If the county court can build a tower of babbles in Douglas county why can't they build a joss house in China?

The question before the house is: Did the polywog wiggle waggie off his tail to become a frog or did the polliwog evolve off his tail to become a frog. The main thing is not whether he wiggle-waggied off his tail or whether he evolved off his tail but that he lost his tail and became a frog.

As I understand it, the law in Tennessee forbids a man, when he is taking refreshments at a soda fountain, to express an opinion that the polliwog evolved off his tail instead of wiggle-waggie off his tail. Moral: Beware of drinks at soda fountains way down in Tennessee. R. A. Easton.
