The evening of February 21, there is to be an entertainment given at the Dora school house by the teachers, Edith Weekly, and the pupils. One of the features is to sell women by the pound; that is you bid so much a pound for the woman when you buy her basket. Other schemes are to be worked to get money, which is to be used to get something for the school.

Ed Abernathy is to play his horn and Ev. Howe his fiddle.

Judging from a news item from Roseburg in the Harbor, the model farm run by the state is bunk as a farm but a windjamming success for the mouth farmers on the state pay roll.

Why do those who are shouting for the child labor amendment to the constitution of the United States try to hoodoo the state legislatures so quick? For the reason they know the amendment is so rotten that it stinks, and they are trying to disguise the stink with rose water and skunk perfume mixed. They have fooled themselves by making the skunk extract too strong, it gives them away.

Tentative plans are being made for the construction of a new school house for the Lee district. The first general expression of the need for the structure was heard at a meeting at the Lee school last Friday afternoon. About ten residents and the 45 children enrolled in the school were present. The plan is to build an entirely new building on a new site, the present site being of clay and bad for playground use.
