

## MINOR MENTION.

**Telling About People and Events in the City and County**

M. R. Lee, of Powers, was in Coquille yesterday.

W. C. Griffin, Arago merchant, was a Coquille visitor yesterday.

Service Station to lease in Bandon. Address Box 161, Bandon, Ore. 11\*

The law passed by the last legislature fixing grade under which eggs must be sold, will take effect the 26th, Tuesday, of next week.

R. B. Miller and E. L. Perrott left for Portland Saturday morning. They will build twenty summer cottages there and will be gone about six weeks.

All kinds of dressmaking at a reasonable price. Old clothes remodeled. Downstairs at Dunham's house on Hall St. Phone 113M. Mrs. J. G. Page. 1814\*

The high school faculty and the doctors had a fast volley ball series of games Wednesday evening. Seven games were played of which the faculty won the odd.

Mrs. Tracy A. Leach, Mrs. Nels Osmondson, Mrs. Sarah Wickham and Mrs. J. A. Lamb went out to Roseburg this morning to attend the Strawberry Festival.

It will be easier and more pleasant to take your Sunday dinner at the new Coquille Hotel.

Mrs. E. Hansen, of North Bend, died at the home of her daughter, Mrs. C. O. King, Wednesday morning. Death was caused by complications due to old age.

Mr. and Mrs. E. E. Johnson and daughter, Mary Esther, left last Saturday for San Francisco, where he had business to attend to. They expect to be home Sunday.

Miss Ethel Miller, of Lebanon, Ore., is visiting for a few days with Mrs. James Nosler. She is on her way home from Kerby, Oregon, where she has been teaching.

Strayed from pasture on Rink creek, one Holstein yearling heifer, branded with figure 8 on right hip. Finder take care of same and notify me at Bridge, Ore. Carl Burket.

Hansine Marie Grimstad, housewife of North Bend, is the latest applicant to apply for citizenship papers. She is 35 years of age, a native of Norway and came to the U. S. in 1914.

Want—Used furniture. S. R. Svendsgaard.

Mrs. H. E. Lubhart, of Owensmouth, California, who is visiting her mother, Mrs. G. N. Goodrich, and family spent the day at Bandon with her sisters, Mary and Margaret Goodrich. They had a delightful time on the beach.

Girls:—You can't expect a feller to love a girl with a red nose, colorless lips, dull eyes. Don't wait—Your "chance" might come tomorrow. Better take Hollister's Rocky Mountain Tea at once and be on the safe side. Ask Your Druggist.

Dairymen—Ship your Cream to the Coquille Ice Cream Co. for best results.

The winner of the Radio Electric Hardware Co.'s baby bathtub for the month of May is Helen Margaret Moore DeBaer. She was born on May 1 at 11:20 a. m. and is the daughter of Mr. and Mrs. Robert De Baer, of Gravel Ford.

The Woman's Club will meet Tuesday afternoon with Mrs. A. J. Sherwood with Mrs. H. C. Getz, Mrs. Ed. McKeown, Mrs. Geo. Davis and Mrs. Viola Collier as the hostess committee. Everyone interested in the club work is invited to attend.

Special Chicken Dinner at the new Coquille Hotel every Sunday.

Mrs. L. Myrtle Henry was up from Bandon one day last week to visit her friends, Mr. and Mrs. Gabler. She reported her father, J. F. Shannon, as slowly improving in health, also that grandma Henry is still very feeble from her late illness.

Mrs. Walter Crook, of Los Angeles, was a visitor last week at the home of C. E. Bogard in North Bend. Mrs. Crook came to Oregon several weeks ago upon the death of her father, Geo. Goodrich and her brother, Robert. She expects to spend this week visiting friends at Port Orford.

Have your Sunday dinner at the new Coquille Hotel. Per plate \$1.25.

Mrs. W. S. Myers, wife of a convicted "moonshiner," and their two children were sent to Butte, Mont., last week by the county court. Mrs. Myers' parents live there and will care for their daughter and grandchildren while Myers is serving a four months' sentence in jail.

Want—10 used spook stoves. S. R. Svendsgaard.

C. E. Niles, a resident of Coquille about 12 years ago, but now of Petaluma, Calif., was a visitor here this week. When here he was associated with Frank Burkholder in the insurance and real estate business and his visit here was to dispose of what property he still owned in Coos county.

