Letter From the New Manager

The following is a copy of the letter which E. C. Eldridge, the new manager of the Oregon Dairyman's Co-operative League, has just sent to all the members of the League:

"You will, of course, be looking for a word from the new manager; and you will realize, in receiving this greeting, that he cannot, within the compass of a letter, touch upon the numerous points or say the many things to you that he could in a personal interview. He will, however, avail himself of the first opportunity to visit your territory and meet personally as many League members as it is possible so to meet.

"In the meantime the new manager enters upon his duties with a firm conviction of the merits and justice of the principle of co-operative marketing, and in full confidence that our own 'Oregon Dairyman's Co-operative League' is the medium through which Oregon and Washington producers are to achieve their economic independence and salvation.

"The days of excessive profits, fortune building, and indifference to the producer of middlemen are limited. They know it. Hence many and devious attempts to strangle and neutralize efforts of producers to co-operate for their own mutual benefit. These attempts at destruction only emphasize the necessity of producers standing shoulder to shoulder in self-defense, but there is no reason why producers cannot manage their own business as well as other classes manage theirs. And they will, too.

"Co-operative institutions, almost without exception, have to pass through an experimental stage during which more or less mistakes are made, always hurtful, and sometimes discouraging; if our own League has been no exception to the rule let us not fix the responsibility—better far to credit each and every one connected with the work with an honest effort, and be 'GOOD AND SURE' that we don't repeat any mistakes that may have been made. Let us profit by these mistakes—bear in mind that the greatest trials of co-operative systems are at the start, but once on 'easy street' they make private enterprises ashamed of themselves, for results.

"It requires fighters, though, it calls for patience, sacrifice, and determination. The writer has been a producer himself—he has 'palled' the cows—not behind a desk, but out in the barnyard; he has plowed, cut the hay, driven a milk wagon, made the butter—he has done all the things you do; he knows something of your problems; he is in full sympathy with your work and interest; he is with you to the last ditch; he will fight with you and for you, but you must fight too.

"Bear in mind that your duty is not done when you have signed the League contract and deliver your product at the League's factory—you must preach to your neighbor the gospel of co-operation; preach it day and night—'get him IN'—the more members, the better the results, and the more favorable the market conditions.

"If things do not always go just right, don't preach that fact to your neighbor—tell it to the person who might explain, correct, or adjust your trouble; keep it in the family.

"If you have a real grievance, address your complaint to me personally—you can bet your farm it will get attention.

"In conclusion, let me say that your claim for justice and success rests somewhat on the interest and active part you take in your own affairs. THIS IS YOUR BUSINESS—you must foster its success. 'Your interests' shall ever be my own watchword, and I shall always be gratified to hear from you—helpful, constructive suggestions will be ever welcome; and with a confidence born of experience and a measure of personal success, I foresee in the Oregon Dairyman's Co-operative League an example in co-operation, not only worthy of emulation, but that will stand as a monument to the energy, intelligence, and business capacity of the American producer."

Feed Crops Are Fine

County Agent C. C. Farr tells the Sentinel that feed conditions in Coos County are more promising than they have been for years. Late spring rains and excellent curing weather has made this possible. With the reduction in the size of dairy herds, culling out of many low producers which have gone for beef, and with the large hay crop indications are that Coos County will purchase only 50 per cent of the normal importation of hay.

Good clover hay and rye grass hay is selling for \$8.00 per ton in the field. A great deal of hay is being stacked out side which is very uncommon, inasmuch as usual conditions necessitate covering the hay as soon as it is cured. Many people are stacking with the idea of baling or selling.

Coquille Wins From Marshfield

The game at North Bend last Sunday between Coquille and Marshfield was one of those close games, with a goodly number of hits and few errors, which the fans like to watch. It was a question until the last man was retired who would win.

Berg, Coquille's new pitcher, was right up on his toes all the time and he pitched a splendid game. Ring, of Marshfield, also pitched a game that would win nine games out of ten.

The following is a synopsis of the salient features of play:

The game started with Booth's two bagger, followed by two sacker by Oerding, scoring Booth. Oerding tried to stretch it to a three bagger and was thrown out on third. Howell was hit by pitched ball. Keene fanned. Leslie took first on balls, Smith lammed out another two bagger, scoring Howell. Ringle fanned. Coquille 2 scores.

In the fifth Burke led with a hit. Ring bumped a long hit, scoring Burke. Robson sacrificed, advancing Ring to second. Willis took first on Booth's error. Ring tried to make home but was thrown out at the plate. Gill rapped a grounder to second and was retired at first. Coquille 2, Marshfield 1.

In the last half of the ninth "Happy" Smith made a phenomenal catch. Burke hit into right, Smith had to run up to catch the fly, realizing he was late, made a dive at the ball with one hand, turned about three summer-sculls and came up smiling with the ball in his glove. This catch saved the game as the next batter, Bing, bumped a neat hit.

Myrtle Point performed the unexpected last Sunday and on their home grounds trounced the league leaders, who had not before lost a game, by the score of 12 to 2. North Bend has the pennant clinched now, but it would not be surprising, if she did not win another game this season.

Next Sunday Coquille goes to North Bend for a game with the leaders, and as the local team has now the best team as a whole in the league, a repetition of Myrtle Point's performance can be confidently expected. The North Bend fans will probably not be as eager for bet as they were the last time the two teams met.

Marshfield will play at Myrtle Point.

Second Team Beats Bandon

Coquille's second team defeated the Bandon second team at Langlois last Sunday by a score of 20 to 16. The Coquillers arrived at Bandon but found that through some misunderstanding the Bandon team had gone to Langlois, so they struck out for Langlois, arriving there in the third inning. The game was called off. Bandon picked out a team from the two and the battle started, the local team winning a hit and run game.

Next Sunday Bandon second will play the Coquille second here. If you want to see some coming players, come out.
