MOUNTAIN STATES POWER COMPANY

Riverton School Notes

All members of the board of directors of the Union High School, Dist. No. 2, met in regular session Saturday, Feb. 7th, at the high school. Several matters of importance were taken up at this meeting. The most important one was that of directing the clerk to notify the state department of Education to send a representative from that office to standardize the school. Prof. Stanton will forward his certification to the department, verifying the clerk's statement that all requirements have been met by the school. We all hope the department will send a representative soon. The next regular meeting of the board of directors will be March 7th. The directors hope that the patrons will come and meet with them during the meeting.

Quit a deep ditch is being dug on the school ground to prevent water from running into the basement of the new school building, as there are numerous little springs in the hill side, which are filling the basement with water.

Schroeder & Hildebrand are busy installing the new heating system, and expect to have it completed by Monday.

Miss Copenhagen's room is planning to have a Valentine box Friday afternoon. Names were exchanged so every one in the room will get at least one valentine.

The first and second grade pupils have received their Palmer Buttons for writing.

All the pupils in Miss Pennington's room who were absent on account of sickness or high water, have returned, except Verne Grove.

William McFarland, Bill Hill, Mildred Smith and Leonard Hafford from the third and fourth grade rooms have returned to school.

The remainder of the students from the Riverton High School, who played "trunk" last week, have met the requirements and were all back to school Monday morning.

Mabel Cavett and Lyle Smith, eighth grade pupils, have returned to school, after two weeks of absence.

Miss Alta Gheer, of the eighth grade, has left Riverton to make her home with her brother, James Gheer, of Norway.

Elmer Norris, of the seventh grade, returned to school Monday, after three weeks of absence on account of a sprained ankle.

Miss Mamie Cavett, a high school student, is confined to her home this week, ill with chicken pox.

Mr. and Mrs. Richard Cavett visited the seventh and eighth grade rooms Friday afternoon.

Clyde Schroeder, a high school student, spent Tuesday night at the home of Sam Clinton.

Lorene and Edna Lomon and Frank McFarland, who have been absent from school on account of high water, have returned.

Mrs. Harvey and Miss Copenhagen spent Wednesday night of last week at the home of Mr. and Mrs. Henson.

Riverton Notes

Miss Norma Carlson, Miss Pearl Cook and J. T. Royer spent Sunday with the latter's parents, Mr. and Mrs. Dan Miller, of Myrtle Point. Mr. and Mrs. Miller are the uncle and aunt of Miss Carlson.

Mr. and Mrs. Jan Gheer spent two days last week at the home of the former's father, Samuel Gheer, at Riverton.

Miss Grace Watson spent last week with her sister, Mrs. E. Colbertson, of Gravel Ford.

Mr. and Mrs. Wm. Steward left here Saturday for Portland. They expect to make their home near Central, Wash.

Mr. and Mrs. John Watson are the proud and happy parents of a baby girl, Phyllis Lora, born Feb. 6. Mr. and Mrs. A. M. Baird and daughters, Evelyn and Delma, spent Saturday and Sunday at the home of Mrs. A. W. Carlson.

The A. G. Club met at the home of Bernice Alpine, Tuesday evening. The evening was rapidly spent by dancing, also fancy work. Before leaving the Lintons served them with the delectable of refreshments.

Mrs. Clifford Martin was confined to her home last week, quite ill with rheumatism.

Miss Esther McGee visited with Miss Freda Berry Wednesday afternoon. Miss Berry is much improved from her recent illness, much to the delight of her hosts of friends here and in Coquille.

A number of friends gave C. M. Hartwell a surprise party Wednesday evening, that date being his birthday. Those present were Mr. and Mrs. W. T. Alpine, Mr. and Mrs. C. W. Martin, Prof. and Mrs. Stanton, Thomas Hill and Miss Gladys Pennington. Refreshments were served by the hostess at 11:30. A very enjoyable evening was spent by all.

If you want to subscribe for a Portland daily the clubbing combination we offer with the Sentinel will save you money.

Had Religious Scruples

E. J. Potts returned to the county jail Monday afternoon from Justice Rust's court to await the action of the grand jury. He is held under two counts, obtaining money under false pretenses and issuing worthless paper. Deputy Sheriff Osmundson accompanied him to Marshfield. Potts' bond was set at \$500.

Potts was brought back to Coquille county from Yreka, Cal., last week by Sheriff Ellingren. Officers had been searching for him for several weeks.

He was to have had his preliminary hearing on Saturday but protested on the ground that he was a Seventh Day Adventist. He said he did not want to go into court on the Sabbath.—Times.

16 Inches Fell in January

One-third of the usual rainfall supposed to be allotted to the Curry county coast during any one year, of 12 months, fell during January and the first four days of February, in the year 1925, according to the record kept by Louis Gitschlag, Jr., of the C. & O. Lumber company office at Brookings. This shows that a total of something over 16 inches fell during January, while for the first four days of February, when it seemed that Old Japs opened the throttle of his flood gates, with a result of 4.95 inches of water came down up to the night of Feb. 4. Oldtimers and all others cannot recall when such weather conditions have prevailed except during the flood period of 1891.—Brookings Bulletin.

To Drain Mill Slough Basin

The flooded Mill slough basin at Marshfield will probably be drained this week as a result of work started this week by the city under the direction of Street Commissioner Walter E. Wilson and City Engineer E. K. Burton. A crew of 15 men and three teams went to work early Monday morning at cutting the ditch from South Second to the waterfront. The ditch will follow the route of the proposed Mill slough sewer to be constructed this summer and will be kept open until the permanent drain can be laid.—Times.

What \$2.35 Will Buy

For \$2.35 you can have the weekly visits of the Coquille Sentinel and the Oregon Farmer—\$2 at each—for a year.

Good Advice

The road to the poor house has been paved with the "I can't's" of men and women. The average citizen can save if he will. It may mean the elimination of some luxury—some self-denial, but it can be done. Adopt the Ten Per Cent idea. Make it a part of your scheme of life, and then bring the 10 per cent of your earnings thus saved to this Bank and receive 3 per cent additional, compounded semi-annually.

Had Lived All Life Here

Evan R. Hodson, aged 64, died Saturday evening at about 5 in the Smedburg sanitarium after a short illness from intestinal "flu." He had been a resident of Coquille for many years.

Mr. Hodson was a son of Dr. Jonathan Hodson, who came to Coos Bay from Indiana in 1859 and settled

on South Coos river. He was married to a daughter of Robert McCann, who has been living at the Hodson home for the past few months.—Times.

Marshfield Flooded

Marshfield faces a serious problem. Through the center of the city in sea level area several blocks in width and 10 to 15 blocks in length, where homes are flooded and some uninhabitable, says a Marshfield dispatch in the Oregonian of Wednesday.

Water coming down from the west became blocked along the box sewer which drains the area and which had been in the ground for ten years or more.

The city had feared such a condition, but a proper drainage sewer was postponed until recently, when an order was made for its renewal. As many homes are surrounded by a sea of fresh water the city is threatened with lawsuits, and an emergency ditch was ordered constructed at once.

"I saved the price of a new tire this week. I had the Coquille Service Station fix that blow out, and now she's jake." Better take your old tires to them and have them vulcanized.