One of Coquille's prominent attorneys, J. Arthur Berg, was "setting up" the cigars yesterday, and announced that a seven pound baby girl was born to himself and Mrs. Berg yesterday morning at Mercy Hospital. We haven't seen "Uncle Al" Powers yet, but imagine that he is wearing as broad a smile as "Papa Art."

Sour stomach, clogged up bowels, pimples, blackheads, foul breath, are evils of constipation. HOLLISTER'S ROCKY MOUNTAIN TEA regulates the bowels, purifies the stomach, and expels decay matter from the system. Nature's way to cleanse and purify your stomach, kidneys, liver. Satisfactory results will follow. Ask Your Druggist.

### Death of Geo. G. Conger

Geo. G. Conger, who for years resided in Coos county, Oregon, owning a place in the Fat Elk district, died at the home of his son, E. C. Conger, in Taft, California, May 15, 1925, after an illness of 8 months. He was 69 years, 5 months, 15 days old at the time of his death. He leaves to mourn his loss his wife, Mrs. Flora Conger, and four sons, E. C. Conger, of Taft, Calif.; J. E. Conger, of Represa, Calif.; Earl Conger, of Penryn, Calif.; and C. D. Conger, of Powers, Oregon; also six grand children. The funeral took place at the Undertaking Chapel at Taft, May 18, at 9 o'clock, burial being in the Bakersfield cemetery.

### Travelling Men Fined

Two travelling men, whom the fire warden stopped at the county line up in the canyon above Bridge because of their erratic driving, were followed two or three miles by Sheriff Ellingsen and Traffic Officer Williams, on advice from the warden, and saw their car either off into the ditch. E. M. Prigh, one of them, was convicted by Justice Stanley here this week of possession of liquor and W. F. George was fined \$150 for careless driving.

### M. E. Missionary Society

The Missionary Society of the M. E. Church will meet with Mrs. H. L. Johnson Thursday, May 28, at 2 o'clock. Outside of the regular business there will be election of officers and all those having Bibles boxes are requested to bring them in. There will be a little play put on by the girls and a lunch will be served by the committee. Everybody interested in this work is cordially invited to come.

### Two Jail Arrivals

Two of the county jail arrivals this week were Watt Short and Geo. W. Watson, who were fined \$1,000 apiece and given six months in jail each by Justice Maybee at North Bend. They pleaded guilty to operating a still in the South Slough district.

### A High Compliment

A city subscriber, who recently renewed for the Sentinel, volunteered the statement that it was the "best local paper" he had ever seen anywhere, which is the highest possible praise.

### For Sale for \$7500

2 Blocks with furnished house, 10 rooms, electric wired, hot and cold water, sewer, piano, sewing machine, etc. All floors covered. Can be made into two apartments. Barn, 2 chicken houses. Fine orchard. On Spruce St. at Myrtle Point, Ore.

Also, good paying Meat Market, at same town. Price \$4,000.00.

Also 3-room bungalow furnished, nearly a block of land, fine, bearing orchard. Price \$1,000.

N. M. Lewis, L. B. No. 6 Silver Lake, Ore.

### For Sale

One Size "D" Ensilage Cutter, with necessary pipe ..... \$100.00  
One 1918 Cadillac Seven Passenger Touring Car, in good condition ..... \$250.00  
One Corn Drill No. 919, with Fertilizer Attachment ..... \$50.00  
See:

L. J. Simpson, North Bend, Oregon.

### Pasture For Rent

Dairy heifers or young stock pastured in canary grass, river bottom land at \$1.50 per month. Joseph Harville, Chinocamp ranch on Marshfield highway, R. F. D. No. 1, Marshfield, Ore. 1814\*

Don't worry about your battery when you can take it to an expert at the Coquille Service Station and have it inspected.

### The Judge Was Not Forced

There has been considerable in the Bay and Portland papers about the Samuel J. Coleman case, and the statement made that the North Bend Chamber of Commerce forced Justice Stanley to recommend that Coleman's license be restored. The last mentioned is not true.

Coleman was returning from a dance at Bandon with a young lady after midnight, May 2. To keep a car from passing him he zigzagged back and forth across the road and hit it up all the way from 40 to 55 miles an hour for 12 miles.

When Sheriff Ellingsen and Deputy Malehorn finally passed the two racing cars, they talked to Coleman first, and the driver of the other car backed off, turned around and disappeared.

