"ARE HONEYMOONS HAPPY?"
 A Supreme Comedy and PATHE NEWS

Kern on Roosevelt Highway
 County Commissioner Henry Kern does not hold views similar to many who have digested the highway situation regarding the expected improvement in this county, in connection with the Coos-Douglas county road, or relating to the Roosevelt highway, as quoted in the Marshfield Daily News.

In the first place, Mr. Kern believes the county has been handicapped by the tentative agreement made with the state highway commission before the county court came into the negotiations. He is of the opinion that to obtain the credits due Coos county for expenditures made in the past will not be an easy matter, for on his estimate, the county will be entitled to nearly \$400,000 credit for various highway improvements made since the former bond issue.

On the practically established basis of 50-50 construction, as agreed to for Coos county by Charles Hall, Mr. Kern is none too confident we shall profit very much, for the reason, that he is doubtful of receiving the just credit the county is entitled to. He referred in his talk to the old understanding when the first bond issue was made, to the effect that the state highway commission then agreed to match the expenditures. He says the commission is, of course, obligated by that agreement, but whether it will stand by it, is what is worrying him. Among the expenditures that would deserve credit from the state highway commission would be the county highway bridge for which bids were opened Tuesday at Coquille, amounting on estimates to \$75,000. This is a portion of the highway system on the map; an expenditure of \$50,000 on the county road below Bandon; other expenditures south of Coquille toward and beyond Myrtle Point, and the work done on the Glasgow to Hauser highway, all of which, save that for the bridge, being largely from money accruing from the bond issue.

Mr. Kern, in referring to the Roosevelt highway said that so far as he was able to learn at Portland when the conference was held last week, there is actually no expectation that any money will be expended on the project within two years, and at the end of that time, he declares, the \$2,500,000 voted will revert to the general state road fund. Commissioner Kern is not expecting to hear anything definite from the state highway commission for some time, he said, but he set no date.

Referring to "the old understanding when the first bond issue was made," we are quite sure that it was not a 50-50 proposition as stated but that we heard Mr. Adams, one of the first commissioners under the new law, at a meeting in Marshfield promise that the commission would carry out the pledge before made to Coos county by a former body—that the state would build the Roseburg road. But there have been so many changes in the commission since Mr. Adams' day and so long a time has elapsed without the fulfillment of the pledge that it may not be considered binding now.

To Improve North End Streets
 The council met in adjourned session last Monday evening with Mayor Hamilton and all councilmen present, to consider street improvements, especially those in the north end of town.

There was a large delegation present from that section, as well as of those who were anticipating a warm time in the consideration of the pool room ordinance, so that every seat was taken and many were standing.

A letter from the school board was read, requesting the council to make

Don't forget what a big newspaper bargain the Oregon Farmer is when remitting for the Sentinel.

\$100 Reward, \$100
 The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, Ohio. Sold by all Druggists. 75.

Card of Thanks
 We wish to heartily thank our friends and neighbors for their kind assistance and acts of sympathy during the illness and after the death of our husband and step-father.—Mrs. Mary Rohm, Mrs. Nettie Hayter, F. R. Steward, W. E. Steward, George Steward and Steve Steward.

Remember the O. A. C. Glee Club concert at the Liberty next Tuesday.

ATTENTION

Members Oregon Dairymen's Cooperative League

Reports having been circulated that the League was seeking to postpone the trial of suits against members who have violated their contracts with the League, a telegram for information was sent to the Portland office which elicited the following reply:

Portland, Ore., Mch 15th.

N. A. Loucks, District Agent,
 Oregon Dairymen's Cooperative League,
 Coquille, Oregon.

Reports that we have postponed suits are absolutely false. Briefs in the four principal cases have been filed several days and are awaiting court action only.

Oregon Dairymen's Cooperative League,
 Albert S. Hall, General Manager.

Not Yet Ready to Make Loans
 In answer to a request Secretary R. H. Mast, of the National Farm Loan Association here made for a supply of blanks to begin the work of making application again here for farm loans, he has received word from the Federal Reserve Land Bank at Spokane that the new forms are not ready and they do not yet know definitely when operations can be resumed. They add:
 "You doubtless are aware of the fact that in order to obtain funds to loan it will be necessary to organize and successfully conduct a bond selling campaign, of which the outcome must be awaited. The system has been marking time for over a year and much disappointment has ensued through the delays incidental to the suit brought to determine the constitutionality of the Federal Farm Loan Act. Now, however, that the

faith of the loyal supporters of the system has been fully vindicated and the questions involved adjudicated for all time, the associations of our district and prospective borrowers should endeavor to maintain for a little longer, if necessary, the same attitude of helpful consideration which has bridged over this trying period, and to give those charged with administrative responsibilities as much time as may be required to adjust our machinery to the heavy demands for service which will be made upon it."

Special Meetings Next Sunday
 Bro. L. E. Neal, formerly pastor of the Church of God of this city, will be here next Sunday, Mar. 20, and will hold services at 11 A. M., also at 7:30 P. M. in the Church of God chapel, (M. E. church North). Everybody cordially invited to attend.
 L. Myrberg, Sec.

Nearly Up to Pre-War Prices
 Milk is selling for \$3.32 a hundred pounds in Portland. That is 15 per cent less than \$3.90, the highest price ever reached during and following the war. We know of no other farm product that has fallen in price so little as milk. Nearly all farm crops are back to pre-war prices and many of them are 50 per cent less than the maximum reached during and following the war.—Oregon League Dairymen.

Over \$400,000 Investment
 The Bandon Condensary claims that its plant at Bandon, with steamer on the river and warehouse at Coquille represents an investment of \$400,000 in Coos county. They also aver that their Bandon condensary with a capacity of 250,000 pounds of milk a day has never yet received more than \$1,000.
