**Fall Term Opens September 26.**

A high standard of cultural and professional scholarship has become one of the outstanding marks of the State University. For a catalogue, inquiry on the various schools, or for any information, write THE REGISTRAR, UNIVERSITY OF OREGON, Eugene, Ore.

**Daintiness**

is a characteristic of this restaurant's service. Especially is this apparent at the tables reserved for ladies. It doubles the pleasure of eating and appeals to the love of beauty innate in all women. We have a special welcome for ladies luncheon or dining without escorts. We shall be glad to extend it to you at any time.

**RANDOLPH NOTES**

Mr. and Mrs. John Langlois visited their daughter, Mrs. Oliver Walstrom, of Parkersburg Sunday.

Mrs. A. E. Buckingham, of Monroe, Ore., was a guest at the Philpott home over Sunday. They also had Claude Strader, of Two Hills, for a few days.

A shipment of cedar logs, split cedar and cedar poles and also a number of fir poles was taken out of this place for outside shipment the first of the week.

Mrs. Alex McLeod was recently operated on for removal of tonsils at Marshfield. She was in the hospital four days, returning Saturday.

J. E. Cochran, Jett Cochran and Thad Shinn, of Parkersburg, and Wm. Philpott and Euel Philpott motored to Coquille Tuesday in the Philpott car.

The Randolph Sunday School picnic was a very pleasant affair, there being more than sixty in attendance. A very instructive sermon by Rev. J. E. Walker, of Myrtle Point, was the morning feature, a dinner in the woods with a very bountiful supply of good things to eat and drink and a Sunday School in the afternoon.

Prosper and Parkersburg people and outside visitors added to the pleasure of the day.

M. E. Hultin, formerly of this place but for the last four years a coast guard at the Winchester Bay station, has been appointed to tend the range lights on the lower Coquille River. His work began Sept. 1.

Companionship, not superiority of one over the other, is proven to be one of the worth while things of life in Lois Weber's "WHAT'S WORTH WHILE" at the Liberty Sept. 13 and 14. Program on page three.

Do you want a Fortland daily. If you subscribe for it in connection with the Sentinel it will be money in your pocket.

**Cranberries Grown in Oregon**

The cranberry is the only fruit grown in the United States whose course of travel is from east to west. Realizing that this state is a fruit-producing state, men of broad vision in the district at the mouth of the Columbia entered the cranberry game and have developed it to such an extent that at present time it is supplying a great many of the cranberries used on the Pacific Coast, but there are still berries shipped in from the East.

Land that was considered waste has been made productive. The total investment in land and improvements in the district amount to a million dollars.

Those members of the Oregon State Editorial Association who were fortunate enough to visit the cranberry bogs in Clatsop county, Oregon, last fall were astounded at the magnitude of the industry.

The cranberry industry on the Pacific Coast, while new, already occupies a firm place among the horticultural industries of the Northwest. Berries of very fine quality are grown in Oregon and Washington, in the district at the mouth of the Columbia River. Here is a great frost-free zone, with abundant rainfall, having a climate admirably adapted to the growing of cranberries.

**Round-Up Sept. 22-24**

Pendleton is ready once again to stage that great outdoor drama, the Round-Up, September 22, 23 and 24.

Each year the show eclipses that of the year before and there is no doubt that the 1921 presentation will break all records. A galaxy of star performers, including the famous Charles Irwin family of 30 cowboys and cowgirls, as well as individual performers, among them Yak and Kitty Canutt, Frank McCarrroll, Prairie Rose and Johnny Judd, will be there. Tom Mix, daredevil cowboy screen hero, and his company, will compete in events of track and arena. Snappy steers, fast relay strings and hot tempered buckers are ready for the three big days. Thirty-five of the Round Up's own string of horses are there and with the try-outs next week, some real sparks will fly.

Among the buckers is "Hotblood Sam," a new horse from Idaho, who has unceremoniously dispatched 16 consecutive would-be riders from his ever-moving hurricane deck and who will battle for supremacy with cowboy riders this year. Prizes in the various events are the greatest ever offered.

Excellent accommodations are promised. The show is purely a community affair and as such, Pendleton homes are thrown open to the thousands of visitors. The Round-Up association limits the price to \$2.50 for double beds, and also regulates the price of meals, no profiteering being tolerated.

"WHAT'S WORTH WHILE?" Many things. We assure you of a pleasant evening when we present this Lois Weber picture at the Liberty Sept. 13 and 14. Program on page three.

Calling Cards, 100 for \$1.50.

**Value of Credit**

A CHECKING account is the first step toward establishing credit with a bank.

And credit today is a real asset. Yet it is what you make it.

The right credit at the right time at the right bank may be worth more to you than a batch of letters presented by you as a stranger.

We seek growing accounts of growing business men--men who will come to us for advice, and who will want the friendship of a strong bank when credit is needed.

This bank will be glad to meet you and serve you. It is a pleasure, as well as good business, to have young men grow with us.

**Bandon Takes Big Cargo**

The Steamer Bandon put to sea Tuesday night for San Francisco carrying the largest cargo of lumber that vessel has ever taken out of the Bandon harbor, 541,000 feet. This was not the largest cargo ever taken out of that port but the largest for the Bandon which has been plying between here and California ports for a number of years. The Grace Dollar, a steel vessel, which formerly plied between Bandon and San Francisco, took out cargoes of 800,000 and over.

It is apparent that bar conditions are much improved since the dredge has been operating. The crew of the tug Kihyam made soundings on Tuesday night and found the most shallow place to have 17 feet of water.--Western World.

**Cutting Down Overhead**

D. F. Jenkins, of Bear Creek, member of the Dairymen's League, is encouraged over the report just received from the new president, K. C. Eldridge. The report shows that a total monthly saving of \$4,363 has been made by dispensing with salaries. At the Coquille factory the salary was cut from \$250 to \$100 a month; at Marshfield \$425 was cut off in salaries and changes; at Broad-bent the plant was closed down altogether. Instead of directors meeting monthly they will in the future meet every three or four months. The League has retrenched in every way, even to the one-half of one per cent spent for advertising. This has also been eliminated.--Western World.

Calling Cards, 100 for \$1.50.
