EAST FORK NOTES

Miss Lou Houton, of Bridge, is visiting her friend, Mrs. Elmer Wilson, of Brewster Valley.

About the middle of June, I had a chance to go to Coquille with Everett Howe. That is the first and only time I had been in town this year. It was a beautiful day for a ride and we drank it in. Near the foot of Shuck mountain, on this side, there is a big old snag; on a guess it is 40 feet in the air and completely covered from roots to top with poison oak. It is a perfect pillar of green. When fall comes it will be another picture for then it will stand out like a pil-

lar of fire. The riches I got out of that trip were the joy of the ride and meeting folks I had not seen for months. To meet friends is what puts the spring in the step and the song in the heart. Somehow, it backs you up for the day's work. When a man like Editor Young tells me that he starts the next week for a trip to Alaska he causes me to know that a man's life is not reckoned by years, but by the keenness of the soul within him.

It is a big thing to meet men. There are some men whom if you get only a glimpse it adds vigor to your soul. The last time that I saw Mr. Horsfall was at Coquille. He was going along Front street, almost at the corner to go to the Bandon boat, half a block away. I caught a glimpse of him—the back of his coat and his hat—that was all. Yet there was more, for that glimpse of a good man sticks.

Independence Day we celebrated at home. Yet we did see some people, for five cars loaded with people stopped for a few minutes. Mr. and Mrs. Stover, who live near Myrtle Point, told us of their trip and good time in the Hawaiian Islands. It was Mr. Stover's third trip to the Islands so they were able to get the most of the trip from the start. They also told me that one of their sheep took a prize of five dollars and a blue ribbon at the fair last fall. That is what they got by getting that Shropshire buck on the East Fork. In the other cars were McCracken's, Snyder's, Gibson's and Brewer's, from Myrtle Point and vicinity, and the Robin's family from Broadbent. They all came up to the East Fork to get a drink of good water and a view of beautiful scenery.

Mrs. Chloe Laird (Grandma) has returned from her visit with her sister in the Willamette Valley. It really seems as though the years of her life increase her youth, for when I saw her in Halley's car the Fourth, when he, with his family and William Smith were out for a joy ride in the new Dodge, she looked younger and more possessed by the glad joy of life than ever before.

The Roses went to Coquille the third and took in Marshfield and North Bend on the Fourth.

The Sherwood's and the Liljequist's are at the camp grounds. Came up Saturday for two weeks or more of vacation days. Those two grandchildren of the Sherwood's are on the job getting the fun out of life by putting the fun into life. These are the days that we add to our own riches which "moth and rust does not corrupt."

Henry Hermann Seriously Hurt

Last Sunday afternoon at Bandon, Henry Herman, captain of the gasoline launch Norma, which plies up and down the Coquille river, fell from a car or truck on the streets of Bandon and received injuries which at the time were pronounced as probably fatal.

The accident occurred shortly before the Norma was to leave for Coquille to take the baseball team and visitors home.

When Herman was picked up he was unconscious and he was rushed to the hospital, where it was found that his skull was fractured.—news.
