COQUILLE, OREGON

A Stranger Notices

That we have found eight Protestant churches in Coquille and attended services in a majority of them.

That in not one have we seen a real congregation.

That not one has a building such as one would expect to find in a town like Coquille.

That in all of them the young people were conspicuous by their absence.

That when the Christian people of any town are divided into so many parts their influence is correspondingly weakened.

That if all the money and effort required to keep these separate churches going were applied to one Community church it would be possible to erect a church building that would really reflect the glory of God and to have in it a congregation that would be an inspiration to any minister.

That the influence of such a church could not help being felt throughout the life of the entire community and it would not be necessary to have three revivals going almost simultaneously to stir up a little enthusiasm.

That it is useless to say that it can't be done for there are many places where it is being done throughout the United States and Canada.

That the difference of opinion are not so great that they can not be overcome. A lot was prejudice to begin with and after all we are all bound for the same place.

That if all the people up and down the Willamette Valley had insisted on traveling into Portland each by his own particular road which for some reason, real or fancied, he considered

superior to all other roads, no doubt, in time they would all have reached Portland but there would not now be the broad paved highway that their united efforts have made possible—a highway that is of benefit to all the country and a surer, quicker way of reaching their destination.

That with all the reverence in the world we think that there must be times when the Creator is terribly disgusted with us mortals and our petty differences.

O. A. C. Tournament May 29

Walter Paulson, of Coquille, and Wallace T. Miller, of Arago, will be entered in the fourteenth annual Military tournament at O. A. C. May 29. By means of the tournament the military department each year shows the training it offers and the serious purpose the physically fit college men give to their work in the reserve corps.

An air service demonstration directed by Lieutenant Oakley G. Kelly, America's premier long-distance flying ace, will be an outstanding feature of the program. It will include formation and stunt flying and a parachute drop. The air demonstration at 1 o'clock will open the tournament. A review of the entire cadet corps will follow the air stunts. Both students will be entered in this event.

The largest library in the world is the National Library at Paris. The Congressional Library at Washington is second largest. The British Museum Library in London has the most valuable collection.

Cow Testing Assn. Report

C. L. Griggs, Tester.
That April was an extremely favorable month for high production in dairy herds of Coos county is shown by the April report of the Coquille Valley Cow Testing Association. Of 637 head of cows tested during the month of April in this association which includes territory along the Coquille river from Gravel Ford to the ocean, 328 head exceeded 40 lb of butterfat for the month. The average production for the month was 40.2 pounds of butterfat.

Seven cows in the Association exceeded the 70 pound butterfat mark. These were led by Pearl, a grade Jersey cow owned by P. E. Bartlett, of the Catching Creek district near Myrtle Point, who made 78.6 pounds of butterfat during the period. Second place was won by Lee Evans' grade Jersey, Brownie, who produced 75.5 pounds of butterfat. Other cows from this heavy producing Bear Creek herd making more than 70 pounds were Annie, 74.7 pounds and Spot, 71.0 pounds.

Bossie, another grade Jersey, owned by Fred Sell, at Riverton, was third high cow for the month with 75.2 pounds of fat. Lucy, of Green Acres, a registered Jersey from the S. S. Reed herd at Myrtle Point, produced 71.8 pounds of fat, making her the high purebred cow for the association.

J. C. Strong, of Myrtle Point, also owned a 70 pound producer, his grade Jersey, Pinky, making 70.7 pounds of fat.

A new herd in the association, came in for honors for the month, when the herd of 21 grade Jerseys owned by Charles Sell at Riverton led the herds having more than 20 cows with the high average production of 50.9 pounds of butterfat.

Lee Evans, of Bear Creek, again led the division of the association with less than 20 cows, the 12 head of grade and registered Jerseys in his herd averaging 60.6 pounds.

"April seems to be about what May was to the dairymen last year," says C. L. Griggs, tester for the association. "Pastures were of fine quality and there was no bad weather during the period."

A list of members of the association having cows in the four honor classes includes:

Brice Nosler Wins Honors

Myrtle Point won the Coos county high school track meet at Myrtle Point last Saturday, making nearly as many points as all the other schools combined. The winners made 75 points; Marshfield, second, with 34; North Bend, 30; Coquille, 11; Coos River, 2; and Bandon 1.

The local team was crippled by the loss of its captain, Zed Finley, who was down with the mumps.

Several county records were broken. The most outstanding feature was the pole vault by Robert Sheedy, of Marshfield, who cleared it at 11 feet; 7 1/2 inches. This is also a state high school record. R. Richmond and H. Simmons, of Coquille, were third and fourth in the mile run; Art Pulford was third in the discus event; H. Simmons was third in both the 440 and 880 yard dash; and K. Simmons was fourth in the broad jump.

Press Building at U. of O.

Construction of an addition to the University Press at the state university at Eugene to provide a workroom for John Henry Nash, noted San Francisco printer, has been authorized by the board of regents building committee. A printing laboratory for student use and a store room for the library will be included in the addition. Dr. Nash was recently elected lecturer on typography in the school of journalism. He will devote a portion of his time to publishing one artistic book at the University Press, in which project state newspaper editors are co-operating.

