RANDOLPH NOTES

A number of people of Randolph and Parkersburg attended the Protective Association picnic at Bandon on Thursday of last week. They report a very pleasant and successful meeting. The Norma is again launched after undergoing repairs at Herman Bros. shipyard.

Mr. and Mrs. Kims and son, Irman, of Coquille, have visited consecutively at the Clyde Carlson home last week.

Last Sunday a number of farmers and their families from Parkersburg and Randolph went to the upper Coquille country to study the Cangry grass in that section. They returned, some very enthusiastic, while all thought it looked exceptionally pro-

fitable, so much so that some hesitate to believe it all that it seems, thinking there's a joke some where in the proposition. If there is we would like to hear about it as several intend planting seeds as soon as the season it fit.

Frank Maynard and wife left for an extended trip through California. They may locate there, having sold their place here last year.

Mr. and Mrs. Henry Miller, of Parkersburg, are the proud parents of a son who arrived there recently.
