\$50 for Stock Judging Team

The following is an unsolicited reply from the Coos and Curry Telephone Company to the suggestion by O. K. Beals in last week's Sentinel that assistance in taking the Coquille High School stock judging team to the International Livestock exposition at Portland, would be welcome:

"Through an article in the Coquille Sentinel, my attention has been directed to the fact that you are attempting to arrange transportation for some students of the Smith-Hughes classes to the Pacific International Stock Show at Portland.

"If financial assistance is needed in this movement, this company would be glad to contribute \$10.00 toward a fund to assist in this worth while project. Very truly yours—Earl W. Murphy, Commercial Agent."

The Lions Club took up the matter of raising funds to defray the expenses of the team last week and their meeting yesterday had received contributions from the membership amounting nearly \$40.

The \$50 will provide the necessary funds, but Mr. Beals is still looking for a larger car than his in which to make the trip.

Cases in Circuit Court

Judge Brand denied the habeas corpus writ presented by his attorneys in Circuit court and he is still in jail. N. E. Bushnell, on appeal from Justice Maybee's court at North Bend where he was convicted of driving while intoxicated, was found not guilty, Monday.

Raymond Goodrich was sentenced to 90 days in jail after being found guilty of non-support of his family. Judge Brand indicated he would parole him after 30 days time in jail provided he would support his dependents.

The case of H. N. Dias vs. Geo. E. Horn was on trial yesterday. Horn stopped payment on a check, which he had given for stock, claiming misrepresentation. Dias sued for the face of the check, \$300, but the jury found for the defendant.

John Wicks, on appeal from Justice Maybee's court for possession of a still, was found guilty by a jury and sentenced to six months in jail. He was arrested near Lakeside. The judge indicated he might parole him later.

Coquille Loses, 31-6, to M. P.

After a very poor start in the first quarter at Myrtle Point last Saturday the Coquille team seemed to strike a better stride and held the opposition even. The final score was 31-6 in Myrtle Point's favor. 25 of the 31 were made by the winners in the first quarter. Two touchdowns were made by Smith on long end runs and their fourth scoring in the quarter was a touchdown which was run back from the kick-off. Myrtle Point presented a good defense and the whole team jumped in front of the man who caught the ball and ran squarely through the whole Coquille squad.

Coquille's score was made in the third quarter by Harlo Call, who bucked nearly all of 60 yards for a touchdown.

Bankers Quarterly Meeting

Over forty bankers were in attendance at the quarterly meeting and banquet of the Coos County Bankers' Association held in the Hotel Coquille Tuesday evening and a very interesting program and splendid banquet was enjoyed.

Besides the Coos county bankers there were present Keith Powell of Woodburn, president, and Andrew Miller, secretary, of the State Bankers Association; and W. A. Holt and K. M. Alton of Portland.

The four officers of the state bankers' association gave talks on trust functions as performed by banks which do not maintain trust departments; standardization of forms and practice in banks, analysis of the distribution of incomes of Oregon banks as compared with federal reserve members throughout the country and progress in the bank tax fight.

These officers had already given similar talks in 19 counties of the state and they stated that they had not previously received such courteous reception and splendid welcome as was accorded them by the Coos county bankers.

Coos county ranked well toward the top last week among counties in the state reporting contagious diseases to the state health department, with three of diphtheria, two each of pneumonia and scarlet fever, and one of typhoid fever.

London Bank Treasures

London.—Many London banks possess collections of old banknotes, practically valueless as exchanges, but much sought after by collectors.

The finest examples of old English notes are to be seen at the Institute of Bankers, in Bishopsgate, London, which contains thousands of notes issued during the last two centuries.

In this collection are examples from the original Bank of England £1 and 25 issues, a Bank of Scotland note dated 1751 for £12 Scots (£1 sterling), a note for 13 pence Irish (1 shilling sterling), which was issued in 1804 by a Cork grocer, Denis O'Flynn, and a 25 note issued by the Corporation of Liverpool in 1793.

Other curiosities are notes for 5 shillings and 2 shillings and 6 pence issued by the Birmingham poorhouse and others issued by a Wednesbury manufacturer, redeemable in pounds of rod iron.

750 Live in "Bowlegs"; It's an Oil-Boom Town

Oklahoma City, Okla.—One of Oklahoma's newest oil-boom towns is named Bowlegs.

When oil was found nearby the field became known as the Bowlegs pool. Bowlegs is a thriving village of one street. Its population is estimated to be 750 at night and half that in the daytime when the oil workers are in the field. Plans are under way to publish a newspaper to be known as "Bowlegged News."

Free Sun Bath Allowed

By Permeable Clothing

London.—Sunlight treatment will be presently available, not only artificially and inexpensively, but will be free for all if the claim put forth by Prof. A. M. Low proves justified. This British scientist claims to have devised a method by which clothing without change of appearance or durability becomes permeable to ultra violet rays.

Clothes from the treated material would mean health for all men and women, the scientist declares. His claimed discovery of a free sun bath treatment while you walk was made by chance in the course of an X-ray experiment.

Ring Songs' Author Is Believed Identified

Berlin.—Prof. Aloys Schrod of Munster in Westphalia claims to have discovered the real author of the "XI bejungenen," or cycle of "Ring songs." Scientific researches covering many years have convinced him that the author of this famous German lay was Bishop Pilgrim of Passau, on the Austro-Bavarian frontier, who lived in the Tenth century.

The question of the authorship of the Nibelungenlied has provoked lively and often acrimonious debate among German savants for more than a century.

Vet Has Own Methods for Running His Farm

Banbury, England.—Brig-Gen. Gage, D. S. O., who has been running a farm on central lines since helping to win the war, says he doesn't know anything about farming, so he had to develop his own methods. "I went to buy a cow," he says, "and knowing nothing about cows, I chose a nice looking one and told the farmer to make her jump a fence. She took it well, so I bought her."

Licensed U. S. Hunters

Number Over 5,000,000
Washington.—Membership in the "Knights of the Shotgun" took a decided increase during the 1925-'26 season and at the same time boosted the capital in state treasuries.

During the season more than 5,150,000 sportsmen throughout the country were issued hunting licenses, resulting in a return of \$8,800,000 into state treasuries, according to the Agriculture department.

Pennsylvania, with 525,045 hunters had fees totaling \$546,407, headed the list, both in licenses granted and returns to the state treasury.
