HOROSCOPES by Stella Wilder

YOUR BIRTHDAY by Stella Wilder

Born today, you often seem to be many things to many people, resulting in a general confusion about your birth sign. Some may peg you as a Gemini native, simply to explain your many different and sometimes conflicting facets, but the truth is that there is more than a "twin" vibe to you! You are far more complex than that and, in fact, you will spend the greater portion of your life trying to determine just who you are, and what you are most suited to in life -- personally and professionally.

WEDNESDAY, OCTOBER 20
LIBRA (Sept. 23-Oct. 22) -- You may think that your performance of late has not been up to par, but those around you will tell you otherwise. Listen to them!

SCORPIO (Oct. 23-Nov. 21) -- The changes you make before the day is out will all lead to some major new benefits -- but you must guard against changing too much.

SAGITTARIUS (Nov. 22-Dec. 21) -- A slowdown can be expected today, but you'll be able to avoid frustration by keeping busy and helping someone tend to business.

CAPRICORN (Dec. 22-Jan. 19) -- Even your best laid plans may go awry in some small way, but you should be able to avoid lasting delays. You've many irons in the fire.

AQUARIUS (Jan. 20-Feb. 18) -- You may be struggling to understand what's going on both inside and outside your immediate circle. Today you receive a key piece of information.

PISCES (Feb. 19-March 20) -- You can impress those around you today by doing precisely what you've planned -- but the flair you bring to the work is what really counts.

ARIES (March 21-April 19) -- Your personal style makes all the difference today as you pit yourself against others who are trying to accomplish much the same things.

TAURUS (April 20-May 20) -- You may run into those who object to your methods on grounds that you simply don't understand. It's time to demonstrate all you can do.

GEMINI (May 21-June 20) -- Your attempts to see clearly into the future today may fall short -- though you may get a brief glimpse of something that will soon matter very much.

CANCER (June 21-July 22) -- You are working hard to make necessary changes in both your outlook and your expectations. Soon you may banish disappointment for good!

LEO (July 23-Aug. 22) -- You mustn't let a minor irritation become a major issue today. Shrug it off -- or laugh it off -- and get back to work as soon as you can.

VIRGO (Aug. 23-Sept. 22) -- Your routine may be studied by those who do not understand how you can be so productive at this time -- but they don't understand the real you.
