Quarter Billion Wasted

More than 22,000,000 children were enrolled in the public schools of the United States last year. For the whole country, urban and rural, the schools were open an average of about eight months.

Nearly 700,000 teachers were employed and this was a sufficient number to instruct every child enrolled every school day of the eight months the schools were in session, according to the U. S. Bureau of Education.

By allowing their children to miss

school one-quarter of the time, parents caused the waste of one-quarter of the money paid to run the schools. The total cost last year in all the States combined was just about one billion dollars.

Irregular attendance caused the waste of one-quarter of this immense sum. In plain figures a quarter of a billion looks like this: \$250,000,000. The people who paid the taxes robbed themselves of this amount and at the same time deprived their own children of an average of two-months schooling.

MYRTLE POINT ITEMS

Wilda Barker is spending the Christmas vacation with her parents, Mr. and Mrs. Clyde Barker, of Dora.

Crawford Annin, who has been working as radio operator on one of the Admiral Line ships, was in this city a few days last week. Then he went with his parents, Mr. and Mrs. R. A. Annin, to Portland to spend Christmas with his sister, Vivian.

Grayce Barker was a visitor at the Dr. James Richmond home in Coquille the first of the week.

Mr. and Mrs. Raymond Endicott and son, Billy, motored to Riverton Thursday.

Enith and Gladys Culbertson went out to the Culbertson homestead at Dora for the Christmas holidays.

Two new concrete garage buildings are being erected on Spruce St. in this city. The Perkins building will house the Ford garage, while L. H. Pearce, Dodge dealer of Marshfield and Myrtle Point, is building a fine addition to his garage here.

Four generations were present at the F. W. Barker home at North Bend for Christmas. Mr. Barker's parents, Mr. and Mrs. J. L. Barker Sr., of Myrtle Point, and his daughters, Mrs. Walter Rix and daughter, Virginia, of Medford, and Mrs. Jim Avery and four children, of Coquille. Mr. and Mrs. J. L. Barker returned to this city Wednesday.

R. C. Dement is quite ill this week. On Christmas Day, Mr. and Mrs. Max Dement and daughters, Theresa and Lila, were visitors at the Joe Lett home at Arago.

Mr. and Mrs. Harry Guerin and daughter, Jean, of this city, spent Christmas with their son at Powers.

Early Christmas morning a number of girls went around town singing carols before the homes of many friends. Special care was taken that no invalids were omitted. The singers were: Misses Crystal Guerin, Lila Dement, Stella Parker, Laura Jeffries, Marion Patterson, Alice Guerin, Helen Russell, Agnes Deyoe and Helen Deyoe.

Fred McMullen is in this city for Christmas.

Miss Alice Guerin entertained the members of the senior class of Myrtle Point high school with a party at her home Thursday evening.

Mr. and Mrs. P. W. Laird and daughters, Marguerite, Vernita, and Elda, of this city, were visitors at the Birdie McCloskey home at Coquille for Christmas.

Mr. and Mrs. E. C. Barker and children spent Christmas with friends and relatives in Coquille.

There were two Christmas babies in this vicinity this year. A girl was born to Mr. and Mrs. Ivan Rose, of Broadbent, in the morning. A 9 pound girl was born to Mr. and Mrs. Harold Bargelt Tuesday afternoon. She has been named Doris May. A baby was born to Mrs. Bargelt's sister about a week ago.

Mrs. Gilbert Shrieffer went to Tillamook to spend Christmas with her father, Rev. Louis Anderson, of that city.

Mr. and Mrs. L. A. Braden, of Hubbard, are visiting with Mrs. Braden's parents, Mr. and Mrs. R. C. Dement.

Elmer G. Brown went out to Roseburg Thursday to meet Mrs. Brown and the children, who have been spending Christmas with relatives in Salem.

Elton Schroeder and Jacques Braden, of U. of O., at Eugene, have been in this city during the Christmas holidays.

Mr. and Mrs. E. C. Barker and children were Coos Bay visitors Sunday.

Tyge Wagner and family, of Broadbent, were in town Monday.

But What About the Boy?

At the recent Country Life Conference held in St. Louis, a moving-picture film was shown of a farm boy and his prize flock of chickens. The film demonstrated that the birds were fine because the boy had a scientific knowledge of chicken culture, and that he had applied his knowledge to the care of his flock.

But the boy was a mouth breather and showed further effects of malnutrition. The tragic thing about the picture was that the chickens were having a better chance than the boy.

The idea of encouraging farm children to raise thoroughbred poultry and live stock is wholesome. It should be promoted to a greater degree than it is at present.

On the other hand, it must be borne in mind, that the greatest asset of the farm is neither its live stock nor its poultry, but its boys and girls. They themselves are entitled to as scientific care as they are taught to give the animals that they raise.

