WAR DEPARTMENT WILL NOT OPPOSE BRIDGE.

Mr. Editor: There has been considerable discussion in regard to the proposed Marshfield-Eastside bridge, it being maintained by some that the War Department would not permit the building of a bridge across Coos Bay between Marshfield and Eastside, and if permitted, the Department would not permit it to be operated with one man on 24 hour shift.

With the view of arriving at something definite it was decided by the County Court that one or more members of the Court should seek a conference with Major Coiner, now in command of the Portland office, and this was arranged by Mr. McCulloch of the State Highway Bridge department, in whose presence a conference was had Wednesday of this week.

Major Coiner said he did not see any basic objection to the building of a bridge over Coos Bay at the proposed location, provided clearance requirements and design details were satisfactory and there did not seem to be any reason why such requirements could not be met.

He also stated that superficially he saw no objection to the type proposed, in the sketch design submitted by the State Highway Department.

He further stated that the War Department had not any ruling in regard to the number of operators required or the number of shifts used. The only requirement in this regard was: The bridge must be opened promptly for the demands of navigation as and when required.

Mr. McCulloch of the State Highway Bridge department states this can and is being done successfully with one man at Young's Bay and Lewis and Clark river near Astoria by the State Highway Department under traffic conditions four or five times as heavy as at Coos Bay.

It would seem the above facts should set at rest all fears or objections urged against the building of the bridge as proposed so far as the securing of the permit in due time and under as one man operation is concerned.

Living quarters will be provided on the bridge structure for the accommodation of the operator and he can be relieved one day each week with an extra.

Thanking you for space for this explanation, I am, Respectfully, R. H. Mast, County Judge.

Asks for Citizenship Papers

Otto Richard Potlary, Coquille's well-known baker, the first of this week filed final application for citizenship papers. He came to the United States from Finland in 1909 and filed his declaration of intention to apply for citizenship in November, 1913. The next citizenship hearing will be held in Circuit court here Sept. 28, but there being less than 90 days prior to that date when he made application, it cannot be heard until the February term next year.

Why Bandon Opposes Bonds

The Western World, in its issue yesterday, very frankly says that Bandon is opposing the \$700,000 and issue because the Lampa-Fishtrap road is not included in the projects to be taken care of from the proceeds of that bond issue. If the election is adverse this year a larger issue will be proposed next, which will contain projects of similar excessive cost.

E. T. Wade Buried at Bay

Rev. A. W. Bell conducted funeral services at the Sunset cemetery at Marshfield Wednesday morning over the body of E. T. Wade, father of C. E. Wade, of Bandon, who died the first of the week at Pendleton. Mr. Wade formerly resided at Bandon and his widow will again make her home in Coos county.

Will Work a Night Shift

The Coos Veneer & Box company will be forced to put on a night shift by the middle of August, if not sooner, stated Benj. Ostlund, president of the company, on his return, after an absence of more than six weeks while he was touring the east on a combined business and pleasure trip.—Coos Bay Times.

Accident Results in Death

Fish War at Gold Beach

Gold Beach and vicinity are now in the throes of a fish buyers war with the result that the price of salmon has jumped to 12 1-2 cents per pound—the highest it has been in years.

A California fresh fish dealer named Einatos, has entered the Rogue Bay and is combatting the Macleay Estate cannery. The Macleay Estate cannery started off the season paying 8 1-2 cents per pound, a big price. Einatos has chartered the schooner Magnolia under Capt. Pete Olson of Coos Bay and sent her up from Eureka with 20 tons of ice to handle the catch. Palladini, San Francisco fish dealer, who has been warring with Einatos for the California salmon pack, is also following him up the coast. There seems to be a general shortage of salmon.

Col. E. K. Lawson, manager of the Macleay estate, came up from Wedderburn this morning. He said that the war was simply demoralizing the business and would not last long.—Coos Bay Times.

Health and Home

ICE-DRINKS IN THE SUMMER

On a warm and sultry summer day, there is nothing more refreshing to the mind and to the body than iced drinks. Of course, when such drinks are being used, moderation should be practiced, because if taken in excess or too rapidly, they are liable to be injurious to the stomach. However, when taken in a sensible manner, they are refreshing and beneficial to the fatigued. In the manufacture of these drinks, care should be taken to avoid any combination that may be indigestible or hard to assimilate. The drink should be consumed in a slow and leisurely manner.

The greatest danger present in the use of iced drinks is the one that involves the use of ingredients that are possibly impure or contaminated in any way. This is very liable to happen if the juices that are used are allowed to stand until they become soured and unfit for use, or if the milk or other ingredient used is not strictly fresh. The predisposition of milk to spoil quickly at summer temperatures makes it oftentimes necessary to use evaporated milk, which after all is just pure fresh milk with more than half the water taken away. It is sterile and, therefore, always safe. For use in iced drinks, it is ideal.

Following are several formulas used in the manufacture of iced beverages. If these formulas are followed religiously, the results will be found to be very satisfactory.

- Chocolate Malted Milk.
 - 1 cup evaporated milk
 - 1 cup water
 - 2 teaspoonfuls cocoa
 - 2 teaspoonfuls malted milk
- Mix cocoa with water until syrup is obtained. Put all ingredients in Mason jar and shake thoroughly and serve with chopped ice.
- Milk Punch.
 - 1 cup evaporated milk
 - Sugar to suit taste
 - 1 cup tea
 - 2 thep. lemon juice
 - 3 thep. orange juice
 - 1/2 cup water
 - Small stick cinnamon
 - 1/2 cup fruit juice (currant or berry preferred)

Boll slowly the cinnamon, a lemon rind and orange rind in water for ten minutes. Strain and when cool add the other ingredients. Place in a Mason fruit jar and shake well. Serve in tall glasses with chopped ice.

- Egg Nog.
 - 1 egg
 - Pinch salt
 - 1/4 cup cold evaporated milk
 - 1/2 cup ice water
 - 1 1/2 thep. powdered sugar
 - 3 thep. fruit juice
 - Nutmeg gratings
- Add salt to egg white and beat to a stiff froth. Add the sugar, the well beaten yolk of the egg and the fruit juice and nutmeg. Fill glass with milk and cold water. Sprinkle top with chopped nuts.

Scout Camp at Broadbent

The Boy Scout camp near Broadbent on the South Fork of the Coquille river will be open to all boys throughout the county between 12 and 16, Harris Ricksecker, scout executive, announces after conference with Judge J. C. Kendall, president of Coos county boy scout council.

Scouts, however, will have preference if more boys apply than the camp can accommodate. Sixty boys can be cared for at the camp and the cost will be approximately \$6 a week for each boy.

The camp will be in charge of three adults. Information concerning the camp can be obtained from Ricksecker at the Marshfield chamber of commerce.

Almost 300 Tons of Milk
