In going over his effects, preparing to moving out of the quarters as has occupied for so long, Geo. A. Robinson found a deed, in his grandmother's papers, to 500 acres of land near Chicago, signed by Ulysses S. Grant, as president. The land was a gift originally to a man who helped quell Indian insurrections in Illinois.

Dr. C. A. Reitman left last Friday for Troy, Idaho, in response to a telegram that his mother had passed away very suddenly of heart trouble. She was nearly sixty years of age. Dr. Reitman does not expect to return for a week yet, as the three brothers wish to attend to the business in connection with the estate while all are there. The father died some years ago.

Mrs. Miller is their aunt and she had not been here for twenty-five years. The visitors' home is in Edmonton, Canada, and they were able to visit here while the boat on which they were going to Eureka, was in Coos Bay.

Woods Threw Burns Twice

Sailor Jack Wood is too clever a wrestler for Frank Burns. Monday evening he waited an hour for his heavier and older opponent to try him out with every hold known to wrestling, and then the sailor clamped a headlock on Burns and slowly but surely forced his shoulders to the mat. The first fall was in 53 minutes and the second, which Sailor Jack also won in 8 minutes.

Burns is too adipose to make much of a showing against Wood, but even so it was not a walk away for the latter.

The bout was rough in spots, Burns starting it by attempting to smother Jack's nose all over his face. The former has a powerful grip and when he clinched Wood's fingers in his grasp he left them numb. Wood was also a bear-cat in the roughing game. The preliminary between Floyd Price and Roy Oederstrom was a 15-minute draw. About 500 people were in attendance, the Bay, Bandon, Myrtle Point and Powers being well represented.

Nearly half the audience was composed of women and those, who evidently are followers of the game, were not slow in voicing their sympathies. It got under the skin of both the wrestlers at times.

J. L. Holycross, who promoted the match, says that he expects to have two or three more bouts held here this winter and hopes to secure Yokel for one of them. At the next match, there will be the regulation rope ring. The Community Building, with its circus bleachers is an ideal place to hold matches of this kind.

The first meeting of the new year will be on January 11th.

Lamb Residence Ablaze

Either Clear In or Out

When the coaches and principals attempted to draw up the 1926 football schedule last Saturday, it developed that the Marshfield coach desired to schedule but four conference games, and play as many with outside high schools. North Bend declared in favor of scheduling no more conference games than did Marshfield.

This brought "Brick" Leslie to the front with a statement that Coquille could not afford to go the expense of a football season for just four games and he suggested that Coquille had better withdraw from football participation and devote its attention to basketball. It is not equitable for part of the schools to play seven conference games while others engage in but four.

With this impasse it was decided to wait until Saturday, Dec. 19, to arrange a schedule for football and give all the school officers more time to think it over.

Leroy Rice Not Careless

Leroy Rice was acquitted on the charge of reckless driving, before a jury in Justice Stanley's court last Friday afternoon. Andrew Hatcher, whose car hit the truck Rice was driving, just after the latter had backed onto the highway near Ralph Nosler's place, and then plunged into a telephone pole, testified that the truck obstructed passage, but Rice and Harry Varney, who saw the accident, saw that the truck was clear over on the right side of the pavement, and that when Hatcher applied the brakes his car skidded around and hit both front springs on the truck before it headed for the telephone pole.

Leland Carl Injured

J. D. Carl, of Arago, was in this morning. He called our attention to a Salem press dispatch in Wednesday's Coos Bay Times stating that his nephew, Leland Carl, of Hubbard, was perhaps fatally injured on the highway between his home at Hubbard and Woodburn, where he was attending school. He says that the young man is not so seriously injured as reported and will doubtless recover. He is the oldest son of his brother, H. L. Carl, who is well known in this valley.

Medical Association Election

Drs. G. Earl Low and P. M. Drake, of this city, attended the monthly meeting of the Coos and Curry Medical Association at North Bend Tuesday evening, when the annual banquet of the association took place at the North Bend hotel. Dr. A. B. Peacock was elected president, Dr. G. E. Low vice president and Dr. P. M. Drake secretary and treasurer. The next monthly meeting of the association will be held at Coquille.

Sunday Expected to Accept

Upon motion of Rev. J. S. Penix at a recent meeting of the Coos and Curry Ministerial association a very hearty invitation was extended to Rev. "Billy" Sunday to hold a revival in the Bay country. Reverend Sunday had previously signified his willingness to accept such an invitation and it is almost certain that he will hold this meeting in the early summer of 1926.

Junior Play Next Thursday

Have You Heard That — Anthony, Lord Crackenthorpe, a member of the Entomological Society has one interest in life, spiders. Professor O'Mara, F. R. S., a great friend of Anthony, who was related by the same interest, had died some time before and his widow and pretty daughter were invited to visit the Crackenthorpe's county home. Now, Anthony's mother is very much prejudiced to having her son interested in women, for if he married she would become a dowager, so although she is obliged to back the invitation, she remains on the most distant terms with her guests.

Major Archie Phipps, a retired trooper of Lady Crackenthorpe, who is very selfish but tries to make his actions seem as if they are done "for the good of the family," thinks it is not well for Anthony to become interested in Peggy who, with her mother, is helping him in his entomological research; therefore he conceives the following plan—the Hon. James Keppel, Anthony's younger brother, should be sent for. Being likeable and handsome, he would distract Peggy and prevent her from venturing her wiles on the head of the family.

Jimmy comes; instead of pretending to have an interest in her, as he is supposed to do, he falls in love with her. She is very impulsive and thinks she loves writing her stories more than Jimmy.

Peggy knows that her mother is in love with Anthony, but unselfishly wishes her daughter to become a lady; and Peggy does not care for Anthony herself and wishes to put things right. Pretending that she is working out the plot for a story and putting herself in the heroine's place, she asks Jimmy how to overcome the situation. He says she should pretend she had eloped and her mother would feel free to marry the man she loved.

Peggy decides to try the plan herself and one day in Jimmy's absence, seeing that things are at a critical stage, departs from the house early in the morning, leaving a note to the effect that she has eloped with Jimmy and they would soon be married and on their honeymoon.

Major Archie Phipps, hoping to create a sensation, writes an account of their wedding and has it published in a daily paper.

Naturally Jimmy is very much surprised to learn that during his absence he is supposed to have been wedded and departed on his honeymoon, and Peggy is remorseful for her all-of-a-sudden movement.

We leave them in this difficult situation and if you wish to see how they straightened it out (and you surely will) see "All-of-a-Sudden; Peggy," the play to be presented by the Junior class at the Community Building, next Thursday, December 17.

Mrs. Cora Steele Recovering

In a letter just received from Mrs. Cora Burns Steele she says: "The cast was removed from my ankle last Tuesday and I am happy to say that Dr. Mast says I will be walking soon again. The ankle was injured the 5th of last July. Neither bone nor ligaments would heal properly until after the cast was put on in October."

North Bend Commendation

The Sentinel has received favorable local comment on its article of two weeks ago in which the practice of dismissing high school on Friday afternoon was criticized, and this week we received a letter from North Bend of a commendatory nature. The letter said that but few people over there approved of the practice.
