"Felix" is in Very Bad

Edward "Felix" Arbach, the screen comedian, is in a fine way to spend a large portion of the remainder of his life behind prison bars, as the result of the death of Miss Virginia Rappa, a movie actress in San Francisco last week. Her death followed a party given in Arbach's honor, at which he was plentiful; but the grand jury, which indicted him for manslaughter, believed her death was due to the attempted criminal assault which Arbach made in the hour he had her locked in his room. He is noted for the wild parties he has given at his home in Los Angeles, but this time he surpassed all previous escapades and is deserving of no sympathy from any one. Whatever may be the result of his trial, his popularity as a movie actor is dead. In fact many cities have already barred the showing of any of his pictures.

"Safety First," Said Pete

Ed Lorenz tells a good one on Pete Miller, with whom he was hunting down in Curry county the first of the month. Pete had heard a good deal of the wild hogs in Curry, but when Ed suggested that he go drive back a bunch of porkers who were crossing the stream to get into a man's garden, Pete called the dog and started for home. The hogs resented the dog's intrusion and made for him. That was enough for Pete, who broke all records getting away from the place and went past Ed so rapidly in his flight that he got tangled up in about fifty feet of fish line Ed had laid out and it required some time to disentangle the line from about his legs and extract the fish hooks from his body.

NEAR EAST RELIEF

U. S. ARMY HEAD ASKS ARMENIAN AID

Washington — Major General James G. Harbord, recently appointed General Pershing's assistant Chief of Staff, has gone on record in support of the work of the Near East Relief in Armenia. He says, in a letter to the Near East Relief:

"Of all the heart-breaking distress that exists in other countries, I believe that the Near East situation should most appeal to our charitable people. There are many thousands of helpless orphans—children of Christian parents in a Moslem land, who must be helped by our people if they are to survive. The Armenians have preserved their race, their religion and their language under conditions of distress for over a thousand years. They are the only of a better fate than to perish, and I believe that will be their fate without substantial financial and moral support from the good people of our country."

"I G. HARBORD, Major General, U. S. Army."

General Harbord is one of the trustees of the Near East Relief organization, now making a general appeal for funds to continue the work among the destitute of Bible lands.

At the same time, the Greek queen sent her check to Dr. Barton, Chairman of the Near East Relief Committee, for 1,000 francs as a contribution to what she termed the "beautiful work" of feeding, clothing and housing the more than 1,200,000 little children who have come under the care of the Near East Relief during the past year.

Bonnie Queen Sophia, Adm. P. Comandante, of the Royal Hellenic Navy, who was regent of Greece following the death of the late King Alexander, on October 21, last, has also added to express the gratitude of the Greek people for the aid furnished the Christian populations of Turkey by the Near East Relief. More than \$126,000.00 was raised among the Greeks of the United States in two weeks, and sent to the Near East Relief.

It is used in helping the widows and orphans rendered destitute by the continuation of disturbed conditions in the former Ottoman Empire. The funds of the Near East Relief are gathered by private subscription not only among Americans, but among the Armenians and Greeks in the United States, whose countrymen in Turkey and Transcaucasia have been through indescribable suffering.

In an official report to Charles V. Vickroy, General Secretary of the Near East Relief, Miss Glen, assistant of Spencer, Iowa, describes the pitiable condition of tens of thousands of homeless, starving, half-naked refugees, driven from their homes in the war area, and huddled in stables and out-houses, or on the bare ground, for lack of shelter.

Most of the refugees are country people, with almost nothing except the clothes on their backs, starved and dazed by their misfortune. Bread is given only to women and children at the rate of one-half loaf for a person, each day. The milk is reserved for the babies and sick. The refugees sit around, huddled up against the walls—women with dull, sad faces, little children that are blue and pinched with the cold, and too miserably lifeless to cry. One family of five sleeps at night on a bare stone floor, under one thin, ragged half-cotton blanket. In one room several women are washing away with tuberculous; in another are some severe eye cases, including two young blind girls, who have no one in the world to care for them. The overflow from these buildings live in a wooden shed with the walls and floors gapping with holes where the wood has rotted away and in tents improvised from rags and pieces of carpet.

A nation-wide appeal is being made to carry on this work, checks to be sent to Cleveland H. Dodge, Treasurer, 1 Madison Avenue, New York City.

HABIT OF SUFFERING

Four suffering humanity is so accustomed to "take something" for every pain, ache or bodily ill that many are astonished to learn that osteopathy is applicable to diseases other than mechanical ill and injuries.
