

THURSDAY Oct. 1

To the first ten customers entering our store Thursday morning, Oct. 1st, and making a purchase of \$1.00 or more, we will sell 18 lb of sugar for \$1.00. Our special for Thursday, Oct. 1st, will be: good grade of bacon for 40c lb; 5 lb spaghetti for 25c; Cluff's Golden Bantam Corn 25c; Calumet Baking Powder 1 lb tin 27c; 2 1-2 lb tins 53c; 5 lb tins 98c; Delmonte Catsup, pts., 20c; 6 Boxes Ohio Matches 25c.

FRIDAY Oct. 2

Olympic Flour \$2.35 per sk.; 8 lb Snowdrift Shortening \$1.79; Wesson Oil pts. 26c, qts. 50c; Clorax 16c bottle; Brands-A-1 Sauce 25c bottle; Dromedary Dates 20c pkg.; Saniflush 22c tin; Certo 26c bottle; Large oval Sardines 2 for 25c.

Special Offer Don't Overlook This

For all three days for each \$5.00 worth of groceries you purchase (sugar, feed and seeds excepted) we will sell you one sack of
OLYMPIC FLOUR for \$2.00

We are re-arranging our store

to make it a

Genuine Self Service Store

which will save time for our customers. Select what you want, step over to the cashier, pay for it and save time and money. Under our new plan we will make no slips, goods will have to be paid for before leaving the store or upon delivery. We will continue to make deliveries every afternoon free on orders of \$1.00 or over. Everything on the shelves will be marked and bulk goods, done up in packages, will be marked with weight and price.

We have compared our prices with all cash Grocery Stores in the county, and find our prices are lower in most every case. And if you will visit the store, compare our prices with others you will be convinced of the fact. In order to get you to come in and examine our prices we are making some good special prices for Thursday, Friday and Saturday, Oct. 1st, 2nd, and 3rd. Our motto is not what can we get but "the least we can afford to sell for."

Watch Next Week's Sentinel for our Specials Saturday evening After Six O'Clock

We will have something worth while to out of town shoppers. Our evening specials will apply all day Saturday, Oct. 3rd. Get our prices on all kinds of Feeds and Seeds. We are in a position to compete with anybody.

SATURDAY Oct. 3

"Will be Wellman Foods' day. We want you to try our Wellman goods and here is an opportunity to use the best goods packed at very reasonable prices. It will pay you to stock up for the winter at the following prices:

- Wellman Pineapple No. 2 1/2 tins 25c; No. 2 22c; No. 1 tall, 2 for 35c; No. 1 flat, 15c.
- Wellman Asparagus style String Beans, No. 2 tins 23c.
- Wellman Petit Pois Peas, No. 1 18c; No. 2 tins 25c.
- Wellman Hominy No. 2 1/2 tins 14c; No. 2 tins 19c.
- Wellman Sauerkraut No. 1 tins 10c; No. 2 1/2 tins 15c.
- Wellman Spinach No. 1 tins 12c; No. 2 tins 14c; No. 2 1/2 tins 17c.
- Wellman Shrimp 18c, 2 for 35c
- Wellman Olives 25c.
- Wellman Tuna Fish 1-4 tins 18c 1/2 tins 27c.

And Wellman Coffee. We want you to try our Wellman Coffee and all day Saturday, Oct. 3, we will have Mrs. Leslie demonstrate Wellman Coffee and we invite you to have a cup of this delicious drink. Coffee is advancing again but we will make special low prices as follows: Wellman Coffee 1 lb tins 55c; 2 lb tins \$1.05; 5 1/2 lb tins \$2.50.

NOSLER'S CASH STORE

Save Money By Paying Cash

Brewster Valley

Mrs. C. H. Cordory and Miss Madeline Larson, of Marshfield, visited Mrs. J. D. Laird the middle of the week.

Miss Ruby Krewson, of Coquille, spent Saturday and Sunday with her brother, E. A. Krewson and family. Saturday C. M. Wilson and Mrs. Ivan Laird went to North Bend, Mrs. Laird going to spend a few days with her sister, Mrs. Win Nickason.

Julius Benham and wife, also J. R. Benham spent Sunday visiting the Fred Mast home at McKinley. Miss Parks went to McKinley, Saturday.

Lewis English and Eddy Caskler, who have been gone to Silver Lake for the past six weeks or so, have returned home, but will go to work in the Chaney logging camp the first of the week.

