FIRST LADIES OF THE LAND

From Martha Washington to Grace Coolidge, Including Many Famous Mistresses of the White House and Covering Nearly a Century and a Half

From the Literary Digest

What sort of social history will the newly inaugurated First Lady of the Land contribute to the storied gayety of Washington? While the President is adding to American history and tradition in his own way, Mrs. Coolidge must carry on the long line of social regimes which have been so much a part of the life of the capital ever since it was turned from a struggling country village into the governing city of a great nation. Now that the Coolidges are established in the White House by the choice of the people, instead of by chance and misfortune, Mrs. Coolidge may feel at liberty to establish the social tone of the Presidency according to her own inclination and desire; and all Washington is asking, reports a correspondent of the Philadelphia Public Ledger, whether Mr. Coolidge's ideas of economy will rule in the domain that is supposed to be particularly his wife's. Will it be a gay administration, or a quiet one? Will there be a return of the colorful days of the Cleverlands and Roosevelts, of the Buchanan regime, of the time when Dolly Madison made not only Washington, but the world in general, wonder at Washington gayety? It is certain, at least, we are assured, that there will be no return of pipe-smoking as in the days when Mrs. Zackary Taylor smoked a corncob. While Washington and the country at large wait to see what Mrs. Coolidge will do, the Ledger correspondent presents this bit of more or less confidential information:

Viewed in the long line of women who have preceded her, Grace Goodhue Coolidge is "first" in many things. She is the first President's wife ever to receive an honorary degree. She is the first sorority sister. She is a wonderful dancer and knows more about the great national game, baseball, than many men.

Mrs. Coolidge is the ideal conversationalist, quick at repartee and full of fun. She loves people and she loves life. She will send a brilliant administration down to history, say Washington. For Mrs. Coolidge's secret which might not go down in history, but it's true:

"Mrs. Coolidge twists the President right round her little finger. Whatever she wants she usually gets, for he's so crazy about her he wouldn't refuse her anything."

However, this may be, and whatever the future may bring forth, the Ledger correspondent speculates and recalls that:

Ever since the days when Martha Washington inaugurated her famous stately levees, received her company sitting down and smilingly announced "the General always retires at ten o'clock, and I always precede him," the people of the United States have wondered and speculated about this intriguing matter. The President, after all, must be President, but the President's wife—!

Would she be gay? Would she be haughty and reserved? Would she let everybody in the White House and would she keep everybody out? Would her administration be famous for beautiful clothes, marvelous music and refreshments, laughter and sparkling repartee? Or would she go contrary to all the laws of human frailty and not care about any of these things at all?

Queens who accede to thrones have their line of duty all mapped out for them for hundreds of years. But the consort of the President of the United States is pretty much a law unto herself. There was a President's wife, you remember, who hung her washing to dry in the East Room. There was one who elosed herself up a few rooms in the corner of the White House and led her life as she was accustomed to doing on the Western plains, refusing absolutely to take part in any capital gayety, let alone intrigue any herself. Yet on the other hand, there have been Presidents' wives who have turned the White House into a grand establishment with all the brilliancy, dash and beauty of a great French court.

For just as the office of the President of the United States is the most democratic institution on the face of the earth, so is the position of the First Lady of the Land. No mother has probably ever dangled this reward before the eyes of a growing daughter as she placed the goal of Presidency before the eyes of her son. Nevertheless, it is true that any young woman may become mistress of the White House. There have been a boarding-house keeper, a business woman, a newspaper writer, school teacher, an actress and women of other professions, as well as daughters from the highest ranks of society, gracing the White House.

Grace Goodhue Coolidge was a school teacher whose principal heri-

No Increase in the Price of Firestone FULL-SIZE GUM-DIPPED BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer mileage—greater economy—at no extra cost to you!

Enjoy the safety, economy and comfort of Balloon Gum-Dipped Cords this summer. Let us equip your car now at low cost—with liberal allowance for your old tires.
