

What this world's record means to you

In April, 1927, Goodyear finished the 100,000,000th Goodyear pneumatic motor vehicle tire

When we offer you a Goodyear Tire we offer you the benefits of world-record production.

Your money buys more because the Goodyear tire is the product of an organization that does things in a big way.

For example, Goodyear uses nearly one-seventh of all the crude rubber produced annually—almost 50% more than any other manufacturer! Goodyear uses 100,000 bales of cotton yearly, operates its own cotton plantation, textile mills, rubber plantation, coal mines, factories and branches.

You get all the benefits of this efficient, economical production when you buy a Goodyear Tire.

We're Goodyear right
here in Your Neighborhood.

When you buy a Goodyear Tire from us you make a direct and close association with the Goodyear organization. As Goodyear's accredited representatives in this district we are pledged to do everything possible to see that the Goodyear Tires on your car give you satisfactory service—long, economical mileage. We offer the free service of application, inspection, inflation and examination for any sign of unnatural wear. All you have to do is drive around at regular intervals.

The World's Greatest Tire

The new-type All-Weather Tread Goodyear SUPERTWIST Balloon. Eliminates the balloon tire troubles common to old-style tire; insures traction and safety on all roads, in any weather. See it today!

More People Ride on Goodyear Tires Than on Any Other Kind

Milk—it's a food for babies and giants. Milk is a health builder and more of it would be consumed if the proper thought dictated each meal.

The Farmer Boy knows that our milk is from cows that are well treated—that the milking and bottling are strictly sanitary—that you may be perfectly pleased.

THERE IS NO SUBSTITUTE FOR FRESH MILK

COW BELL DAIRY
