

Better Cooking— Electrically

BBETTER COOKING is cooking freed from all uncertainty as to results—cooking that is done in comfort—cooking that is clean and that permits clean surroundings—cooking that is economical and that prevents shrinkage while retaining the finest flavor and the whole food value of each dish. These are the characteristics of electric cooking—and they are best exemplified in the

Roosevelts Go to Turkestan

Hundreds of applications have been received by Colonel Theodore Roosevelt and his brother, Kermit, from persons wishing to accompany them on the James Simpson-Field museum game-hunting expedition into Turkestan. They will depart Saturday.

Colonel Roosevelt said Tuesday the adventure-hunting applicants ranged from preachers with missionary intentions, college graduates, hunters and trappers to feminine typists. One wrote from France. One young Sioux Indian saved enough to travel overland from Tacoma, Wash.

The party, according to the present plan, will go first to England, thence to Marseilles; next by boat direct to Bombay, and by rail to New Pindi in India.

The expedition will proceed by motor transport to Srinagar, where it will make the "jump off."

Packing it by yak and pony the hunters will enter through the Leh and Karakoram passes, turn due west to the Pamirs and then strike north toward Yarkhan.

Coast Guard at Summer Camp

Fifty members of the Marshfield company of coast artillery, national guard, are expected to attend the annual summer camp which is to be held this year at Fort Barry, near San Francisco, according to Captain Larson, company commander.

Dressmaking

All kinds of dressmaking done at prices. Old clothes remodelled. Upstairs over Cotton's real estate office. 1084.

Mrs. J. G. Page.

Death of James Medlock

James Medlock, for years a citizen of Coquille, died at 8 o'clock Wednesday morning at Fishtrap, of pneumonia.

The funeral services were held yesterday afternoon at one o'clock at the Fishtrap church, the interment being in the cemetery there.

James Medlock was born in Jefferson City, Missouri, November 23, 1860, and was 74 years, five months and fifteen days of age. He was married there. In 1908 the family came to Coos county and he has since resided in Coquille, Fishtrap, Powers and Reedsport.

Mrs. Medlock died in the fall of 1915.

Three sons survive him: Wendell, Freddy and Geo. L. (Dot), of Powers and Coquille. Mrs. Eva Hickam is a niece of his and James and Geo. Robison are nephews. He also leaves two sisters residing in Missouri.

Resolutions of Condolence

At the last meeting of Coquille Womans' Relief Corps, No. 48, the following resolutions were adopted:

"Whereas, our Heavenly Father has called home our elder sister, Francis Norton, we are indeed sorrowing in the loss of a loved and esteemed member,

Therefore be it Resolved that we drape our charter in memory of one who has gone before; and extend our sympathy to her family; further that a copy of these resolutions be spread upon our minutes and a copy be sent to her family and one to be published in the Sentinel.

Coquille Corps No. 48

Power Co. Annual Report

The Mountain States Power company which has offices at Albany and serves a number of western Oregon cities, including Marshfield, North Bend, Coquille and Myrtle Point with power and light, has submitted its annual report for 1924 to the public service commission. It shows operating revenues of \$1,075,080.22, an increase of \$603,600 over the previous year; operating expenses, \$728,452.55, an increase of \$91,007.41; taxes assignable to operations, \$96,043.85, a decrease of \$1915, and operating income, \$246,421.79, a decrease of \$82,412.75.

Excellent Plan to Heat

Water for Dairy Cows

It is cheaper to heat water for dairy cows with a good tank heater than to compel them to change ice water to body heat by consuming extra grain, according to Dean Larsen of South Dakota State college. He asserts that when the cow is required to change about 80 pounds of water daily from freezing temperature to that of the body, or 102 degrees Fahrenheit, much of the feed she has eaten for milk production is necessarily diverted to keeping up bodily heat.

"Grain is too expensive to use as a fuel for heating water," declares Professor Larsen, "and the body of the cow is altogether too useful for other purposes than that of being used as a stove. Furthermore, when a cow is compelled to drink ice cold water she is usually obliged to stand in frosty air; thus she is not only heating the water she drinks but she is also trying to heat the universe. This is impossible from a standpoint of getting economic returns from the cow.

"Get a tank heater. A good serviceable heater may be purchased for a reasonable sum and a considerable amount of waste material may be burned in it, such as waste boards, cobs, etc."

Dairy Facts

A dairy barn doesn't need to be costly to be clean.

May is usually the best time to sell fat cows. Silage balanced with cottonseed cake is a cheap ration.

If a cow gives less than 200 pounds of butter a year she is hardly a great profit producer. Unfortunately there are those that do.

Do not milk cows completely dry for 48 hours after calving. This method lessens danger of milk fever. Feed sparingly the first few days.

Seasons during which the cows do not secure the normal amount of minerals are usually followed by a large number of retained afterbirths among the cows fed on the feeds produced during such seasons.

How long will it be before we discover the 20 per cent of our cows that make us no profit?

The calf's stomach is delicate and many of the difficulties met in raising calves are traceable directly to irregularities in feeding that can easily be avoided.

While a calf may be weaned as early as four months of age it is better to continue feeding skim milk until six or eight months old, if that is possible.

Plants in Sleep

When a plant sleeps the leaves droop and die close together for warmth, it is reported.

