

365 Days of Hoosier Happiness Each Year

Women who are not familiar with the HOOSIER exclaim on having its labor-saving improvements explained to them, "I never knew it was possible to make kitchen work so easy!"

The hardest work your wife does is in the kitchen. If yours is an average home, she walks miles every day in the hot, stuffy atmosphere of the least comfortable room in the house. She takes miles of useless steps each day. She works "overtime" when other women are enjoying themselves.

No wonder there are so many times when she is "all played out by night!" Surely you will be interested in making her work easier.

Come in and let us explain how HOOSIER cuts the hardest household tasks in two.

MYRTLE POINT ITEMS

The W. C. T. U. held their regular meeting at the home of Mrs. L. D. Cook on Tuesday afternoon.

Mrs. Wm. Miller was a Powers visitor Tuesday.

W. W. Doyce left Wednesday for Bandon where he will sail on the Elizabeth. He will go to Southern California, where he will visit his parents. Gus Hamilton has been quite ill this week.

The Junior class of the high school will give a play at the Unique Theatre March 23, entitled "The Dictator." Everyone should plan on attending as it will be very good.

Joe Knight Jr. has moved his family here from Powers and is now employed at the Randle store.

Verla and Lucile Sumerlin are both too ill to attend school this week.

Dr. and Mrs. Bray returned from Medford last Sunday.

Last Tuesday Mr. Bledsoe suffered a severe hemorrhage from the nose and a physician was called to his relief.

The revival services being held in the Christian church by Evangelist Russell of Coquille are exceptionally well attended. Last Sunday evening over one hundred and fifty were present. And one evening last week over thirty people came up from Coquille to attend.

R. A. Annin was a Marshfield visitor on Wednesday.

C. O. Jennings made a business trip to Bandon this week.

Dr. Louis Anderson is back from his trip but has not decided yet just where he will locate when he goes from here.

The student body of the high school went down to the depot to see the boys basket ball team depart for Salem, where they will compete for the state championship. The boys going were Elton Schroeder, Clarence Carter, Ellis Shull, Elmer Gant, Claire Keltner, Kenneth Peel, William Nelson and the coach, Howard George, principal of the high school.

Mrs. Marie Ball was a Marshfield visitor over the week end.

Miss Vivian Anderson left last week for a short trip to Portland. Mrs. Gilbert Schriefer is filling her place in the Hub store.

Clark Fenalar was a Powers visitor Sunday.

The entertainment Tuesday and Wednesday evenings given at the Unique Theatre was a big success. The educational picture "Nook of the North" was shown first, the high school features following. The proceeds will go to pay for the high school annual. Following is the program given: orchestra numbers, dialogue, "The grass crop versus the proposal"; piano trio; recitation, "The Silk Stockings"; dialogue, "At the Photographers"; recitation, "The Clown's Baby"; Song by the Glee club, "Voices in the Woods"; Southern Coos County American high school edition; songs by Helen Billings; pantomime, "Courtship under Difficulties"; Folk dance, "The Jumping Jack"; Comedians De Lux; orchestra.

C. C. Carter was a Powers visitor on Wednesday.

Mrs. Warren Doyce entertained the Presbyterian Ladies' Aid on Wednesday.

Clermont Hannevold and "Kackem" Knight were Norway visitors on Tuesday.

Mrs. Winnie Barker has purchased the hotel in the Hamilton building in

in paying the just claims they owed to the people of San Francisco, when the insurance companies of our country, England and France paid them what they owed, are among the men today in Germany who are trying to discount the amount of reparations which are due France."

The above items are from the Pathfinder of Feb. 10, pages 6 and 7.

It is estimated that not less than \$,000,000,000 of gold U. S. dollars were swapped off for wall paper decorated with marks made in Germany by a lot of things who call themselves good Americans. Here is rejoicing that those "good Americans" not only swallow the "made in Germany sucker bait" but that they swallowed it hook, line and sinker and know now that their investment is an overload of sinkers.

R. A. Easton.

Gibbs-Atwood

Percy Gibbs, of Hauser, has taken over the management of the farm owned by his father, C. W. Gibbs. It was formerly known as the McFarland cranberry ranch. Mr. Gibbs recently returned to Hauser with his bride, formerly Miss Esther Atwood, of Jerome, Idaho. They were married at the latter place March 3.

Mrs. Gibbs attended O. A. C. in 1919 and 1920, and is known to many on the Bay. She was a Waldo Hall girl. Easter vacation in 1920, she returned home with Miss Priscilla Gibbs, and so the dance had its beginning.—Coos Bay Times.

Calling Cards, 100 for \$1.50.

EAST FORK NOTES

The rains of the past week have put hope into the loggers that there is water enough to float their logs out of the booms and to get them to the mills.

Miss Parks, the teacher in Brewster Valley, visited Mrs. Walter Lawhorn, Saturday and Sunday.

William Smith, of Portland, came up Saturday to visit his daughter, Mrs. Haily Laird, and family of Brewster Valley. Mrs. Smith is with her mother, Mrs. McCloskey, of Norway, who is eighty-six years old and not well. Mr. and Mrs. Smith lived for many years on the East Fork and their neighbors are their friends. Haily went to meet him with a saddle horse as Mr. Smith had caught a ride part of the way from Norway.