Mr. and Mrs. P. A. and Rolfe Alford motored to Bridge Sunday.

Kenneth Laird has returned home from Rock Creek, where he has been working this summer, with his team.

Mr. Wagner and Mr. Kelley, of Marshfield, are spending their hunting vacation with Albert Christensen.

Mr. and Mrs. Elmer Wilson spent Sunday afternoon at the Alford home.

EAST FORK NOTES

Mr. and Mrs. Roy Schall, Emma, Ruth, Oliver and Oran visited Mr. and Mrs. Theodore Easton and baby, Gloria, Sunday.

Ed. Abernethy has a choice crop of watermelons. His guess is about 2,000. One measured 24x31 inches in circumference. He has out 1600 brocoli plants.

Charles Oarding, one of the seven Oarding brothers, was up Friday to tell us why we were not getting connection with the music in the air from our Globe Radio bought from the L. L. Thomas Music Co. He found a loose connection and the bat-

tery which we had recently recharged was about petered out. The radio is all right now and Sunday night several of the neighbors were in and we listened in to church services of the First Presbyterian church, Portland.

Oscar Courtright, of Diamond, Or., gave his sister, Mrs. Ezra Watson, a surprise when he came to visit her and brought a wife with him. Oscar and his wife are newly-weds, married about two weeks. Jessie's mother, Mrs. Smith, of Dosmond, Oregon, also visited her and family.

R. A. Easton.

Pagan New York

An apparently well informed writer in Ford's Dearborn Independent says, speaking of New York City:

"There are one million young people in this city who are growing up with no more religious education than if they were reared in the jungles of Africa; 800,000 never see a Bible. Chief Magistrate McAdoo says, 'The criminal youth of this city brought before me have no religious training; there is absolutely no basis for character.'"

He further quotes Dr. Walter Laidlaw, an authority recognized there by men of every denomination, as saying: "New York City is the greatest Mission Field in the world, equally for Catholics, Jewish and Protestants. The fact that these three groups are about equal in number is unparalleled in all the history of the world." He further added: "It is more difficult to make progress here even than it is in India, or China."

Church leaders frankly and openly admit the situation. New York has been drawing on the denominations at large—upon Kansas farmers, and California fruit-growers, and Chicago workmen, and the nation and churches out in what New Yorkers call "The Provinces"—for help.

Send the Sentinel to eastern friends.

Arago Students to College

The Arago community gave a reception Thursday evening, September 17, for those leaving for institutions of higher learning. Those leaving are the following:

University of Oregon—Lucile Hoover, Adrian Schroeder, Rachel Woodward, Ruth Woodward and Elythe Woodward.

Oregon Agricultural college—Wallace Miller.

Oregon Normal school—Emily Schroeder, Mary Root and Ethel Fish North Bend Business college—Dorma Lett.

The following were graduates of last year's class of Arago high school—Elythe Woodward, Mary Root, Ethel Fish and Dorma Lett. The class of 1924—Wallace Miller. The class of 1923—Lucile Schroeder, Adrian Schroeder and Emily.

Out of 19 graduates from the Arago high school there will be eight in attendance at institutions of higher learning at the beginning of the fall term.

Two more are contemplating entering at midyear, Edward Fredenburg and Christina Vetter.

Got a Slap on the Wrist

Keller and Wesley Clarno, two young fellows, were arrested today, following the issuance of a search warrant which revealed two sacks of threshed grain, which they were accused of stealing from the field of the Ferry ranch of the Madley Estate company. Tried tonight before Justice of the Peace Ralf G. Starr, they pleaded guilty. Each was fined \$25, and Wesley, the older of the two, was sentenced to a year in the county jail and paroled, pending good behavior. —Glad Beach Reporter.

Don't worry about your battery when you can take it to an expert at the Coquille Service Station and have it inspected.

Discovery of Etching

A Bohemian glass cutter was working one day, when a few drops of sulfuric acid fell upon his spectacles. When he picked them up he was astonished to find that the acid had corroded and softened all the glass with which it had come in contact. He drew figures on a sheet of glass with a kind of varnish and then painted round the outline with acid. As soon as the latter had had time to act he cut away the glass round the outline. When the varnish was wiped off his drawing appeared raised against a dark background. This is how etching and the process of decorating glass was discovered.

