Trainer of Boxers Gives Diet Hints

To Ed Howard of Chicago and his new system of training and conditioning. Sammy Mandell, the present lightweight boxing champion of the world, gives a great deal of the credit for his meteoric rise to stardom in the world of pugilism. When Mandell first started fighting, he was small, weak and undeveloped, but after turning himself over to Howard it was only a short time before he took the decision from Sid Terris of New York that resulted in him being recognized as the boss of the lightweights.

It works no hardship on the athlete who is in training. Unlike the systems that have been used for years, this prominent and successful trainer of men makes conditioning more of a pleasure than a distasteful necessity. Instead of demanding that his men eat only certain things he advises them to eat what they want and when they want it as long as it is cooked in a proper manner. Mr. Howard, in a recent interview on the subject of diet and condition, said, in part: "Years ago it was a task, and an unpleasant one, for a boxer or a wrestler to train for a bout because he was forced to literally starve himself unless he wanted to eat steaks and chops at all times. I remember that when I was training for a match, I was so truly tired of steaks that I choked every time that I ate one but it was steak or nothing. I advise my men to diet at all times but it is perfectly possible for them to diet and, at the same time, to enjoy their food. My only 'don't' is the one regarding the eating of such combinations as fresh milk and cheese, and fruit with cream. In fact, I advocate the use of evaporated milk entirely. Vegetables are fine and the more that the athlete eats the better he will be for it. Pastry, of certain kinds, such as homemade pies, cakes and cookies, if made correctly, and with pure butter, evaporated milk and pure lard, are very beneficial. Stews and soups are good. Taken as a whole, any food, with a few exceptions, is all right if properly cooked and eaten without overeating."

And one has but to look at Howard, who is the most religious user of his own system, to realize that it is a success.

Every Boy Should Have One

GASPAC is AJAX

Only from AJAX dealers can you buy AJAX GASPAC Tubes. The AJAX GASPAC Tube solves motorists' tube troubles. It is a first-quality tube, sealed hermetically in a container filled with a non-explosive, non-inflammable gas. Thus the tube is preserved with all its original life until wanted for service. Air and light, as perhaps you know, are rubber's deadly enemies. GASPAC is the first practical answer to the problem all manufacturers of rubber products have dealt with since the vulcanization of rubber. Therefore, GASPAC has been pronounced the most important contribution to the tire industry since the introduction of the pneumatic tire.

Keep Out the Sun

West windows are to be avoided for the afternoon sun is too strong for plants, and it does not seem to act favorably on even the most sun-loving plants, says Nature Magazine. If a west window must be used, some sort of protection should be given the plants to reduce the amount of light and heat.

The Sentinel and the Oregon Farmer can be obtained for \$2.25 for one year.

NOTICE OF FINAL ACCOUNT

Notice is hereby given that the undersigned administrator of the Estate of Madge Pollock, deceased, has filed in the County Court of the State of Oregon for Coos County, his final account as such administrator and said Court has appointed Tuesday, the 8th day of September, 1925, as the time for the hearing of objections to the said final account and the settlement thereof.
L. H. Pollock,
Administrator of the Estate of Madge Pollock, deceased.

What \$25 will do
For \$25 you can have the weekly visit of the Coquille Sentinel and the Oregon Farmer—of week—\$1 a year.

IT'S FASCINATING!

With a paint brush, color, and enamel, you can create delightful effects in the decoration of small objects, ornaments, seed pods, shells, and the like. It's fascinating—it's the vogue! --Decorative Enamels and Bronze Paints give the effects you want.

Also, ask for booklet, "The Art of Decorating with Decoret." It's free, and is full of ideas on finishing and refinishing furniture and ornaments.

WE carry a full line of Fuller Paints and Varnishes and can supply your needs.

Life and Death

I always believed in life rather than death. I suppose every day of earth, with its billions of insects and animals, its flowers and its trees, its triumphs and its defeats, its joys and its sorrows, has been a part of the life of the universe. I believe the flowers growing at the moment you read these lines are the same that were ever sown—silver was the same ever sown—silver was the same ever sown.

City May Have Been Wiped

The ancient city of Troy is supposed to have been a single day of earth, and nearly surrounded by the River Sisyphus, but its location is in dispute and some even think that it ever existed. The founding of the city is ascribed to Teucer, whose grandson was Priam, who was the father of Iliad, who called the city Ilium after himself and also Teuch after Teucer, his father. The story goes that the walls of the city were built by the magic wand of Apollo's eye. The date of the building of the city after a ten-year siege is usually placed at 1180 B. C.
