The installation, to be held in the Modern Woodmen Hall in Myrtle Point next Friday, Jan. 11, at 7:30 p. m., will be open to the public which is invited to be present.

At that time the annual Memorial Service will be held and a basket social will follow. The receipts from the sale of baskets will be used for relief work. A dance will be the final event of the evening's program.

#### Mayor Thomas Honored

Is the practice of presenting to retiring mayors a token of esteem a "catching" one? If so it may affect the decision of citizens, reluctant to accept office, in the future. Last Friday evening the city employes and members of the city council presented to L. L. Thomas, whose term as mayor of Marshfield has expired, with a handsome electric coffee percolator, sugar and creamer of pottery.

(Calling cards, 100 for \$1.50)

#### SOCIAL NOTES

The E. L. Vinton home on Spurgeon Hill was the scene of quite the smartest of our midwinter parties when Mrs. Ed Vinton and Mrs. Harry Oerding entertained at a bridge luncheon and evening party last Friday. The rooms were gay in their holiday attire of red and green. Holly, bells and poinsettias were used profusely throughout. A large Christmas tree resplendent in its beautiful decorations graced one corner of the living room. Holly and large poinsettias formed the centerpieces for the luncheon table in the afternoon. A delicious supper was also served the guests following the evening play of bridge.

The high score for the afternoon was won by Mrs. Harvey Hale, second high by Mrs. George Hartley, and the door prize by Mrs. T. B. Currie. High score in the evening was won by Mrs. Archie Walker and second high by Mrs. James Watson, Mrs. G. Earl Low winning the door prize.

#### On Getting into Wrong Car

It is sometimes embarrassing to find several cars on the street that all look alike. We heard of a lady recently who drove around the block a couple of times looking for a place to park near where she wanted to shop, and then she had to go around the corner.

After finishing her errands, which took some little time she started for her car and saw what looked like hers just where she had wanted to park. She got in, toosed her package to the rear seat and was just ready to press the starter when something attracted her attention and she saw a lot of packages in the rear seat. Realizing then that she was in the wrong pew she hastily disembarked and then had to return for her own package, praying that the owner would not approach and accuse her of purloining the package she had put into the car.

Fate was kind and she reached her own car in safety.

A little different experience was that of two ladies some time ago who had been invited to accompany another lady to a party in her car. They came out from the theatre and got into the rear seat of what they supposed was the car they were to go in. They noticed two men watching them but they remained in the car for nearly an hour, before deciding that the other lady was not returning. As soon as they got out the two men got in and drove away.

The ladies arrived at the party when it was half over and found that their chauffeur had supposed they were not waiting for her.

#### Daily News' Annual Edition

According to its usual custom the Marshfield News appeared on New Year's day as a 36-page edition, with a survey of the industrial, agricultural and recreational progress of Coos county during the past year. It was well patronized with advertising and was filled with interesting facts and figures and articles, and was well illustrated. It was a credit to the News office.

#### Card of Thanks

We wish to thank our many friends and neighbors for their kindness and sympathy during our recent bereavement, and for the many beautiful floral offerings.

Mr. and Mrs. R. M. Waggoner and family.

Red clover is one of the most nutritious of forage plants and when well cured might well be used as a protein feed for livestock, replacing some of the more expensive concentrates such as bran, oil meal, or cottonseed meal, say specialists of the U. S. Department of Agriculture.

Calling cards 100 for \$1.50.

#### Rube's Death Saved Thousands

Geo. B. Weatherby, who returned last week from a visit in Eureka and Crescent City, says that the people of the latter place, were considerably disgusted that the governor of California would not allow payment of the reward offers for the death of Marion Rube, slain here a couple of weeks ago after attempting to rob the First National Bank.

They say that Rube's death saved the state and county many thousands of dollars.

One deputy had been out in the hills for some months looking for the outlaw and he was wanted, dead or alive.

But Oregon should know what to expect. The capture of Hickman, young kidnaper and murderer, learned that California's offers of reward for its escaped criminals are not authentic.

#### Harvey Miller to Be Sentenced

On the return to jail last Friday after his hearing in Justice Stanley's court on the charge of burglary of the H. N. Lorenz store, Harvey Miller professed not to have known what the hearing was for and declared that he wanted to begin serving his sentence as soon as possible; that he preferred the accommodations of the "big" house to those of a county jail.

#### Pythian Sisters Meeting

The Pythian Sisters held their regular meeting last Wednesday evening in the K. of P. hall with a very good attendance for the beginning of the new year. Plans were made for joint installation with the Knights of Pythias on Wednesday, January 16. The Myrtlewood committee was retained and instructed to continue sales of blocks and gavel to Lodges and Temples of other state and the profit be applied on the maintenance fund for the Oregon - Washington Pythian Home located at Vancouver, Wash.

#### Collision Yesterday Noon

A Ford delivery car from Roseburg and J. N. Gearhart's Oakland collided with a loud report about 1:30 yesterday afternoon as the latter was being driven out from the Coquille Service Station on to Taylor street. The Ford suffered a bent radius rod and other bruises while the Oakland's frame in front was bent and fender jammed down. It was impossible to steer the Oakland after the collision.

Through the use of insect-collecting traps carried between the wings of airplanes entomologists have discovered that there is an unexpectedly large number of insects present in the upper air, many of them being carried involuntarily. Entomologists of the U. S. Department of Agriculture now believe that wind "transportation" may be an important factor in the spread of certain insects.