Keep Smiling

There is something joyous and cheery and breezy about any person who can live above his surroundings—that is, can find something to cheer in every state, and who prefers to ponder on the brightness of the sun rather than discover the spots in it.

If you would sing and whistle and laugh more, heartaches would be fewer. Laughter is a contagious thing. It calls forth a similar response. People feel the tingle of life, and experience its thrills as they laugh. And there is such a lot in life to smile over.—Exchange.

Father Was a Christian

The primary teacher had taken great pains to explain the distinction between surnames and Christian names after which she called on the children to give examples of each kind from their own names and those of other members of their families. When Jennie was asked to tell in one statement the surname and the Christian name of her father, she responded, after a little hesitation: "My father's surname is Johnson. His Christian name is Methodist." —Brooklyn Eagle.

If you want to subscribe for a Portland daily the clubbing combination we offer with the Sentinel will save you money.

Slim Football Prospects

There may be some towns in Coos county where the football prospects are bright, as one Bay paper says they always are in the latter part of September, but Coquille is not one of them.

"Brick" Leslie is not in an optimistic frame of mind these days at the showing of his proteges and a championship is the farthest from his thoughts. He will be satisfied if the local team makes a good showing.

Individually he has a pretty good squad of eighteen men to select from, aside from their proneness to fumble, but as a team they have not yet got the idea of team unity which any winner must have.

The back field men are Wilson, Richmond, Call, Curtis, Harper, Ponder and Augustino. At the ends there are "Hot" Watson and Art Fulford. The tackles are Wayne Robinson, "Giant" Finley and "Ghat" Stonecipher, who will be back in the game next week. Guards are Holmstrom, Seeley, Hanson and McClellan, while Herman Floten has the job at center cinched, with "Pete" Gould as understudy.

LeNorme Ponder, Harry Mast and Clyde Minard are doing pretty fat work on the second team in the scrimmages which are being held daily.

Pretty nearly every other town in the county is pepped up with the idea of a championship team, and at North Bend and Myrtle Point the prospects are bright. Marshfield and Bandon are more or less of an unknown quantity, but with 86 turning out for practice the Marshfield coach should be able to select a winner.

Summer Ends With Hot Wave

Summer took its final fling at Coos Bay Tuesday with one of the hottest days of the year. The "death" of summer officially took place at 4:45 o'clock Wednesday morning but the old boy was sufficiently healthy to register a temperature of 89 on the last day of his life—an unusually high mark for September, says the News.

At the same time the mercury soared the humidity declined to 18—the lowest mark of the entire year—which means there was plenty of heat but very little moisture in the air.

According to the hygro-thermograph in the Coos forest fire patrol office the temperature was 88 and the humidity 18 at 1 o'clock Tuesday. After that hour the humidity increased and the temperature decreased. The lowest humidity previously recorded during the year was 36 and yesterday was the fourth time in 1925 that it fell below 50.

As result of the extremely low humidity there was a great forest fire hazard but no fires were reported.

Tuesday's weather, however, made slashings just right for burning and the fire patrol urges that all slashings be burned now before the rainy season begins. Permits to burn are necessary until October 1, it was stated.

High School Notes

Rupert Ponder, Clarence Bean, Fred Baxter, and Edna Robinson were elected presidents of the senior, junior, sophomore and freshman classes respectively at the first class meetings of the year.

The other senior class officers were Ted Finley, vice president of the senior class; Eddy Fish, secretary-treasurer; Ross Kistner, executive council representative.

Edward Johnson was elected vice president of the junior class and the others were: Fern Houdyshell, secretary; Clare Bean, treasurer; Jean Young, executive representative.

The sophomore and freshman officers were respectively: Phyllis McCurdy, vice president; Orpha Burket, secretary; Billie King, sergeant-at-arms; Mildred Chapin, treasurer; Wanda Houdyshell, executive council representative; Vera Fortier, vice president; Lois Kay, secretary; Keith Laird, treasurer; Frances Nosler, executive council representative.

Fast Time From Sacramento

Capt. Edgar Simpson and Tom Cowan, a pioneer logger of this section, arrived at the Bay by auto from the Simpson ranch at Hood, Cal., near Sacramento, after making a record-breaking trip. They were left about 22 hours on the road and made a continuous run of it. Mr. Cowan is said to have driven the ox teams in the staging of the "Ten Commandments" for the movies. Mr. Cowan handled ox teams in logging in this section before the advent of donkey engines.

