Destroy that dusty rug while housecleaning and replace it with one of these cheerful, dustless, waterproof rugs from

GOULD & GOULD

A Full Milk Pail

is a regular thing where our feed is used regularly. The cow who gets our feed as a regular part of her rations will surely respond to good treatment with more and richer milk. She'll stay in milk longer too, almost right up to the time of "coming in." Try it on your cow and you'll never regret it, unless you are keeping her for fun instead of profit.

BRIDGE BRIEFS

Mr. and Mrs. C. W. Hill and children, of Coquille, spent Sunday with Mrs. Hill's parents, Mr. and Mrs. H. H. Brownson.

James Culver, who recently underwent an operation at Keizer's hospital, is recovering nicely and expects to come home Sunday.

Misses Lou and Dorothy Hooton are spending a few days with relatives in Coquille.

Ernest Lett, who has been staying at the Elmer Wilson home in Sitkum since January, is coming home this week.

A program and basket social will be given at the Bridge church Tuesday evening, June 10th, to raise the first installment of Bridge's \$600.00 pledge to the Wesley hospital. Ladies are requested to bring baskets.

Mr. and Mrs. C. L. Thornton and children, Helen and Harold, spent the week end visiting the A. O. Hooton family at Bridge and Dr. and Mrs. K. A. Leep of Myrtle Point. They were en route from Lindsey, Calif., to Kelso, Wash.

Mrs. Harry Hatfield was brought home from the Myrtle Point hospital Tuesday evening.

Coquille Bowlers Lose

The North Bend bowlers came over here Wednesday evening and cleaned up on the local alley hounds by 153 pins at the Home Plate alleys. A return game at North Bend is scheduled for next week. The following was the score here Wednesday:

Coquille			
Pinky Johnson	139	124	135-398
Dr. Low	142	136	142-420
Elmer Briner	157	130	159-446
Cliff Perkins	145	119	264
Norris Tyrrell	187	129	266
Dufur Dunham			113-113
Peggy Norton			124-124
Total			2031
North Bend			
Ray Hackathorn	128	117	116-361
H. Bryant	164	125	145-434
H. Brown	155	149	151-455
R. Bryant	162	188	149-499
A. Ingersoll	154	140	131-435
Total			2184

License Suspended 90 Days

Suspension of his license for 90 days was the penalty imposed on Captain Levi Snyder, master of the steamer Admiral Nicholson, ashore near Reedsport, by Inspectors Edwards and Wynn of this district, says a Portland press dispatch.

The inspectors held that Captain Snyder knew before he attempted to enter the Umpqua river that his steering apparatus was not in proper condition, it is reported. Captain Snyder lives in Portland.

"I saved the price of a new tire this week. I had the Coquille Service Station fix that blow out and now she's jake." Better take your old tires to them and have them vulcanized.

Brewster Valley

Saturday evening Mr. and Mrs. Bill Lett and son, Orin, of Bridge, came up to spend Sunday with their daughter, Mrs. Elmer Wilson.

Several of the Brewster Valley folks went to the Dora cemetery Decoration Day.

Mr. and Mrs. Binger Laird and children, Gertrude, Maxine and Burton came from Roseburg Saturday evening to visit with relatives over Sunday, Gertrude and Maxine staying to spend their summer vacation.

Decoration Day Mr. and Mrs. J. D. Laird Mr. and Mrs. Ivan Laird, Mrs. Edd Abernethy and Karl Laird made a trip to the Tennille cemetery, this side of Roseburg.

Friday evening Norman Laird came up from camp.

Mr. and Mrs. Raleigh Miller, of Coquille, spent Saturday evening and Sunday with Ivan Laird and wife.

There was a family reunion Sunday when all the children of Mr. and Mrs. J. D. Laird came home. They and several others went up into the canyon for a picnic. In the afternoon, the ladies all went wading, at last being able to coax part of the men in. Every one had a lovely time, even though it was a very warm day.

Those at the picnic were Grandma Laird, Mr. and Mrs. J. D. Laird, Mr. and Mrs. B. H. Laird, Mr. and Mrs. J. H. Laird, Mr. and Mrs. Edd Abernethy, Bill Smith, Mrs. Julius Benham, Mr. and Mrs. Raleigh Miller, Kenneth, Karl, Gertrude, Maxine, Burton, June and Phyllis Laird. Talk of strawberries—they surely had them.

EAST FORK NOTES

Last week, Thursday evening after chores, we had a ride to Brewster Valley and took in the whole length of the valley for the first time in seventeen years.

The rock road that has been built this side of the valley is rapidly increasing in length. All Bezosky and his crew are doing a job which makes the road one of the best pieces of rock road in the county. The thing to do is to keep at it until the road is rock-ed the whole three miles of valley length and then continue the west end of the rock road toward Myrtle Point.

Louie Hazard and Dr. Reitman came out to the camp ground Saturday night for over Sunday. We are looking ahead to the campers coming, not as anticipated joy but as a real matter of fact joy that winds us up to continue the day's work with a song.

Sherman Bayler, who has a claim beyond the end of the gold brick road on Elk creek, sent over samples of wheat and oats grown on his newly cleared land, the tallest being 4 1/2 feet. He brought us over some nice tomato plants Sunday and told us that a man has taken up a claim joining the claim of his son, Courtland Bayler, which has 3,000,000 feet white cedar worth \$45 a thousand. Mr. Bayler says he has 500,000 feet. Think of that claim which pans out over \$100,000. Is it hot air?

Mr. and Mrs. W. C. Rose were out Sunday. They took a ride over the new rock road towards Brewster Valley and call it an excellent piece of road. Mrs. Rose expressed her appreciation of it by saying that if the road from their place all the way to town was like it she would come back to their place and live forever. Is there a place more beautiful or healthful in which to spend a long life and enjoy the fascinating beauties of life's sunsets, if so where?

Mrs. Orval Haga has moved out to the Julius Benham and Ivan Laird camp on Steel creek. Mr. Haga is running the donkey.

The Steel Creek Logging company closed down Saturday.

R. A. Easton.

Time to Spray

The first codling moth cover spray needs to be applied in a hurry now if it is to "get" the worms before they enter the fruit. Codling moths have been emerging since May 15 and the high temperature of the last few evenings has forced them to lay eggs, says an O. A. C. bulletin this week. The eggs laid now will hatch in 8 to 16 days, depending upon the temperature. Unless it is applied where the newly hatched worms will get it in their first meal—which will in that case prove likewise their last—there may be no chance to poison them if they once enter the fruit to finish their repast.

This first cover spray is frequently called by growers the "30 day spray" because it is generally applied 30 days after the calyx spray when conditions are normal.

Lead arsenate is the standard poison material, the powder form usually preferable. The standard dilution is three pounds of the powdered arsenate to 200 gallons of spray solution. If the paste form is used it takes double the quantity.

TIRES VULCANIZED

We make them give you service

What's the use of throwing away your tires when you have many more miles of service in them? Did you ever stop to consider the money saving you can make by having them repaired?

We have been fortunate in securing a vulcanizer who is thorough and capable in his work and if you have any tires you have discarded, bring them in, we will tell you how much it will cost to repair them and whether they will give you mileage.

All work guaranteed at a reasonable price
