1200 Days of Absence

During the last month, for a twenty-day school period of four weeks, there were approximately 1200 days of absence in the Coquille city schools nearly as many days as the average pupil spends in school from the time he enters the primary grade until he graduates from high school.

This did not take into account more than three days of absence in sequence for any one pupil, for those absent for weeks are only counted for three days in arriving at the figure given.

Much of this absence was caused by sickness, of which there has been more than usual this spring.

Baseball Meeting May 6

A county meeting of baseball fans has been called by J. L. Holycross to be held here next Wednesday, May 6, to decide as to whether a Coos County League shall be formed this year, and representatives from the other towns in the county have been asked to attend.

Jas. T. Brand was elected president of the Coos County Good Roads Association at the meeting held in the hotel here at 6:30 Tuesday evening. He succeeds J. E. Norton, who has so ably filled that position for two years.

Dr. S. C. Endicott, of Bandon, was re-elected vice president; and Dr. J. E. Snyder, of North Bend, was retained as secretary-treasurer.

The association pledged itself to continued active support of road programs until all the highways and market roads in this section of the state have been completed.

Until the Roosevelt Highway in Coos and Curry counties is completed the association decided to continue sending representatives to the monthly meetings of the highway commission, the expense to be prorated among the various chambers of commerce.

About twenty-five members were present at the meeting from the Coquille valley and from the Bay section, and harmonious support of all good roads was the keynote of the meeting.

Four Bandon Boys to Salem

Juvenile Officer A. T. Morrison intends leaving tomorrow morning for Salem with four Bandon boys, who have been committed to the state training school. They are Rescoe, Lyman and Richard McNames, aged 15, 12 and 19 respectively and a Howard boy.

These boys, dirty, ragged and unkempt, when they appeared before Judge Mast this week, are some of the boys in the seaside town who have been guilty of so much of the thievery and petty larceny from which that town has suffered.

Mr. Morrison had a difficult time getting these youths corralled. He locked one up in the Bandon jail and while he was out getting another the first broke out. After securing a new lock, he locked up the second and when he came back again with the first, found that some one had kindly released the second. Eventually, though, he got them all rounded up and brought them up here for here for safe keeping.

Lowest Tide for 20 Years

On May 9-10-11, says the Bandon World, there will be a series of low tides that will permit hungry epicures to gather all the sea-food they want, as well as to climb among rocks that are usually hid in the moist and moaning sea. There is a possibility that a trip to Table rock can be arranged on the date of the lowest tide which shows on the tide book as a minus one foot. Beginning July 3 there will be low tides for a week during which time Table rock will be accessible.

This series of low tides will be the lowest in twenty years, according to Chris Rasmussen, who keeps close tab on the rocks when the water gets off. A minus 2 foot tide is the lowest of the lot, and that means a wide stretch of beach exposed to the sun and the feet of curious tourists and seekers after secrets of the sea.

"So Big" in the Sentinel

A New York dispatch of last Saturday says: The annual Pulitzer prizes in journalism and in letters for 1924 were announced today by Nicholas Murray Butler, president of Columbia university, for the institution's school of journalism. Edna Ferber for her novel "So Big" received the \$1000 prize for "the best American novel published during the year which shall present the wholesome atmosphere of American life and the highest standards of American manners and manhood."

The Sentinel expects at an early date to begin the publication of the serial here referred to.

George Nelson Goodrich

George Nelson Goodrich was born in San Francisco January 1, 1863. His boyhood was spent in Napa, California. In 1883 he came to Coos county with his father, Captain S. D. Goodrich, and made his home for a number of years at Parkersburg. On May 8, 1887 he was married to Miss Berline Bunch, of Coquille. Twenty-one years ago he moved to Coquille where he has made his home ever since.

On the twenty-seventh of March he was taken seriously ill with the influenza. Although he recovered from the attack his heart was seriously affected by the illness. Last Saturday he left his home at about 12:30 and walked through town to the river. Shortly before one o'clock men working nearby heard him cry out and he was seen to fall into the river from the lower part of the high dock. He made a desperate effort to save himself, grasping a log in the river, but lost his hold. Help was secured but the body was not recovered until Sunday, April 26, at 2:30 p. m. Mr. Goodrich had no motives for suicide, and it is believed that dizziness and partial heart failure caused his fall into the stream. In the effort to recover the body hoops were fastened on lines and weighted down with pieces of gas piping. One of more of these caught in his clothing during the effort to secure the body, and this gave rise to the theory of suicide. Only his watch, knife, and small change were found in his pockets.

He is survived by his wife and ten children: Mrs. Rosa Wiggins, Charles A. and William R. Goodrich, Mrs. Bertha Liebhart and Mrs. Inez Crook, of California; Floyd N., and Robert H. Goodrich—at present seriously ill at the Mercy Hospital at North Bend—Mary A., Hattie Margaret, and Marian A. Goodrich. All the children are living. He is also survived by a sister, Mrs. Mary Roberts of Santa Paula, California, and by twelve living grandchildren.

Mr. Goodrich during his long residence at Coquille had made many friends who mourn his loss. The funeral services will be held Sunday afternoon at 2:30 at the Ellingson chapel.

Cheese Factories to Reopen

It is reported that one and perhaps two cheese factories in northern Curry county are to be re-opened in the near future. A. W. Britton, of Myrtle Point, who formerly was cheesemaker at Langlois, has been negotiating for the Langlois factory in view of re-opening that plant. On Monday of this week a meeting was held at Denmark at which the co-operative owners of the plant located there discussed the leasing of the plant. Representatives of the Nestle's Food Company were present and interested in the discussion and consideration. As far as information is available nothing definite has been decided upon.—Western World.

Carried a Joke Too Far

Geo. Coburn has a sense of humor but he overstepped the bounds of propriety just a little last Friday evening, says the Bandon World, when he invited Chief of Police Matt Coy to have a drink. Coburn explained that someone had left a bottle in his place of business. The chief took the bottle and placed Coburn under arrest. In Justice of the Peace Badley's court Monday, he was convicted by a jury of having-liquor in his possession and was fined \$150, and assessed costs amounting to \$11. The jury was composed of J. H. Jones, J. B. Benedict, O. M. Kenyon, Ed. Henry, D. C. Kay and Felix Hull.

Hero a Former Bay Man

James Faulkner, who is lauded as one of the heroes of the Portland fire department in rescuing occupants of the Hendricks apartments in Wednesday morning's fire, is a former Marshfield man. He is a brother of Mrs. E. L. Robinson and on leaving there eight years ago became a member of the Portland fire department.
