Glaisyer's Work Effective
 Dr. W. V. Glaisyer returned last Saturday from north of the Bay, where he removed the cast from the leg of the moose which he had set a month or more ago. The bone seemed to have knit perfectly but the big fellow is still kept in confinement until the leg becomes stronger. The doctor says it was wonderful the way the moose jumped fences with one leg helpless.

 A few tomatoes were picked from the vines Dec. 2nd. They were not of good quality, many spoiled ones were on the vines and ground.

 We heard the services of the First Methodist Church, Oakland, Calif., Sunday night. Two hymns, "Day is dying in the West," and "Majestic sweetness sits enthroned," gave the choir and congregation opportunity to let out their voices. The sermon was about the merchantman who traveled far seeking the pearl of great price. Knowing the value of life, the worth while values, were the lines along which the minister hammered. He didn't use a tack hammer.
 Beautiful days.
 Why can't the merchants send out franked letters to advertise their goods?
