

Take Your Time About Deciding On This Investment

THE only kind of shareholders desired by Mountain States Power Company are those who expect to keep their money invested in the Company, and to share in the dividends regularly paid year after year.

There are circumstances, of course, which may require any shareholder to dispose of his holdings, in which case he finds a ready market for the sale of his securities. But the great majority of the Company's shareholders are permanent.

As the Company's business grows it must make additions and extensions to render service. This means that new capital is required practically all the time. This demand provides an investment opportunity which will be kept open to customers, by encouraging small investments rather than large ones.

The Company's policy is to have many shareholders and to give customers the opportunity of participating in the wages earned on the invested capital.

The Company seeks your personal, friendly interest primarily. The investment of your money brings you and the Company together as partners. Naturally partners should make up their own minds, and be fully satisfied of the wisdom of what they are doing.

M. E. Church

Services at the tent afternoons and nights. Three meetings—Sunday. These are high feast days in spiritual blessings. Brother Cox is a prince among preachers of the much needed expository type in our day of cheap doctrines. For more than thirty years he has been sounding forth the call of God to the sinner "Ye must be born again," and to the believer, "Ye are sanctified by the blood." Out of hearts made holy by the blood this man and the musicians with him are being used mightily of the Lord. The power of the Holy Ghost is recognized in every service. He is leaving the stamp of His presence upon many hearts. How is it with you? Will you not come and "find rest to your soul?"

Church of Christ

The shock that came to us all in the death of our beloved Elder, Superintendent and faithful co-worker C. E. Mulkey, has been so great that we can hardly yet realize our loss. We will not forget his loving service, but inspired by his loyalty let each one feel more keenly his responsibility and help to press on toward higher marks. Brother N. C. Kelley, the assistant Bible School superintendent very humbly but willingly steps forward to fill the place of Supt. Mulkey. We must all rally to his support in this good work.

The county rally will be held here in Patterson's grove next Sunday. This will be a great day for the Bible schools and Churches of Christ of this county. They are all coming with their Bible schools and have one big school together at 10 o'clock and morning worship and preaching at 11. Basket dinner at noon. Afternoon services at 2:30 to 4:30. This will start with a rousing song service, followed by a sermon. From 3:30 to 4:30 the Christian Endeavors will have a great session. This will close the rally and the evening services will be at the church at the usual hour.

Let whosoever will come to any or all of these services.

Is a Lion afraid of a cock?

Medieval wiseacres used to wag their heads and tell tales like this in the village marketplace.

An amusing superstition, of course, but is it any more absurd than the belief that there is something mysteriously "better" about eastern motor oils just because they cost more and come from eastern crudes? Professional drivers and economy-run experts out after records don't share this superstition—why should you pay tribute?

Zerolene—the choice of Western Motorists

Zerolene lubricates more cars in the Pacific Coast states than any other oil made—a better oil if it does cost less. Zerolene increases the gasoline mileage, reduces the carbon removal and maintenance costs and lengthens the life of any car in which it is used.

Zerolene checked fifteen times for quality

As a matter of fact the best crude so far discovered for the manufacture of motor lubricants is obtained on the Pacific Coast. And the most highly developed refining process is the high-vacuum process, the patents on which are held by this Company. And 15 positive checks on Zerolene at the refinery make quality control absolute.

Why pay tribute to superstition when you want the best oil you can get? Insist on Zerolene—ask for it by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on ZEROLENE even if it does COST LESS
