Coquille Will Go Through

A meeting of fans was called by Manager C. A. Perkins, of the Coquille baseball club for Monday night at the city hall, which was well attended. The purpose of the meeting was to see what arrangements could be made for carrying the club through the second half, there being no funds in the treasury and outstanding bills of nearly \$300, besides the annual payment of taxes, interest and part of the purchase price, approximately \$350.

The unanimous opinion of the meeting was that the schedule should be gone through with and that Coquille could not quit. Various suggestions made for financing the team for the remainder of the season are to be carried out. A three days' carnival of "Days of '49," to be held about the first of August, and a series of dances for the benefit of the club were two of the ways and means decided upon.

A third was acted upon Tuesday and Wednesday, when Mr. Perkins and Ray Long circulated a subscription paper and raised nearly \$500, which will relieve the pressing emergency.

All the players of the team were present and everyone expressed himself as willing to accept the management's decision as to pay. The salary for each game will remain as it was at the beginning of the season, but the club does not guarantee to furnish each man a job, or \$4 a day in lieu thereof. The management does, however, promise co-operation in securing jobs. All of the boys have been at work this week and harmony prevails all around.

CHICKS NEED GROWING MASH

When One Month Old Use Whole Wheat and Cracked Corn Instead of Scratch Mixture.

When chicks are four weeks of age the following mash may be substituted for the starting mash, the whole wheat and coarser cracked corn being used instead of the scratch mixture of fine cracked corn and cracked wheat: corn

Healthy and Vigorous Chick.

meal, 40 pounds; bran, 15 pounds; shorts, 15 pounds; ground barley or ground oats, 10 pounds; meat meal, 15 pounds; bone meal, 5 pounds.

The growing mash should be kept before young pullets at all times until they are ready for the laying house. Three or four pounds of feed are required for the production of one pound of gain, live weight.

The young cockerets should be separated from the pullets when they weigh from 1½ to 2 pounds, and those not needed for breeding stock should be fattened and marketed. Early hatched cockerets, marketed early in the season, are usually a better paying proposition than when they are kept until 4 or 5 pounds and sold on a lower market. The young pullet should be given every opportunity to develop, as she needs a vigorous body of strong constitution and vitality for heavy egg production. She will not have it if she is stunted in any manner.—O. C. Ufford, Poultry Department, Colorado Agricultural College.

BOOKS FOR BOY SCOUTS

Among the thousands of books on the market purporting to be about scouting, there are many gross misrepresentations.

For a number of years the library department of the Boy Scouts of America has rendered the public the service of review of books for boys, in the belief that the indoor sport of reading good literature is as essential to character development as the outdoor sports so closely allied with scouting. Scout parents will be interested to know, especially now that the holiday season is approaching, with its time of intensive book buying, that the library department issues free of charge a list of books that have received the careful consideration and endorsement by the boy scout organization. The books have been selected not solely on the basis of literary merit, but also because of wholesomeness and proved appeal to the boy reader.

Social Notes

Complimenting Mrs. F. S. Slagel and Mrs. Bertha Larson, of Los Angeles, Mrs. C. J. Fuhrman entertained the members of the J. G. W. Club at a one o'clock luncheon Friday. Covers were placed for Mesdames H. A. Yung, J. A. Lamb, H. N. Lorenz, E. W. Lorenz, Geo. Lorenz, Bert Folsom, M. O. Hawkins, E. E. Johnson, C. J. Skeels, O. C. Sanford, L. A. Liljeqvist, of Portland, Jennie Williams, of Medford, H. N. Butler and Miss Gertrude Butler, of Prosper, J. S. Lyons and C. McC. Johnson, of Marshfield, Kenneth Lawrence, of Oakland and the honor guests and hostess. The afternoon was spent with fancy work and chat.

Mrs. Bertha Smith and Mrs. Sadie Jayes entertained with a dinner party Friday evening, their guests including Mr. and Mrs. L. P. Maury, Miss Beas Maury, Mrs. P. J. Rooney and Mr. H. C. Maury and Miss Mary Maury, of Medford. The evening was spent with music.

Geo. Hurst Gets One Year

When Judge Kendall was in Curry county last week, holding a session of circuit court, he sentenced George Hurst, convicted of involuntary manslaughter for killing Royal Ostrander, whom he mistook for a deer last summer, to one year in the penitentiary. It is reported that his attorneys will appeal to the supreme court for a new trial.

Methodist Church, South

Sunday School at 10 a. m.
Preaching at 11 a. m. and 8 p. m.
Subject of morning sermon: "The Supremacy of the Moral Order."
Subject of the evening sermon: "Coming to Rome."

The chautauqua has thrown several bouquets and a few brickbats at the church; suppose you drop in on one of them next Sunday just to make a survey of it yourself. Then write the preacher your opinion of his church and its work, offering a constructive criticism. You might start something.

H. V. Moore, Pastor.

St. James Episcopal Church.

There will be special services in St. James' Episcopal church next Sunday morning, July 15th, at 11 o'clock. There will be Holy Communion and sermon in commemoration of the 90th anniversary of the Oxford Movement. Special offerings will be taken for the "Sisters of St. John Baptist," in charge of St. Helen's Hall, Portland. Everyone cordially invited.

First M. E. Church

F. L. Young, Pastor.
Sunday School 10:00 a. m.
Preaching 11:00 a. m.
Evening services:
Epworth League devotional, 7 p. m.
Preaching 8:00 p. m.
Good music and a cordial welcome.

Why let a LOW PRICE
keep you from using
the BEST?

Thousands of tests in our laboratories and on the road have shown conclusively that Zerolene, which is made from carefully selected Western Naphthenic Base Crude, transported in separate pipe lines to our refineries and then refined by our exclusive high vacuum process, forms less carbon, gives greater gasoline mileage, and reduces friction and wear to a greater extent than any other automobile lubricant we have seen and tested or been able to produce.

Therefore we say, "Insist on Zerolene—even if it does cost less."

STANDARD OIL COMPANY