Why not eat Sunday's dinner at the Hotel Coquille? You'll enjoy it, as well as a day of rest.

Marshfield Defeated Again

Standing Coos County League

Bandon	2	1	.667
North Bend	2	1	.667
Marshfield	0	3	.000

One hectic inning, the seventh, enabled Coquille to win its second successive game from Marshfield last Sunday, the score being 6 to 4.

Sutherland, for the visitors, had been getting by in good shape until that time, with only one hit and one run made on his twirling. At that he had been lucky, for in the fourth Coquille had three men on, with only one out, and could not score.

But in the lucky seventh Sutherland blew up. Richmond, first up, hit through the infield to center. Bonney was safe when Mike Burke juggled his grounder. Davis took one in the ribs and Zosel got the same treatment, Pulford being forced in. That settled Mr. Sutherland.

Fourtier, Marshfield heaver, had been sick and was not in uniform, but when Sutherland was yanked, he started in with his civilian clothes on. Bill Fortier wouldn't stand for it, so the game was delayed about 20 minutes while the Marshfield players ran around in circles and Fortier got into uniform. And all this time three Coquille runners clogged the bases.

In order not to delay the game too long, Lonnie Frye threw one ball to Dey and when he stepped out in favor of Fourtier after the one heave, Manger Bill Fortier entered a protest that he had to pitch until Dey was put out or reached first. Inasmuch as Coquille won, the protest was not filed.

With the resumption of the game, Dey forced Zosel at second, Bonney scoring on the play.

With two on and one out Ding Mulligan picked out one just to his liking and knocked it clear over the hill in right field. Three more runs, or a total of five for the inning.

"Penny" Studivant hit a hot one to right, went to second on a passed ball, stole third when Frye let a throw get away from him but was caught at the plate by a quick throw from Frye. "Gillie" ended the frame by striking out.

Dey, of Myrtle Point, did the Coquille receiving. Just before the game

Bill Fortier was knocked out by an accidental swing of a bat in the hands of Royce Richmond. It was a hard blow, but after having his wound dressed, Bill came back to the game and directed the afternoon's play from the bench. He was the only one to leave the nose, and he dropped like a log.

Coquille's run in the third was scored by Bonney. Pulford, who made three hits out of four times up, had singled, but was out at second on an infield hit by Bonney. The latter scored when Otto Davis crashed a three bagger into deep center.

Two singles and two errors gave Marshfield two runs in the first and two doubles, a single and an error gave them two more in the sixth.

Gilbert relieved Zosel in the seventh and the visitors did not get a hit off his delivery.

There was a crowd of nearly 400 in attendance, a lot of them being from the Bay.

North Bend took Bandon into camp last Sunday—so all three teams are bunched with two wins and one loss. Marshfield has lost three.

E. E. JOHNSON LUMBER CO.

Coquille, Oregon

Boys and Girls Club

H. C. Seymour, state leader of boys and girls' club work for the state of Oregon, will be a Coos county visitor May 24th to 27th, according to C. R. Richards, county agricultural agent, who is arranging speaking engagements for Mr. Seymour at various points over the county.

Mr. Seymour is bringing the famous Southern Pacific moving pictures of boys and girls' club work with him and will show these pictures as a feature of his meetings. The pictures, which are the gift of the Southern Pacific Railway include five reels of film showing the activities of many of the 9000 youngsters engaged in the club projects under the direction of the extension service over the state. They include also scenes taken at the big boys and girls' summer school at O. A. C. last June where Secretary of Agriculture Jardine and Governor Pierce, as well as other notables, were visitors.

Mr. Seymour is a nationally known figure in boys and girls' club work and is widely known as a fluent and entertaining speaker. Some clue to his engaging personality may be gained by the term bestowed upon him by a writer in a Portland paper who called him "the man with the heart of a boy."

Meetings are being planned for Myrtle Point on Monday evening May 24 to be held at the high school

auditorium at 8:00 p. m.; at Coquille Theatre Tuesday afternoon, May 25, at 2:30 p. m.; at the Broadbent gymnasium on Tuesday evening at 8:00 p. m.; at Coos River high school on Wednesday afternoon, May 26, at 2:00 p. m. and at Bandon grade school on Thursday afternoon, May 27, at 8:00 p. m. Mr. Seymour is scheduled to address the Kiwanis Club at North Bend on Thursday, May 27th, at their weekly meeting and will give his pictures and lecture afterward.

Members of the various boys and girls clubs and their parents are planning to attend the meetings en masse and it is hoped that many others will avail themselves of the opportunity to hear Mr. Seymour and see the moving pictures, which are shown free of charge.

A diamond ring valued at \$25,000, taken from the stomach of a large fish caught off the coast of Norway, has been turned over to the American Consul as probably the one reported lost off Florida several years ago.

The British Air Ministry plans to institute in the near future dirigible service between London and Calcutta. The journey is expected to take five days.

Only five college graduates are included in the 13,012 convicts in Sing Sing.
