Antonio Moreno in

"THE ISLAND OF REGENERATION"

A Powerful Story of the South Seas by Rev. Townsend Brady. A Baby Robinson Crusoe completely outdoes the old fellow that we have all heard about. At the age of five he was cast away upon a lonely island and remained there for Twenty-one years. Katherine Brenton, a wealthy young Miss, had risked her life to flee from one savage, and she, a castaway, landed upon the same island. Love, romance and thrills abound.

Wild Men of Africa in

"JUNGLE DANCERS"

Paramount-Vanderbergh Exploration Series

This is the first of a series of Two Reel features. All are curious, and thrilling and educational. The first motion pictures ever made of these primitive people. You will see their funeral customs, dentistry and the art of body sacrifice. Also the witch dance, which is very similar to our modern dances.

You Can Cook in Comfort in a Wired Home

How glad you will be this summer if your house has been wired for electricity!

An electric range heats the food and not the cook and an electric fan gives cooling breezes to offset the heat of nature.

But that is not all—it is only in a wired home that your housework can be lightened by the numerous motor-driven labor-savers now in such common use.

Our estimates will show you how really inexpensive the many advantages of electric service are.
