City School Notes

Visiting day for prospective September pupils was well remembered, there being nineteen children and six adults present all or part of the day. Little Frederick Fahrman, who seemed to make close observation of all proceedings, very modestly repeated the alphabet and was rewarded with a star after his name on the blackboard much to the delight of the others.

Our county school nurse, Miss Campbell, assisted by Mrs. Ida Owen, weighed and measured all the pupils of the first four grades, but 200 in number, in less than two hours, on the last day of school. These records will be saved for comparison when school opens in the fall. Much credit is due these Health Crusade people who have done their best to encourage pupils to regulate their diet so as to maintain a normal physical development. The co-operation of the Red Cross has been one of their greatest assistants. The teachers have given freely of their time and attention to advance the cause.

The list of Honor pupils is the longest this year that it has ever been. Thirty-one had not missed a day during the last semester and were given blue ribbon badges. Twenty-seven others had not missed a day in the entire year and received certificates of attendance tied with blue ribbons.

Coal Near Sunset Bay

Engaged with Edgar and Louis J. Simpson, E. L. Robinson is searching out a coal deposit on the coast district west of South inlet. He maintains a camp on Big Creek, and has a couple of men working with him in the employment. Mr. Robinson says the vein has been located for a distance of a mile, and in most places is easy to trace, while in some places the old burns have obliterated the signs and float and he finds it difficult to pick up the leads in such localities. He expects to be engaged on the work for a couple of months longer.—Daily News.

Some time you are going to sleep and not wake up. That event may happen at the wrong time. Your boy, instead of going through college and growing up to be a man of affairs may be suddenly thrown into the army of unskilled labor. And the little daughter may be denied the opportunity of a proper education and have to spend her beautiful years in unpleasant circumstances.
