To Our Patrons:

You are entitled to know the statement made, under oath, by the Chief Engineer of the Public Service Commission of Oregon during the recent hearing March 14th, 1924, when being cross-examined BY THE ATTORNEY FOR THE PLAINTIFF. It appears on page 315 of the transcript and is as follows:

"I call this company an especially well-managed company; their traffic expenses and maintenance expenses and expenses of operation are lower, due to close management, than all other companies. I don't know of any that I could put up for a standard of comparison with this company."
