Want Law Changed

Senator J. P. Boyan returned Saturday from Portland, where he attended the state meeting of the county association. He says the members of that body agreed to petition their representatives in the legislature to repeal the law requiring assessors to gather agricultural and horticultural statistics in the spring before they are ripe. He further knows at that time how much of any crop he will plant and how guesses are all that are available in the way of statistics.

At their meeting the first of the week each member of the China Camp Gun Club pledged himself as a committee of one to see that the Chinese pheasants are protected. "Human Hearts"

The Great American Drama. The story of sorrow—playing upon the heartstrings with its thrilling, poignant drama—explaining with gentle smiles the tears it will bring, as its gentle honesty hums sinks deeper and deeper into your heart. It is a story of home—of a wonderful, beautiful love—of pathos and humor—of a wife who was an outcast—of a son who suffered because of his love for the One Woman. It is a tremendous drama of life. Don't Miss It!

Be Careful, Not Stubborn

People walking on the highway should be very careful when cars are passing and when two autos are passing each other, the only safe thing to do is to give them the entire roadway. It isn't the right of pedestrians to walk two, three or four abreast with utter disregard for the rights of car owners. Some one is going to be badly injured unless pedestrians as well as autoists, are more careful and ready to recognize the rights of others.

The teacher was trying to impress upon her pupils the importance of doing right at all times, and to bring out the answer. "Bad habits," she inquired: "What is that we find so easy to get into and so hard to get out of?" There was silence for a moment and then one little fellow answered: "Bad."

His Prize-Winning Memory

"How are you getting on in school?" asked Willie's uncle. "Fine," said the boy. "Get any prizes?" "Two." "What did you get them for?" "One was for good memory and the other—" William halted and scratched his head a moment—"I forget what I got the other one for."