Coleman was fined \$100 by Justice Stanley, which he paid, and his license suspended for six months.

But it seems that young Coleman had an opportunity to secure a very fine position, but one that required the use of an auto.

When these facts were presented to the judge he signed a request as did also Sheriff Ellingsen and District Attorney Bedingfield, to Gov. Pierce that the young man's license be restored and it was according do so.

But it was not the North Bend chamber, to whom Coleman appealed his case, which forced action.

It was an aggravated violation of traffic laws and the young man deserved all he got, but Judge Stanley was unwilling to hinder his securing the splendid position offered.

### TEST ASSOCIATIONS OF GREAT BENEFIT

The cow-testing association is the simplest, surest and cheapest method for the rapid improvement of dairy cows. It affords the average dairyman an economical means of obtaining a record of how much each cow produces and what it costs. Such records require regularity in testing and weighing of milk and feed, and a systematic form of keeping the data. The difficulty of this work is eliminated by the cow-testing association, which furnishes a more economical way of obtaining such records than if each dairyman undertook to keep his own. Writes E. M. Harmon in the Farm Life.

A cow-testing association is a group of farmers, usually 25, who agree to co-operate for the purpose of improving their dairy herds. They form an association and hire a man whose duty it is to weigh and test the milk, and to keep a detailed record of the production of each cow in their herds, together with the cost of production. This man, called the tester, spends one day every month on the farm of each member, where he weighs and tests the milk from each cow. From these figures he calculates the amount of milk and fat produced during the month and its value at the market price. The tester also weighs and records the amount and kind of feed given each cow, computes its value and estimates the total cost of feed for the month. When this amount has been charged against the value of the milk and fat produced for that month, the owner is able to determine the profit or loss on each cow in his herd. He then knows the amount returned for each dollar expended for feed and the exact cost of producing a pound of fat, or 100 pounds of milk.

The tester also assists in selecting feeds and figuring the most profitable rations. He also offers suggestions on breeding, management and other phases of the business as deemed advisable by the attitude of the member. He will not make suggestions nor advocate changes for any farm unless he feels that they will be welcomed by the owner.

The tester comes to the farm in the afternoon, with his outfit. With the owner, he weighs and estimates the feed given each cow, and at milking time they weigh and take a sample of the milk from each cow. The next morning these same operations are repeated, the Babcock test is applied to the mixed sample representing the morning and evening milk of each cow, the outfit is washed and the necessary computations are made and recorded in the member's herd book. When this is completed the tester goes on to the farm of the next member.

It is the duty of the members to keep as accurate an account of the milk produced and feed consumed between the visits of the tester as is practical under ordinary farm conditions, so that they may give reliable information to the tester.

The cost of keeping records of the dairy herd is one of the smallest items of expense attached to the dairy farm, and when once started it is found to be simple, easy and interesting. Most important of all, it is very profitable.

### For Sale

For light housekeeping 2 rooms and garage, electric lights in all three; big range, both rooms new linoleum, large room newly calcimined, bed room newly papered, Seeley mattress. North end of city. See A. T. Boldon. Rent per mo. \$15. 1811\*

## FARM POULTRY

### GATHER EGGS OFTEN IN SEVERE WEATHER

Success in selling hatching eggs or in getting good hatching eggs for your own incubators to supply you with chicks for the baby chick trade is dependent a great deal upon gathering the eggs during the winter months at frequent intervals; but even market eggs require the same attention in order to get the best results.

In freezing weather the eggs may lie in the nest three or four hours before freezing, but there is no reason for subjecting them to such a temperature for any length of time. If they are to be used for hatching purposes, or sold for hatching eggs, you owe it to yourself or your customer to gather them as soon as laid, if possible. Any unnecessary exposure to the temperature will affect, more or less, the hatching quality and the vigor of the chick.

Where it is at all possible, especially in severe weather, it is advisable to visit the nests every 30 minutes and gather such eggs as can be gathered without disturbing hens on nests. So long as there is a hen on a given nest, the eggs under her are in no danger. Those who are fortunate enough to have double-walled and frost-proof houses are not in as much danger of loss as those whose hens are indifferently housed.

