HAVE IT DONE BY US IN TIME

A slight defect, a little crack or break in a spring, shaft or axle may not be so serious now—but don't put it off. Let us weld it now while there is yet time to save it and save the car. That old proverb about a stitch in time applies to welding.

W. C. T. U. Children's Home

A plan to both construct and maintain another home for dependent children on the W. C. T. U. Farm House in Corvallis has been advanced by Mrs. J. R. Wolf, of Portland, who is in Marshfield to place the plan at that place. When brought to the attention of Governor Finis and other state officials as coming under the head of public welfare, the plan was indorsed as a most practicable one, and co-operation of the Oregon State Elks association has been secured by T. E. Turnbull, secretary. Different civic clubs and city organizations are being enlisted in its support.

The plan is simple, and practicable. A Children's Farm Home league has been organized for Oregon children. The child contributing one dollar to this league becomes a member. This takes care of the construction of the home. But his obligation does not cease here. He makes an annual payment of one dollar, which takes care of the maintenance of the home.

There are 245 acres in the Farm Home grounds at Corvallis. Three cottages have been erected there, and three more are under construction. Only 20 children are admitted to each home, and while this is under Protestant administration, the home-mother is instructed to receive and care for "children of all faiths and no faith."—News.

A. A. Seisler, of this city, is one of several Coos county citizens who expect to go out to Corvallis tomorrow to look over the Farm Home.
