A Jam on the New Road

With the completion of the plank roadway connecting the concrete pavement out near the Masonic cemetery with the T bridge last week, a number of autoists took advantage of the first fine day Sunday to take a trip as far as Davis Slough, at which point a two-mile break occurs in the paving. But there is only one turn-out between the Burkholder place and the bridge over Cunningham, that being on the top of the hill in front of Fred McNelly's home. It happened Sunday that three or four cars met on this hill in the afternoon and before they could maneuver to pass without getting off into the impassible mud, about a dozen cars were standing on the hill coming this way and half that number were on this side waiting to go out. After a couple of them had backed down to this side of the Burkholder place the others managed to open a lane for the incoming cars and traffic was resumed. It required about half an hour to get the tangle straightened out. Another passing platform on that quarter mile stretch would have prevented such congestion.

Back From Their Honeymoon

Mr. and Mrs. John W. Miller returned Tuesday from their wedding trip to Southern California and are now getting settled in their home northeast of the old school house. John says that they enjoyed great weather while down there and that the thermometer stood at 80 degrees New Year's day and every man attending the big football game was in his shirt sleeves. At that game a five-gallon bucket was passed among the 45,000 in attendance, for the relief of the European children and that when it passed him in the middle of the stand it was two-thirds full.

"Everywoman"

Paramount-Artcraft

A morality play of the first water written by the late Walter Browns and one of the sensations of the legitimate stage where it has been running for the past seven or eight years. The pictorial presentation gains new laurels for the man who conceived the idea of depicting the struggles of Everywoman in her search for King Love. A great spectacle, with an entertaining story and a wonderfully clever cast headed by Violet Heming, who comes directly from her big stage success "Three Faces East" to assume the role of Everywoman, and with Theodore Roberts, Wanda Hawley, Bebe Daniels, Irving Cummings, Monte Blue, James Neill, Clara Horton, Edythe Chapman, and a host of others too numerous to mention. A real treat and one which you can't well afford to miss at the Liberty January 20 and 21.

He adds: "There are a number of people from Coos county living here at Orland and a reunion is being planned to bring us together."

Norton was re-elected one of the directors of the bank.