The ideal way to handle winter hatching eggs is to put them in the incubator the same day they are laid, says a writer in Successful Farming. However, this is not often possible, unless one has a large flock laying enough to fill the incubators. Some hatchers remedy the situation by having small incubators and setting them every day or two during the season; or, where large machines are used, setting separate compartments.

Where this is impossible and the eggs must be stored a few days before placing in the machines or shipped to customers, it is best to place them in a clean and dry, but well-ventilated place, where an average temperature of about 40 to 45 degrees is maintained. A regular incubator cellar is good for this purpose; but do not place the eggs in a damp, poorly ventilated or musty vegetable cellar. If you do not have a clean cellar, it is better to place them on a ground floor where the room is heated sufficiently to keep it from freezing.

In storing eggs for hatching purposes, it is best to place them in flat wooden trays. Incubator trays not in use are good for this purpose, or trays may be made along that style. A cabinet may be made of a number of these trays nailed together which will be handy and serviceable.

Turn the eggs every day from the time they are taken from the nest until they are placed in the machine. This is to prevent the germ sticking to the shell and rendering the egg worthless for incubation purposes.

Get the eggs into the machine or under hens or off to the customer at the earliest possible moment. Every day that passes lessens the chances of the utmost success. Evaporation is the constant enemy of the half-over hatching egg, and the longer this progresses the less the chance of getting a strong, viable chick.

### Scientist Finds Goiter in Minnesota Chickens

Two cases of that rarest of poultry diseases, goiter, have recently been diagnosed by Dr. H. C. H. Kernkamp, assistant professor of veterinary medicine, University of Minnesota. Both were in White Orlington hens which came from the same farm in Ramsey county.

In one of the specimens the thyroid gland had become so enlarged that it pressed against the trachea and inferior larynx and caused the former to become flattened. The heart had also become slightly displaced by the growth and the lungs were pressed against the walls of the thorax.

Records of the veterinary medicine division at university farm show that of 2,400 autopsies on poultry sent in from all parts of Minnesota for investigation and study the last six years, these two cases were the only ones of goiter observed in birds. Carpenter, a veterinary scientist of California, did not find a single case of goiter in 1,000 autopsies on chickens.

### Height for Perches

Dropping boards should be level, and the perches arranged about six inches above them. The perches should be on a level, also, and of 2-by-2 material. They should be fastened to 2-by-4 supports that are hinged at the back end of the house so that the roosts can be raised out of the way while scraping the dropping boards.

### Damp Sawdust Is Bad

Damp sawdust is not very desirable to use as insulation in a wooden walled poultry house, not only because the dampness is likely to increase rather than decrease, and is bad for poultry, but because damp sawdust has only a small part of the insulating value of dry sawdust. If the coal cinders were crushed into fairly uniform small pieces, it probably would work very well for insulation, but the ordinary cinders are too coarse to have much value for insulation.

### State Meeting in Marshfield

The state convention of the Oregon Federation of Women's clubs will be held in Marshfield June 1 to 4 and a program of varied interest has been arranged for each day with many excellent musical numbers. The sessions will be held in the Marshfield armory. Special speakers include C. C. Colt, B. F. Irvine of the Oregon Journal, and Dr. Walter Brown, director of the Marion county health demonstration program. Departments of the state federation, each of which will contribute special reports to the program are: American citizenship, American home, applied education, fine arts, international relations, legislation, press and publicity and public welfare. There are also the scholarship loan fund and endowment fund boards of trustees and various standing committees.

### To Fix Bandon Beach Road

W. A. Gilbert, county roadmaster, was in Bandon Tuesday inspecting the road south of Queen Ann cottage on the bluff. He was accompanied on the tour by C. R. Wade and O. L. Zentner, members of the Chamber of Commerce road committee. They found it was a practical solution of the problem to put in several turn-outs and also a gravel road to the clay parking space on the bluff. This will be recommended to the county court and will probably be carried out. There is already money enough available—\$2500—to do the work projected, and to extend the present road down the coast toward Bradley's lake.—Western World

If you want to subscribe for a Portland daily the clubbing combination, we offer with the Sentinel will save you money.

### where will you go—when your home burns?

GRANTED that you have your home insured against fire, but how about the rent you will have to pay until you rebuild? Here is the proposition: you pay a small amount now and we'll pay you rent from the time your house burns until it is rebuilt. The cost of this Dwelling Rental Insurance is insignificant—often only \$1 a year.
