

SATURDAY and MONDAY, JAN. 10 and 12

Will be the Third of a Series of

Coquille Bargain Days

The merchants whose ads appear on this page have united to make the first Saturday and Monday after the 10th of each month Bargain Days in Coquille. The specials offered will be real values and will be offered only on the days specified in the page advertisements appearing each month in the Sentinel.

The merchants do not want you to think that they can sell for these prices every day. This is a co-operative get-together, get-acquainted movement. They want you to come in and take advantage of the specials offered and see and price other merchandise. Your visit will be mutually profitable.

HERE IS SOMETHING TO REMEMBER IDLE DOLLARS DO NOT PRODUCE WEALTH

They must earn interest or the community suffers

Here are a few thoughts about credit—a real convenience if rightly handled—but a hardship for all when abused.

Many of our friends in and around Coquille would be astounded to know how many thousands of dollars are "carried on the books" of local business and professional men—earning for them not a cent of interest.

The loss from this huge amount of idle capital affects not only the creditors, personally, but everyone in the community as well. It handicaps the merchants—prevents him from saving money through cash discounts on his own purchases.

When he sells for cash or short credit these losses are eliminated, prices automatically lowered and service improved.

When borrowing money at the bank we think nothing of paying a good rate of interest for its use. When we borrow money, however, in the form of merchandise or professional services, we accept it as an accommodation and may "forget to remember" that while these funds are tied up without interest somebody is losing the income they should produce.

If some circumstance should occasionally arise which makes it impossible to meet an obligation in full when due, a part payment will help. It will show, too, that the confidence and the favor is appreciated.

Credit abused strains friendship, weakens confidence, and slows down the wheels of progress all along the line.

The undersigned business interest—whether doing business on a cash basis or partly credit—heartily endorse these principles.
