YOUR BIRTHDAY by Stella Wilder

Born today, you are destined to be remembered, that is certain, and the stars have reserved for you a place that will assume some prominence upon occasion, though at times who you are and what you have done may not be the most important memories of the world at large. Still, you're here to stay, whether it be in person or in the minds of those who carry you into the future, and you will surely influence a great many as you take your own busy and unorthodox journey through life.

SATURDAY, AUGUST 15
LEO (July 23-Aug. 22) -- Your stamina allows you to do more than most others today -- but even you will have to reckon with fatigue if you try to do too much too fast.

VIRGO (Aug. 23-Sept. 22) -- A combination of influences proves ineffective on you today, and you should be able to continue along your current course quite productively.

LIBRA (Sept. 23-Oct. 22) -- Follow the rules today -- or don't -- but know that each course will yield different results. You don't want the decision to be made for you!

SCORPIO (Oct. 23-Nov. 21) -- A little improvisation can add some spice to your day and yield an unexpected result. This may be something you want to put in place permanently.

SAGITTARIUS (Nov. 22-Dec. 21) -- You're in no mood for games today -- but someone else won't know that until you make it clear. You can do so without ruffling feathers.

CAPRICORN (Dec. 22-Jan. 19) -- You can demonstrate increased proficiency today -- and those in charge will likely give you more of what you've asked for in the past.

AQUARIUS (Jan. 20-Feb. 18) -- You can face what comes your way directly and without fuss today. Others are likely to hold you up as an admirable example.

PISCES (Feb. 19-March 20) -- You may take a very different approach than you had planned on -- but such changes are to be expected today and in the days to come.

ARIES (March 21-April 19) -- You'll want to take advantage of several opportunities to show off your skill and solid thinking. Someone in charge watches you closely.

TAURUS (April 20-May 20) -- What works for you today isn't likely to work for you indefinitely, so you must keep alternative methods fresh and ready to use as necessary.

GEMINI (May 21-June 20) -- Others have been telling you to try this or that for quite some time -- and today you may be tempted to do so. Your reaction surprises everyone!

CANCER (June 21-July 22) -- Your willingness to laugh at yourself first proves disarming today, and you're able to travel a dangerous path relatively unscathed.
