Mrs. U. T. Dement and daughter, Alice, returned home this week from Palo Alto, where Miss Dement has been attending the University.

## EAST FORK NOTES

Mr. Roger and family motored from the Lawhorn and Sumerlin Camp to North Bend Monday. Mr. Taylor, the grandfather of those grown-up children and still a youngster, goes with them. For three years or more they have been with the logging outfit and their going leaves a hole in the camp that is felt as well as seen.

Monday, the Lawhorn and Sumerlin Camp finished their cleaning up and shut down for a few weeks. They have 9,000 logs, 6,000,000 feet, in the river, without counting the stragglers along the banks.

George Chaney has something like \$50,000 in his engines and rigging. The books show that the dam cost \$4,444. It takes money to log, and high water to get any part of it back.

Hally Laird is in the millionaire class again. He has bought a Dodge car.

Henry Wyrick and family came home Sunday from the Smith & Powers camp at Sumner to spend the week lay-off, and, with his father and mother, all spent Independence Day at the celebration in Marshfield.

There is to be a meeting at Dora Cemetery July 14 at 1 p. m., for the purpose of appointing a committee to attend to the construction of a new chapel at that cemetery. It is hoped there will be a good number present at the meeting.

The Youths Companion of June 28 says a man in the Bureau of Foreign and Domestic Commerce at Washington declared that the German government, masked under the names of individuals, is sending its gold to the United States, where it has at present between \$500,000,000 and \$1,000,000,000 invested in stocks and bonds. That is a good picture of the treacherous, traitorous Germany, bellyaching that she can't pay and sending her money to the United States that she may make a profit on her debts. France has paid out \$5,000,000,000 toward building up her country which Germany destroyed. Germany has paid only a dribble. France went after that which belonged to her when she went into the Ruhr, and she gets it regardless of the roaring lies that evil minded Germany, and her pals belch out. The German mark and the German character are two of a kind; they are shrinkable values. The World's Work for July says: "It is a cheerful fact that popular sentiment for American membership in the League of Nations is gaining momentum. This is, perhaps, the most outstanding fact in American public life." It is also a fact that Cabot Lodge reached his high water mark in statesmanship, as the ringmaster of the clowns in the United States senate at the time of the world's grief.

## BURNING BRIDGES

We are ever burning bridges; Life seems built with endless partings. Are we bent by wandering witches Urging us to fitful startings? We tarry awhile in some lone spot, Thinking surely we'll be glad to leave. But when time comes to cleave We find our joy somewhat lacking— For we discover we love them too. Sadly we turn to packing, Gazing at the spoils with rue, While we're burning hats and letters That our trunks won't hold.

We inwardly chafe at the fetters That silently make bold To bind us to whatever place We dare to make a friend. Burning bridges! That is the case. Oh, that we could wend Our way back when fancy calls! But before these wants bear fruit, On some other ground feet fall And swift begin to take root. Thus before we comprehend or ken, We are burning bridges again. Perhaps it's better so; else how Could we to pain or partings bow?

## More Trout Fry Coming

Two carloads of cut-throat trout are expected to be distributed in Coos county streams before long, according to District Game Warden Art Fish, who was here from Powers yesterday.

The trout will be brought in probably by auto/trucks from the hatchery on the McKenzie above Eugene. The fish department has its own auto trucks and it is believed that the trucks can bring them cheaper and better than if an effort is made to ship them by rail. They will be distributed in the various streams, some being taken to the vicinity of Powers.

One carload of young fish was recently placed in North lake and Ten Mile lake by Mr. Fish. Of the first carload, 30,000 were Eastern brook trout and 106,000 were Washington Silvers, similar to the cut-throat trout.

Mr. Fish also has applications in for 264 more Chinese pheasants to be sent in from the state farm. He has received 236 birds and distributed them around the county.—Times.
