**MODERN
CRANKCASE
CLEANING
SERVICE**

Automobile manufacturers carefully recommend, in their Books of
Instructions, regular draining and cleaning of the crankcase.

This is necessary because engine operation causes road dust, carbon,
fine metal particles and other impurities to accumulate in your crank-
case oil. This gritty oil circulates through your engine, impairs its per-
formance and ultimately leads to rapid depreciation and repairs.

To meet this need, Modern Crankcase
Cleaning Service has been established by
Standard Oil Company and other dealers, co-
operating with the Standard Oil Company.
These progressive dealers use Cold Frick-
ing Oil—the scientific agent that cleans
out old oil, dirt, grit and other impurities.

and does not impair the lubricating ef-
ficiency of fresh oil used. The cleaned crank-
case is refilled with the correct grade of
Standard Oil.

Look for the garage or dealer displaying
the sign shown above—it means "Better
operation and longer engine life."

How often should your crankcase be CLEANED?

RULED BY THINGS MATERIAL.

Writer Asserts That Americans Are
Behind Rest of World in In-
tellectual Progress.

It is, I think, true to say that the
material progress of America has
exceedingly surpassed the intellectual
progress, writes St. John Ervine in the
Century magazine. That is why a Euro-
pean, visiting the United States, is
disconcerted to find men of business
power in business talking the children
in an elementary school about literature
and art.

It is this absorption in material
things which, though it has made Amer-
ica the dominant nation, is the most
uncomfortable in the world. In America
a good deal of the money of the old
and renowned diplomats of Europe in
the peace conferences. Culture, given
by contemplation of art and literature,
is the power to know and understand

business nature and motive. Centuries
of familiarity with the garbed
beauty and learning of the world have
gone to the making of the European
statesman, but only a generation or
two of intimate knowledge of great
business and the machinery had gone
to the making of the American delin-
quent.

The great engines of America, the
fact that its resources are still unde-
veloped, and that fortune seems very
readily to be made by men whose wits
are both agile and accommodating,
make the responsiveness of its high
general culture difficult. The standards
of America are constantly being displaced
by the temptations of newly enriched
men, who pass from poverty to afflu-
ence so rapidly that while they have
the means for a life of culture, they
have not the mentality for it.

Now God to Man
He dropped into a Sawtooth crady

store to make an inevitable purchase.
"What will you have?" asked the
young lady behind the counter, smil-
ing at her various chocolates, cream
caramels and others too numerous to
mention even in the advertisement.

The purchaser happened to be espe-
cially fond of a certain sort of cho-
colate-coated cream. Pointing at a jar
of these, he said: "Put emphasis on
this."

The girl looked blank for a moment,
then replied, gravely:
"The sorry, we are all out of that."—

New Disease Discovered
(From Farm Bureau News)
Dr. H. P. Barns, of the experiment
station, reports a new form of mildew
which has never before been reported
in the United States. The sam-
ples were sent in by the Ocoee County
Agent and taken from gooseberry
plants on the farm of H. B. Corber,
at Coquille. Fortunately the disease
is not a difficult one to control.

Pseudopoxia
(From Farm Bureau News)

"Lewie! Lewie! that sure would kill 'em."
This is the name Plant Pathologists
give to a leaf spot fungus which is at
present causing all the worry in the
camp of Purple Vetch growers. Per-
haps it is an arboreal and that is
why it sticks on the Purple Vetch, a
more valuable variety than the com-
mon vetch, which is not so badly af-
fected. Every field is laboring under

its ravages and in many cases it has
prevented the setting of any pods and
some growers say there will be no
vetch unless there is first pod. The
damage at present amounts to some
\$20,000 and there are no known reme-
dies. The warm rainy weather has
been responsible for its attack which
have never been so severe. Unless you
get warmer, drier weather, many
crops will be a total loss.

Buy a pipe—
and some P.A.

Get the joy that's due you!

We print it right here that if you don't know the
"feel" and the friendship of a joyous jimmy pipe—
GO GET ONE! And—get some Prince Albert and
hang a howdy-do on the big smoke-gong!

For, Prince Albert's quality—flavor—coolness—
fragrance—is in a class of its own! You never tasted
such tobacco! Why—figure out what it alone means
to your tongue and temper when we tell you that
Prince Albert can't bite, can't parch! Our exclusive
patented process fixes that!

Prince Albert is a revelation in a man's cigarette!
My, but how that delightful flavor makes a dent!
And, how it does answer that hankering! Prince
Albert rolls easy and stays put because it is crimped
cut. And, say—oh, go on and get the papers or a pipe!
Do it right now!

Prince Albert is
sold in every
store, drug and
grocery store
and half priced
elsewhere and
the quality of
the product will
speak for itself.
