MYRTLE POINT ITEMS

James Johnson, 26, Olalla resident, is in the Mast and Wilson hospital here following a narrow escape from death when the Fordson tractor he was driving, overturned on a 250-foot hill pinning him beneath the machine and fractured his pelvic bone and injured several vertebrae. The accident occurred at 4 o'clock Monday afternoon.

With the help of several workmen, Johnson was taken from beneath the tractor and rushed to the hospital, where he was immediately given medical attention.

The tractor had been used to haul gravel from above Bridge school house, where a water supply reservoir had but recently been completed. Johnson had started the tractor down the hill and the brakes refused to hold.

Attending physicians say that unless unforeseen complications arise he will recover.
