YOUR BIRTHDAY by Stella Wilder

Born today, you are confident but not overly so, and you know how to frame your confidence, how to "tee it up," so that it serves its purpose when you want to put it to good use. You know how to present yourself and your ideas in such a way that you simply exude know-how and expertise; others will surely listen to you for no other reason than you inspire confidence, and so you are able to persuade them of all manner of things -- not against their wills, exactly, but certainly in spite of any beliefs they may have that differ from your own.

MONDAY, APRIL 12

ARIES (March 21-April 19) -- Pay attention to how your cash flow is affected by certain behavior today. This should tell you what must happen in the days to come.

TAURUS (April 20-May 20) -- You want to be sure that your hypothesis is correct, but the answer you seek may not be available to

you just yet. Try an unorthodox approach.

GEMINI (May 21-June 20) -- You may be puzzled by the seemingly random assortment of events that are affecting you both directly and indirectly today. Ask questions!

CANCER (June 21-July 22) -- You cannot expect to control everything that is going on around you today. Pick and choose wisely, and your needs will be fulfilled.

LEO (July 23-Aug. 22) -- That which you've been warning others about is likely to come to pass today -- but the effects may be quite different from those you anticipated.

VIRGO (Aug. 23-Sept. 22) -- The games you play with another today can yield much more real information than expected. You may be forming quite a profitable habit.

LIBRA (Sept. 23-Oct. 22) -- You cannot afford to scatter your shots today; you must take the time to aim carefully and control any and all expenditures of energy.

SCORPIO (Oct. 23-Nov. 21) -- You may encounter some resistance today, but instead

of letting it get to you, you can instead find a way of gaining inspiration from it.

SAGITTARIUS (Nov. 22-Dec. 21) -- You know what's on the line today, and you know just how important your contribution to a group effort really is. Don't let them down.

CAPRICORN (Dec. 22-Jan. 19) -- The obvious takes on new meaning today, even as you search high and low for those signs and symbols that are far more difficult to discern.

AQUARIUS (Jan. 20-Feb. 18) -- You're likely to experience one or two glitches early on today, and these serve as effective warnings to you that nobody is perfect!

PISCES (Feb. 19-March 20) -- You must be ready with an alternate plan today, just in case things go wrong and you find that you're unable to do what you've prepared for.

MONDAY, APRIL 12, 2021

YOUR BIRTHDAY by Stella Wilder

Born today, you are one of the most forceful individuals born under your sign, and it is your responsibility at all times to control your energy, passion and overall approach, regardless of the situation you may find yourself in or the overriding circumstances surrounding it, so that you are not in any way off-putting to those who are not used to your "larger than life" demeanor.

TUESDAY, APRIL 13

ARIES (March 21-April 19) -- You're realizing that you can do much more than you have signed on for, if only the boss knows your capabilities. You must announce yourself!

TAURUS (April 20-May 20) -- Experimentation will surely lead you down a few interesting roads today -- but are they the right ones to take you where you want to go?

GEMINI (May 21-June 20) -- You're likely

to affect others in unusual ways today -- and they'll surely let you know it in no uncertain terms. Avoid the negative.

CANCER (June 21-July 22) -- That which has been planned for some time is ready to be put into motion, but you may have to wait for a signal from one not yet on the scene.

LEO (July 23-Aug. 22) -- You can strike a bargain with someone who, in the past, has been deaf to your entreaties and propositions. What exactly is different right now?

VIRGO (Aug. 23-Sept. 22) -- Recent work is paying off handsomely, but you may not be happy with the way something new is going. You must not be fooled by false advertising.

LIBRA (Sept. 23-Oct. 22) -- It's time to check in with others to make sure they are on the same page. Your turn as the boss may be coming to an end -- as it should.

SCORPIO (Oct. 23-Nov. 21) -- Unexpected influences will send you in several different directions early in the day, but

you will get things under control later on, surely.

SAGITTARIUS (Nov. 22-Dec. 21) -- Working with someone new, or in a new way, or both, will take some getting used to -- and today you can put in a lot of rewarding practice.

CAPRICORN (Dec. 22-Jan. 19) -- You are using things to your advantage in just the right ways, but today you may experience a minor setback. This is a reality check.

AQUARIUS (Jan. 20-Feb. 18) -- The information you gather today can be put to good use almost immediately -- but you must be willing to adjust your way of thinking.

PISCES (Feb. 19-March 20) -- Someone is doing what you want to be doing, but there may be no room for you to join the fun -- yet. Go about your business, but be ready.

Baker County Weed District - Noxious Weed List 2020-2021

Legal notice to control Baker County and Oregon State Noxious Weeds according to ORS 569.175 thru ORS 569.995 it is the responsibility of the land owner or occupant of the land to destroy and to prevent the following weeds from producing seeds within the Baker County Weed District. For more information contact Baker County Weed District at 541-523-0618, jpettingill@bakercounty.org, bakercounty.org/Weeds/Weeds.html, Facebook: @BCIWD

Oregon Revised Statutes, Chapter 569 — Weed Control (excerpts)

569.180 Noxious weeds as public nuisance; policy. In recognition of the imminent and continuous threat to natural resources...noxious weeds are declared to be a public nuisance and shall be detected, controlled and, where feasible, eradicated on all lands in this state.

What is a noxious weed?

A weed is designated noxious when it is considered by a governmental agency to be injurious to public health, agriculture, recreation, wildlife, or property (Oregon Administrative Law 603-052-1200). Most noxious weeds are non-native plants that are serious pests causing economic loss and harm the environment. Noxious weeds choke out crops, destroy range and pasture lands, clog waterways, affect human and animal health, and threaten native plant communities.

"EDRR", "A", or "B" Designated Weeds

"Early Detection/Rapid Response (EDRR)" -- Not Present in Baker County or Very Few Known Sites: Controlled at the expense of the Baker County Weed District which includes inventorying, treating, monitoring, and other follow-up activities.