Senator Reed of Pennsylvania, a veteran of the war, is no German sympathizer. He gave it to those pro-German senators who would rip France up the back when he rehearsed the crimes of Germany to them and then demanded that they keep hands off "when retribution is coming to those murderers of Belgians and French and Americans."

Senator Oddie, of Nevada, handed out more good medicine for the pro-German senators to swallow when he reminded them that at the time of the great San Francisco fire German insurance companies repudiated millions of dollars for which they were liable to the thousands of sufferers.

"It is a fact," he said, "that the men in Germany who directed the great insurance companies, which welched

Coquille and moved her family there last week.

Big Coal Field to Be Opened

We have often referred to the fact that the State Geological Survey's report indicates the existence of sixty millions tons of coal in the southern part of Coos county and we are glad to learn that it is of even better quality than we had supposed and that there is a probability that its mining will soon begin on a large scale.

Albert Hermann, Portland attorney, has been visiting Coos county as a representative of a number of professional and business men of Portland, who have formed a corporation for the development of certain coal properties which they hold in the Powers district, says the Times.

Engineers who have investigated report to the owners that there is to be produced from the property a high grade of bituminous coal which shows much less ash residue than any other coal which has yet been produced in this locality.

It has always been recognized that the coal in that district was of a superior quality but heretofore it has been impossible of mining because of the distance from transportation. The railroad now runs to Powers and Mr. Hermann says that the owners of the property have positive assurance that if the property is developed there will be within the next year a railroad extended to the locality so the coal can be taken out.

Mr. Hermann says that the mines which will be opened will not only supply Coos county but will extend markets throughout Oregon and that it will be possible to furnish coal much cheaper than it can now be produced. Portland people are paying \$15 to \$17.50 a ton for coal delivered in the bin. This Powers coal field can yield a good quality of coal which can be sold at a much less figure than the coal now offered on the Portland market.

Mr. Hermann will go to Powers tomorrow to look over some of the features regarding the arrangement for transportation to the coal field and expects later in the month to bring to Coos county the Portland men who will develop the mine and take them out to look over the property.

"The fact that Coos Bay harbor is to be improved," said Mr. Hermann, "had much to do with the owners of the coal properties in their decision to develop. These men will with their own capital open up the coal field and will not ask any aid locally in a financial way."

"Everyone on the outside is expecting great things of Coos Bay now that the desired harbor improvements have been secured. Heretofore Coos Bay has been a 'land of promise' but now I would say it is a 'community of performance.'"

Symphony Orchestra Coming

The University of Oregon Symphony Orchestra will make its second appearance in Coquille in four years when it gives a concert at the Liberty Theatre under the auspices of the high school on Thursday, April 5.

Three years ago the University of Oregon Symphony Orchestra, then in its first year, toured the Coos Bay county, playing in several towns on the bay during the week of Easter vacation. Rex Underwood, who has directed the orchestra since its inception, is bringing back this year an organization reputed better both in ability and experience than that first year's aggregation of musicians which was accorded such an appreciative response by Coos county audiences.

The soloist with the orchestra this year is Mr. Siefert, of the faculty of the University School of Music. Mr. Siefert is well known to music lovers in this part of the country, as he was soloist with the Girls' Glee Club on their tour through Coos county towns last year. He has also given several concerts in these towns at other times.

Two to Asylum Today

Sheriff Ellingsen has in the county jail a demented man who cannot tell his own name. He is quite tall and past 50 years of age. He was found wandering about in the Bridge country. He had a gun with him. The man is unable to tell his name or give any information about himself. The sheriff is trying to find his relatives if he has any or learn where he came from.—Coos Bay Times.

He was taken out to the asylum by an attendant this morning, as was also Heseekiah Root.

Epidemic on Larson Inlet

Dr. Irwin, Coos county health officer, was up Larson inlet this morning to investigate the epidemic of itch which has been prevalent there of late. After investigating and talking with a number of the students, he expressed the hope of opening the school within a short time.—Daily News.

The Improved Ford

Immediate Delivery on All Models

The late Ford models embody 25 new mechanical changes and improvements in construction which make the new Ford car 100% better than it was a year ago.

For the past year, Henry Ford and his ablest assistants have devoted practically all their time and energies to improving the Ford car. As a result we are today offering the best Ford car that has ever been made in the history of the Ford Motor Company.

FORD CARS have never been as high in quality or as low in price

Here are a few of the improvements

Lighter pistons and connecting rods—resulting in smoother running, reduced vibration, snapper pick up, decreased wear.

Elimination of oil pumping by new piston and ring construction.

Improved rear end parts reducing rear end trouble.

Wiring system has been completely redesigned, making it practically proof against short circuits and fire.

Pressed steel muffler.

One man top, gypsy curtains, slanting wind shield, improved seats. No advance in price.

One piece running board brackets insuring exceptional rigidity with light weight and freedom from vibration.

Crankshaft, perfectly balanced, made of as good material and as finely finished as those used on cars ten times the price of a Ford.

Dash weather trough preventing trouble due to rain and moisture.

Motor—higher cylinder head—more water circulation. Larger compression chamber—less carbon knock lessens strain on crank and bearing—less overheating.

New Ford Carburetor—more pep—more mileage.

Demountable rim lugs fastened on rim, preventing slipping.

Front spring—new design and new suspension making it practically unbreakable.