In order to develop into a strong man or woman every child must have a well-balanced diet which is eaten at regular periods; long hours of sleep in a well-ventilated room; activity as expressed in wholesome work, study, and play; instruction concerning the care of the body; and periodic examinations by a reliable physician.

EAST FORK NOTES

Miss Mildred Neely, teacher of the Dora school, and her pupils gave a Christmas entertainment Friday afternoon. Those who were fortunate enough to be there had an enjoyable time.

Theodore Easton got home Friday. Oscar Bunch and family are on their own place again.

The Roths, who were at McKinley, have returned to their home at the Chaney and Lawhorn camp.

The Chaney and Lawhorn camp and the Steel Creek logging Co. shut down for the Christmas holiday and three days extra.

Grant Harry, Mrs. Wanda Harry Wilcox, and Ralph Harry spend their Christmas holidays at Brewster valley. They stopped for a few minutes visit in the road. Grant has been three months on a job sowing grass seed for the Menasha Woodenware Co. When a man sows 700 acres of logged off and brush land, he has to do some traveling over land that has not been smoothed down for a golf course. This trip gives him a chance to have a visit with his mother.

Wanda, who is one of the teachers at Broadbent, knows school is out, for her school gave a delightful entertainment, which the folks at Broadbent enjoyed, so she has a good taste in her mouth for Christmas.

Ralph is a student at O. A. C., getting on well. Wanda is backing him on the money end of it to see him through. He earns what he can through the summer vacation and Wanda loans him enough to keep him going. We have not forgotten that Ralph at one time, when he was in high school, concluded he had enough of school and beat it out to Brewster Valley. Wanda got on his trail, followed him and persuaded the kid to go back to school. Now he is looking ahead to graduate from O. A. C., for Wanda has made an investment in him which he is bound to honor. To see them made the Christmas spirit more keen.

Mr. Rose is much better. He has been up and out in the sunshine.

Mrs. Rose has nasturtiums, roses, pansies, California poppies, carnations in bloom in their yard.

Some of the Brewster Valley folks would like to know how much money Road District No. 15 has spent on the piece of road that some folks in Brewster Valley want to gobble. It was the back taxes from old Road Dist. No. 12 on that property which was in Dist. 12 at that time, and which is now in Dist. 15 that rocked the road in No. 15, which No. 14, Brewster Valley, would like to gobble by "resolution," if the report of "resolution" is correct.

Road Dist. No. 12 at that time went down the East Fork as far as a line through the Stemmler place, or further, to the place now owned by Mr. Leatherman Sr. Brewster Valley gets the full benefit of that rock road built with tax money from property which is now in Road Dist. No. 15.

If the County Court would have one road district from Myrtle Point to the county line on the East Fork, then there would be a chance to get a rock road all the way from Myrtle Point to the head of Brewster Valley and the non-resident taxpayers would know that the county would get some value received for their non-resident taxpayers'—money.

These are the days of "The same to you."

The joy bells ring for those who pull the string. R. A. Easton.

Brewster Valley

Norman Laird came home for his Christmas vacation. He has been attending high school at Marshfield.

Mrs. Cora Alford and children went to visit her father at Eugene for the holidays.

Mr. and Mrs. Walter Laird and son, Philip, went to Coquille Saturday on a business trip.

Miss Parks went to her home at Creswell to spend Christmas.

Mrs. Moore and small children went down on the stage with Mr. Brown to Fairview Saturday to attend a Christmas program and basket social given by her daughter, Eula.

Mr. and Mrs. W. A. Lett, Orline and Ernest, came over Sunday to spend Christmas with Flossie and Elmer Wilson.

Mr. Crowley made a business trip to Coquille Saturday.

Myrtle Christensen and daughter, Christina, went along to do some Christmas shopping.

Friday afternoon the mothers and some of the fathers attended a fine Christmas program and tree at the school house, rendered by the school children, instructed by Miss Parks.

J. D. Laird went to Coquille Thursday, returning Friday.

It's about time to make New Year resolutions. If you don't hope and won't try to be a better man or woman next year than you were last year, we are afraid you are a hopeless derelict on the sea of life.

Remarkable Invention

What will become of the professors and practitioners of the art of navigation if the nautograph comes into general use? This invention of a French naval officer, Lieut. Baule, used by the French navy during the war, is now said to have been so marvelously perfected by the inventor as to show a ship's position constantly without the need of calculation, the possible error being less than 100 yards. In refinements of navigation the French navy has played an important part, no doubt because French training is strong on

the mathematical side. Such a device as the nautograph is said to be might have prevented the recent disaster to our destroyer squadron on the Pacific coast.—Springfield Republican.
