

The Fine Art of Electric Cooking

Volumes have been written about food. Many of the world's most famous cooks have compiled and published collections of their favorite recipes. From time immemorial the pleasures of good living have been celebrated in song and story.

The electric range has added a new chapter to the literature of cooking. It may not be the last word on the subject, but it is the latest and best.

Electric heat has brought the art of cooking almost within the bounds of exact science. Constant temperature and perfect control insure uniform results. You can depend on the electric ranges.

THE OREGON STATE AGRICULTURAL COLLEGE
Offers

A Liberal and Practical Education

In the several pursuits and professions in life
Through the following schools and departments
The School of Basic Arts and Sciences
(Art, English, public speaking, modern languages, history, and the sciences) Providing the foundation training upon which technical specialization is built.

The Ten Technical Schools

Agriculture—thirteen departments (B. S., M. S. degrees)
Commerce—four departments (B. S. degree)
Engineering—seven departments (B. S., M. S. degrees)
Forestry—two departments (B. S., M. S. degrees)
Mines—three departments (B. S. degree)
Home Economics—five departments (B. S., M. S. degrees)
Vocational Education—five departments (B. S., M. S. degrees)
Pharmacy—(B. S., Ph.C. degrees)
Military Science and Tactics—five units (B. S. degree)
Chemical Engineering—(B. S. degree)

The training includes physical education, industrial journalism, social sciences, and music. Entrance and graduation requirements are standard. Through the usual rating organizations the College is accredited to the best graduate schools in America. Student life is exceptionally well organized to develop ideals of leadership and service to the common wealth.

Admission to Freshmen September 23, 1924.

EAST FORK NOTES

Mr. and Mrs. Butler and daughter, Gertrude, of Bandon, Mrs. J. A. Lamb, of Coquille, and Mrs. Fred Slagle, of Los Angeles, came up to the Klub grounds for a week or more of camping.

I have pleasant memories of Fred Slagle. A number of years ago I hauled fruit and garden stuff to Marshfield, Fred was running an auto stage between Coquille and Marshfield. The road in those days was nearer being a narrow, crooked trail, humped and hollowed, and there were places when if you met a car it was a meeting face to face, no place to get past, and Babe, one of our horses, did not much care whether she climbed the bank or went over the grade, if she could only get away from an automobile. Whenever I needed it, Fred Slagle always gave me the advantage, would stop his car and wait until I could get the team past. Of course, Babe did not know it but her antics were amusements for Fred and all his passengers. Fred was all right, it gives me a smile to think of him.

Mrs. Hacker and Adrienne Hazard went home Sunday night in J. A. Lamb's car. Mr. and Mrs. Hazard and Marjorie broke camp Monday morning.

Mr. and Mrs. Sherwood, Helen, Delia, Mrs. Liljeqvist, Cynthia and Ingrid, with Gunner on the running board, went a little later. Gunner is Mr. Sherwood's new dog, a purebred wire-haired pointer Griffon, of French descent, born in Lancaster, Pa. Color and style of hair caused me to think of Alredale.

Last week Tuesday we had our annual sing at Mountain Glade. Before coming up to camp, Mr. Sherwood asked of those usually present to make their first and second choice of songs and to send him copies and he would have them printed on cards. They brought the cards with them and those selections were sung Tuesday night. Here are the titles: "In Heavenly Love Abiding," "O Come, All Ye Faithful," "America," "Twenty-Third Psalm," (tune Evans), "The Star Spangled Banner," "Holy, Holy, Holy! Lord God Almighty!" "Jesus, Lover of My Soul," "Blest Be the Tie that Binds," "Rock of Ages," "Work for the Night is Coming," "Sometime We'll Understand," "What a Friend We Have in Jesus." These twelve, and "Lead Kindly Light" were sung. Read these titles over again, then you may not wonder at the strength of "The tie that binds."

Jack Arnold is running Al Bezoski's truck in the Lee mountain district.

Mr. and Mrs. Farris, of Laramie, Wyo., camped on the Goldbrick road, while looking for government land worth taking.

Mr. and Mrs. Petty and daughter, of Renton, Wash., are visiting Mrs. Petty's mother, Mrs. Howe, her sister, Mrs. Lloyd Leatherman, and brothers, Everett, Frank and Rufus Howe.

Edward Howe and his sister, of Portland, brother and sister of the late Chas. Howe, are visiting their nieces and nephews.

Mr. and Mrs. Walter Colvin, of Forest Grove, former residents of this county, were on the East Fork Tuesday.

Ira Howe, wife and child, of Portland, are expected Wednesday to join the Howe reunion. R. A. Easton.

Brewster Valley

The Myrtle Leaf Club met Thursday of this week with Mrs. Albert Christensen. Those present were Mesdames Polly Nickason, Verna Laird, Flossie Wilson, Belle Laird, Zephia, Krewson, Grandma Laird, Daisy Laird. The visitors present were Mesdames Lon Hale, Robert Anderson, Jack Arnold, Ernie Conley and Miss Margaret Harnish.

