Corthell-Bennett

Surprising all her friends, Miss Mary Bennett, for two years a deputy in Assessor Beyers' office, went out to Eugene last Friday where she was married that night to Maurice Corthell, son of Mr. and Mrs. R. A. Corthell, of Marshfield.

So well did the bride keep her secret that not till her return from Eugene Monday did her friends know of her marriage, except a sister and three chums whom she told just before she left.

The ceremony was delayed until about two o'clock Saturday morning, while waiting for a witness from Coos county.

The bride is the daughter of Mr. and Mrs. I. J. Bennett, who reside at McKinley. She attended high school for three years in Marshfield where the romance began, but she finished her high school course here and graduated from the Coquille high school.

She is one of the most efficient deputies Mr. Beyers has ever had in his office, a charming girl and the good wishes of a wide circle of friends are being extended to her.

The groom has spent three years in Willamette University and is just finishing his first year in the U. of O. medical school. Mrs. Corthell will continue her duties in the court house for the present.

To Operate Mill

A new cedar mill with 4000 feet daily capacity will begin operations next Monday on the S. M. Wellock plane place on the south fork of Fourmile creek. The mill is being put in by Mr. Wellock who will log and cut the cedar on his place.

He expects to employ eight or nine men. Billy Cox has the contract to do the logging.—Bandon World.

Bandon and the Bond Issue

Western Word

The Roosevelt highway through the city of Bandon failed to receive the attention of the state highway commission at its meeting last week, although the right-of-way matter has been settled and the state has been informed that it can now proceed with construction.

The Marshfield Daily News says: "The highway commission advised J. T. Brand and C. W. Parker of Marshfield that they were anxious to place under contract at once the Roosevelt highway through the city of Bandon, but did not feel they could in view of the status of Coos county's bond issue. They agreed to place under contract this job at once if the county court would advance the commission \$15,000 as Coos county's share of this project with the understanding that Coos county would go through with their bond issues to pay the state obligation. The \$15,000 is a part of the \$280,000 issue."

The proposal to await action on the bond issue constitutes an effective means of assuring a favorable vote in this community, although it is confidently believed that such leverage is unnecessary since Bandon has always been strongly in favor of the \$280,000 bond issue and would vote for it almost to a man if given an opportunity.

However, local highway enthusiasts are of the opinion that certain sections of the county are talking advantage of the situation, and will not allow the \$280,000 issue to come to a vote without adding the proposed \$400,000 county road program and the additional Eastside bridge item which has now grown to \$300,000.

If the three projects are lumped it will run the total up to nearly a million dollars and there is serious doubt if such an issue would receive a majority vote in any part of the county. Industrial conditions right now are not up to standard and until the lumber market improves the bond issue prospects are not as hopeful as they might be.

It is proposed in this community that the county court take no further chances with its obligations to the state; that it place only the \$280,000 item on the ballot this year, as was done originally. It is believed by next year the lumber situation will have improved and the voters will be in a more favorable mood to consider county road and bridge projects.

Everyone in the county realizes the need of more market roads and many are convinced that a bridge is the proper solution of the Eastside matter, but it is thought futile to attempt a program of this kind before conditions warrant it.

The original plan of the Coos County Good Roads association was to complete the state highways within the county first and then take up the purely county projects. If this plan is followed the consensus of opinion is that the county will experience no further delay and that all the necessary projects will be taken care of in due time.

Dairy Sale Not Confirmed

Judge Kendall has refused to confirm the sale of the I. Nordstrom dairy herd at Bandon for \$4750, holding that the price is too low. Herbert Howell, county agent of Josephine county and Mr. Lodghary, Jersey breeder of Monmouth, made the offer. Receiver G. R. McNair submitted the offer to the court. Mr. Nordstrom some time ago made an assignment in favor of his creditors.
