

The World's Greatest Tire - -

And Why It Is!

You have to show some very good reasons for calling anything "the world's greatest."

Goodyear is "The World's Greatest Tire" because it wears smoothly—runs farther—looks better. Not generalities, but FACTS!

Millions of motorists have proved them on the road, for—

Goodyear is the World's Greatest Tire because it is the only tire providing complete traction on the center of the tread:

Because it has six outstanding advantages—Traction; Supertwist Carcass; slow, even tread wear; quiet, smooth running; Safety; Beauty. More than 100,000,000 Goodyear Tires have been sold—millions more than any other.

Believe us now? Come in and let us explain more fully. You'll like our service too. Just as good as Goodyear.