M. E. Church, South

"The Risen Christ, the Power for a New Life," will be the subject of the morning message. There will be a baptismal service at the morning hour of worship. The place of Christ and our personal attitude toward Him is of supreme importance.

The evening services will be held one-half hour later than they have been. The Epworth League will begin at 7 o'clock, the evening service at 8. The Church School opens promptly at 10 a. m. Classes for all and a welcome.

Prayer Service, Thursday evening at 8 o'clock. Note change of time.

Obey that impulse and attend church services Easter!

Milton F. Hill, Pastor.

M. E. Church

All services at the usual hours Sunday. Prayer meeting Wednesday. You are welcome.

Morning sermon: "The Power of His Resurrection." Philippians 3:10. The whole man, spiritual and natural, fell. The new birth restores the spiritual man. The resurrection restores the natural man. The whole man, in his two natures, reunited and glorified after the resurrection, is redemption finished. The Holy Spirit performs this gracious ministry. Without the resurrection of the body, redemption breaks down.

Evening sermon: "He Was Troubled in Spirit." John 13:21. How much have we added to this deep grief? He was "smitten of God" for us. Yes, "He was wounded for our transgressions. He was bruised for our iniquities." He loves us tenderly. Wounded love is the bitterest sorrow. "He poured out His soul unto death." This is the measure of His sacrificial love for sinners. Now do we care? Our destiny is at stake: "Poor, lost soul, what then?"

J. S. Penix, pastor

St. James Episcopal Church

Easter Sunday

10 a. m. Church School. Easter service when the offerings for missions in Mite boxes will be received.

7:30 p. m. Evening Prayer and sermon. Everyone welcome.

A. W. Bell, Vicar.

Church of Christ

The Revival is now on and the interest is fine. The attendance is good in spite of sickness. Bro. Dallas is preaching great sermons. If you have not been getting the benefit of these, begin now. No services Saturday evening, but a great day Sunday.

Look at this program for next week:

Sunday morning begins with a sunrise prayer service at 6 o'clock, led by the Young People.

Bible School begins at 10.

Evangelistic services at 11. Sermon subject: "The Lord's Supper and Its Observance."

Christian Endeavor at 7.

Evangelistic services at 8. Sermon subject: "The Church of Christ, the Undenominational Church."

Services through the week at 7:30 p. m. with these subjects for your consideration: Monday night: "God's Picture of the Church of Christ."

Tuesday night: "The Last Will and Testament of Christ." Wednesday night: "Why People do not accept of Christ." Thursday night: "When the Devil Comes to Church." Friday night: "Looking out of Hell." We trust these subjects will appeal to you and you will want to hear them all.

Eugene A. Palmer, minister

Baptist Church

In W. O. W. Hall

Services in the W. O. W. Hall Sunday School at 10 a. m.

Preaching service at 7:30 p. m. Easter sermon subject: "Doubting Thomas."

Prayer meeting Thursday evening at 7:30 p. m.

You are cordially invited to be present at these meetings.

Rev. E. N. Turner, pastor.

Christian Science Society

Sunday School at 9:30 a. m.

Sunday Service at 11 a. m.

Subject for next Sunday, "Are Sin, Disease and Death Real?"

Wednesday evening meeting at 8 o'clock.

Free public Reading Room open in Church Building every Tuesday and Saturday afternoons from two to four.

The Holy Name Catholic Church

Coquille

Services on the first and third Sundays of the month at 8 and 10:30 a. m.

Rev. James L. Carrico.

What \$2.25 Will Do

For \$2.25 you can have the weekly visits of the Coquille Sentinel and the Oregon Farmer—52 of each—for a year.

Send the Sentinel to eastern friends.

An Extra Measure of Service

IS WHAT THIS BANK GIVES TO ITS DEPOSITORS, CUSTOMERS AND FRIENDS. WHETHER YOU HAVE AN ACCOUNT HERE OR NOT, DO NOT HESITATE TO COME IN AND SEE US WHEN YOU ARE IN NEED OF SOME SERVICE THAT ONLY A BANK CAN GIVE.

Buy our drafts when sending money by mail. They are more satisfactory to handle, both for yourself and the recipient, and cost less than post-office money orders. The service is much quicker, as there is no "red tape" connected with the transaction.

Deafness Can Be Prevented

At least four-fifths of deafness can be prevented if proper treatment is instituted at the onset of the trouble. A gradual and increasing impairment of hearing demands immediate attention. Any ailment of the ears if not guarded against or corrected may lead to a lasting and progressive impairment of the hearing. The prevalence of deafness in the United States is appalling. There are over one million deaf persons in this country and the majority of them became deaf during childhood. One out of every ten school children has defective hearing. Many persons are socially and economically incapacitated by deafness. Deafness is increasing and active steps are necessary to conserve hearing, says Dr. Frederick Stricker.

5,000 Autos in Jerusalem

It is surprising to learn that there are now 5,000 automobiles in the city of Jerusalem; and even more so to hear that an average of about five traffic accidents a day, or 2,000 for the year, occurred there without a single fatality. The government has just issued a decree that the horns used on these cars must be replaced by bells. Just think what an uproar such a change in this country would make. If Palestine had as many railroad trains as almost any section of our own country, we can hardly imagine horns there being replaced by bells.

If you want to subscribe for the daily and Sunday Oregonian you can still save half the cost of the Sentinel subscription by taking the two papers together.

Calling Cards, 10¢ for \$1.50.
