction, pointing out that most educational buildings were long and low, modeled after the structures of ancient Greece and Rome. They suggested calmness and repose, he said, whereas the building planned for Pittsburgh will suggest achievement and ambition for further achievement. Repose, he said, is a reward for labor performed and is not the atmosphere in which youth should prepare for the struggles of life.

COURT WILL OFFER REWARD

Dumping of Garbage Along Highways Must Stop Is Decision

The county court has decided to let those causing the damage pay for the repairs in the future, and accordingly will next week offer a reward for the arrest and conviction of those dumping garbage along any of the highways. The Dry Diggings section is giving the most offense. As some are known who have been following the practice of dumping their rubbish along the highways the suggestion is made by the court that they clean up and entirely remove any such matter this week and avoid prosecution.

The law pertaining to this reads: If any person willfully throw, place or deposit upon any highway, street, alley, or easement used by the public for public travel any glass bottle, glass, nails, tacks, hoops, cans, tin, sheet iron, boards, refuse, carcass of any dead animal, or other substance which would mar the appearance or detract from the cleanliness or safety of such highway, street, alley, or easement, such person, upon conviction thereof, shall be punished by a fine not exceeding \$100.00 or by imprisonment in the County Jail not exceeding ten days.