Mr. Simpson has been furnishing cattle and horses for a number of the movies and now is helping stage "The Pony Express."

Capt. Simpson will spend some time here at the Shore Acres home of his brother, L. J. Simpson.—Coos Bay Times.

FARM STOCK

ERADICATE SCRUBS TO IMPROVE HERDS

(Prepared by the United States Department of Agriculture.)

"Scrub-bull eradication campaigns" are rapidly gaining the favor of enterprising county agents as a means of improving the cattle of their counties, says the United States Department of Agriculture. Fifteen dairy bulls of quality were added recently to the bovine population of Hopkins county, Ky. Prior to the campaign in this county two committees from each community made a survey of their school district to determine the number of bulls, cows, and heifers on the farms, what breed they were, and whether scrub or pure bred. The survey covered 800 farms and showed a dairy cattle population of 1,924 mature grade cows, 586 grade heifers, 101 mature pure-bred cows, and 31 pure-bred heifers; also that more than 90 per cent of the farm herds were being bred to scrub or grade bulls, and only about 10 per cent to pure-bred bulls.

For the organization meeting the Hopkins county farm bureau arranged a banquet for the community committee men and business men. One hundred and fourteen attended. An executive committee of five men was selected. During the week of the campaign 30 meetings were held in all sections of the county with a total attendance of 1,632, averaging about fifty-four persons at each meeting. The bulls were selected by the purchasing committee in Christian and Todd counties, Ky., and brought to a local garage for exhibition and sale during the campaign. Fifteen bulls were sold by the end of the week. The majority of the bulls purchased were from dams with advanced registry records. The stimulating influence for better bulls never ends with the close of the campaign week. In Buncombe county, N. C., where a similar campaign was conducted early last fall, at which time 12 bulls were placed during the week of the campaign, the county agent reports a total of 29 bulls being placed, 17 after the close of the campaign.

A campaign was also held in Chester county, S. C., where 16 bulls were placed during the week. The county agent reports that he has several more prospects for pure-bred bulls, also that a number of communities have pledged themselves to eliminate the scrub bull.

Some Mineral Mixtures

Are Good for Porkers

Some of these simple mixtures are good for swine: Equal parts by weight of ground limestone and salt; equal parts of wood ashes and salt. These supply calcium, but no appreciable amounts of phosphorus. Equal parts of ground limestone, salt and either bone meal or ground rock phosphate. This furnishes both calcium and phosphorus. Nine parts of either bone meal or ground rock phosphate and one part tankage for flavoring. These mixtures also furnish both calcium and phosphorus.

The most necessary elements which are furnished by all mineral mixtures are calcium, phosphates and chlorine. All of the above simple mixtures supply these elements.

Experimental data shows that hogs which have access to good, succulent pasture are benefited to a very slight degree by mineral mixtures. Also, hogs which are fed upon a ration of corn and tankage respond very little to mineral mixtures. However, there is a place for mineral mixtures where hogs are fed an unbalanced ration, especially in the dry lot.

Skim Milk Will Improve

Ration for Market Hogs

Skim milk added to a ration of corn and tankage enabled the Ohio experiment station to market hogs weighing 255 pounds almost three weeks earlier than those fed on corn and tankage alone, at a saving of 78 cents a hundred weight on feed costs. The corn and tankage ration produced a gain of 0.9 pounds per pig daily with a ration of 3.61 pounds corn and 0.86 pounds of tankage. The cost per hundred pounds gain in this lot was \$7.0.

The skim-milk-fed lot received a ration of 4.06 pounds of corn, 0.28 pound of tankage, and 2.95 pounds of skim milk daily. The average daily gain was 1.33 pounds daily at a cost of \$8.91 per hundred pounds gain. The saving on feed for each 100 pounds of skim milk fed was 90.6 pounds. The skim-milk-fed lot received a small amount of limestone in the ration, and this helped to increase the gain.

Eradicate Stomach Worms

As a drench for the eradication of stomach worms in sheep, gasoline is the one most commonly used by stock owners in the United States. It should be given on three successive mornings after the animals have been kept away from all food and drink for sixteen hours, and after the dose is given they should be fasted for two or three hours more. Each dose should be measured separately and given in milk, laced all or fasted off.