Walter and Norman Laird made a business trip to Coquille Saturday.

Mr. and Mrs. Carl Groves have moved into the Grandpa Crowley house on the Perley Crowley place.

W. A. Nickason has recently purchased a new Ford.

Mrs. Ivan Laird returned home Wednesday evening after a few days spent at the home of her parents, Mr. and Mrs. C. M. Wilson, of Camas Valley. Her mother, who has been suffering with sciatic rheumatism, is able to be up and around now.

Mr. Parks made a trip to Coquille, bringing back the Jenkins' piano.

The Carl Grove family made a trip to Marshfield Friday. While there they saw Grandpa Crowley, who was on his way to Portland to visit relatives.

Mr. and Mrs. W. M. Laird and three sons, Jesse, Paul and Philip, returned home Monday from a trip to Long Beach, Whittier and Wilmington, Calif., where they enjoyed a visit with their daughters, Mrs. Bonnie Dutton and Mrs. Elberta Messacar, and families, and Mrs. Laird's parents, Mr. and Mrs. J. W. Hall, and other relatives. It was an enjoyable trip and the time spent with the family will long be remembered, but

The Wonder Hot Bag

Supplants the old-fashioned hot-water bottle, electric hot-pad and other crude heating devices. It is the latest scientific invention, supplying heat when and where needed.

WITHOUT FIRE
WITHOUT ODOR
WITHOUT LIGHT
WITHOUT SMOKE
WITHOUT COMBUSTION

How It Heats

The Hot-Bag generates its own heat and stays hot. When heat is desired, all that is necessary is to dampen the compound by pouring ¼ ounce of cold water into the insert. Shake thoroughly for a moment and you have a Hot-Bag that is hot and will stay hot from 18 to 24 hours, when protected from direct exposure to the air. You can cool the Hot-Bag, however, if heat is not desired for this long a period of time, by simply taking the cloth bag from inside the rubber cover and laying it where the air will strike it; the air will evaporate the water shortly and stop the heating action.

How Long It Lasts

ONE INSERT will heat from 8 to 10 different times or will produce continuous heat for approximately 240 hours by merely adding ¼ ounce of cold water every 18 to 24 hours.

Its Many Uses

The Wonder Hot-Bag is a real necessity in every home. It replaces the old clammy hot-water bottle—no leaks, no muss, but instead, on a moment's notice, the gentle stimulating warmth of dry penetrating heat. It can be applied to any portion of the body, or in any place where heat is desired, with ease, quickness and absolute safety.

RELIEVES

Lumbago
Neuralgia
Local Pains
Poor Circulation
Cold Feet or Hands
Sore and Tired Feet
Strained Ligaments
Chronic Headaches
Rheumatism
Neuritis

OTHER USES

Heating Beds
Using in the Baby
Carriage. Carry in overcoat pocket or muff.
For use in Automobiles
Sleeping out of doors
For Camping trips
In Aeroplanes, Unlimited other uses

Come into the store and ask for a demonstration and as soon as you see the WONDER HOT BAG you will realize and agree that it is the latest thing in heating devices.

Price \$2.75 Complete

The Variety Shop

Exclusive distributors for Coos and Curry Counties

Mr. Dodge Owner!

Do you realize what \$67.75 will do with your old motor? It will make it as good as new. Look this over:

Overize Pistons New Rings New Wrist Pins
Valves Reground Rods Aligned Bearings Tightened
Cylinders made overize. Smooth running. More Pep.
With our Equipment we can make you this price for cash.
All other motors in proportion.

New Pump for Bandon Service
A Bandon press dispatch of Tuesday says:

A new electric pump has been installed for the water system here and Bandon is assured of sufficient amount to supply a city twice its size. Since

the addition of the chorline diffusing machine the water is of excellent quality.

The La Follette convention is not a bolt, but an aggregation of loose nuts. —Louisville Courier-Journal.

W. E. Thomas, aged 68 years, and employed as a tunnel man at the jetty construction work at the entrance of Coos Bay, dropped dead Sunday. He had just finished eating his dinner when he was suddenly stricken and fell over dead. Thomas leaves a wife in Portland and his body was taken to that city Monday night. —Times.

Estray

Taken up by the undersigned on Friday, July 25, a stray Jersey bull, two years old, without any brand or marks. The owner can secure him by paying for the damage he has done, and for this notice.

2913 C. E. McCurdy.

TIRES VULCANIZED

We make them give you service

What's the use of throwing away your tires when you have many more miles of service in them? Did you ever stop to consider the money saving you can make by having them repaired?

We have been fortunate in securing a vulcanizer who is thorough and capable in his work and if you have any tires you have discarded, bring them in, we will tell you how much it will cost to repair them and whether they will give you mileage.

All work guaranteed at a reasonable price
