Keep Your Hens Healthy

Egg production depends on proper feeding and a healthy flock. Hens should be given a tonic regularly, but especially during this season of bad weather. Tonics are not egg makers but will keep the hens in condition to give best results when properly fed. It is not expensive. Call for it. We have it.

Car and Truck Sales

Everything points to the greatest spring demand for Ford Products in the Company's history—1,202,517 Ford Cars and Trucks were delivered to retail purchasers in the United States alone during 1922—it was the ninth consecutive month in which more than 100,000 Ford Cars and Trucks were retailed—keeping the Ford Plants working at capacity to meet dealers' requirements—

In many parts of the country dealers are already finding it necessary to specify later delivery dates on certain types because there are no reserve stocks to draw from—Commercial users, business houses and farmers, anticipating their future requirements, are placing orders and taking delivery of Ford Cars, Trucks and Fordson Tractors to insure against delay—

Everything points to the biggest shortage of Ford Products this Spring that has ever existed—The only way you can be sure of obtaining delivery of a Ford Car, Truck or Fordson Tractor is to list your order immediately—

We have given you these facts as they actually exist so that if you are planning to purchase a Ford Car, Truck or Tractor for use this Spring or Summer, you can list your order now and take advantage of our dealer's first opportunity to make delivery.
