## Seven years of thorough satisfaction

The Overland Freight Transfer Company of San Francisco operates over 125 pieces of automotive equipment, ranging in size from 10-ton Kleiber and G. M. C. tractors and 6-ton Doane trucks to Ford roadsters, all of which are probably subjected to as severe usage as any fleet of trucks in California.

This Company has ample facilities for testing out various lubricating oils and basing their choice on proven success in service. They write:

"After seven years of thorough satisfaction covering the lubrication of our equipment with your Zerolene oils and greases, we are more than pleased to again enter into a contract for our requirements."

In spite of the fact that many automotive engineers are of the decided opinion that the most suitable crude for the manufacture of an automobile lubricant is produced right here on the Pacific Coast, a certain proportion of the motor-ing public is still influenced by the superstition that there is something mysteriously "better" about eastern oils, just because they cost more.

Why pay tribute to a superstition? The Zerolene-lubricated car develops better gasoline mileage, accumulates less carbon, costs its owner less for upkeep, and lasts longer.  
**Insist on Zerolene—a better oil—even if it does cost less.**

**82, Still Hale and Hearty**  
Samuel Huston Bryant, named for the Texas president, when the flag of that state was a lone star, and 82 years of age, claims the record for philoprogenitiveness. He is still hale and vigorous and an active coal miner in southern California and has seventeen children, ninety-nine grand children, 68 great grand children and two great great grandchildren. He ascribes his long life to the fact that he never tasted tobacco nor liquor, and that he goes to church three times a week.  
Nels Justensen, of Marshfield, was released yesterday after having served his 90-day sentence on a moonshining charge. His fine was \$2,000, of which he has paid \$500, and he has agreed to pay the remaining \$1500 at the rate of \$50 a month, beginning July 10.
