

Six Big Advantages

--yet it costs no more!

- 1—Traction 2—Safety 3—Slow, Even Tread Wear
- 4—SUPERTWIST carcass 5—Quietness 6—Appearance

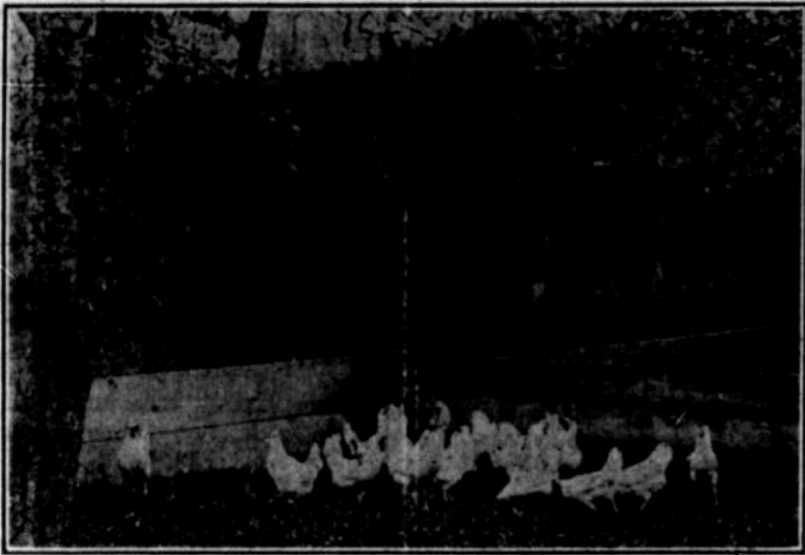

The new All-Weather Tread Goodyear Balloon Tire costs no more than any other standard brand tire—yet it has six outstanding points of superiority. The Goodyear—the world's greatest tire—actually improves the performance and value of any car. It does this because of these six important advantages.

Let us show you this new tire—tell you what it will cost to equip your car—we'll take your old tires in trade, crediting you with every mile that's left in them.

LEEPER'S TRAPNEST FARM

Coquille, Ore.

Dora and Gravel Ford

Mr. and Mrs. E. A. Howe, of Coquille, parents of Mrs. Fred Minard, spent Friday at the Minard home, as did Mrs. Ferris and Mrs. Donaldson, aunts of Mrs. Minard.

Mrs. Rose Newman, of Portland, visited from Wednesday to Saturday at the Sumerlin home.

J. N. Gearhart and Joe Walker are surveying up Sandy Creek.

Mr. and Mrs. T. G. Sumerlin and Mrs. Newman spent Friday at the DeBoer home.

Mr. Dykstra, cheesemaker from the Denmark factory, visited the Gravel Ford cheese factory Friday. He had just returned from California, where he had gone on business.

Mr. Kinkaid, who has been holding services here, preached his farewell sermon Sunday. He and Mrs. Kinkaid are moving from Coquille.

Many of the dairymen are enjoying the night school conducted by Mr. Cooley.

Arthur Croeb's condition remains about the same.

If you want to subscribe for a Portland daily the crabbing combination we offer with the Sentinel will save you money.

Names on An Old Program

Ed Lorenz hands the Sentinel an old theatre program, printed in November 1909, when the Margaret Iles Co. was presenting "Forty-five Minutes From Broadway," at the Hazlett Theatre, located on the second floor of the Gould frame building, and above what is now Mike's Seed and Feed store.

In the cast was Helen Haryey, now a resident of Hollywood, who lived in Coquille until a few years ago.

Among the names of the theatre orchestra we find those of such well known persons as C. A. Gage, first violin and director; Geo. O. Leach, cornet; Jess Hite, clarinet; Tracy Leach, baritone; Eula Price, piano.

Of the fifteen ads which appeared on the program only two were by men in business today—C. J. Fuhrman and H. N. Lorenz. Others were by W. C. Laird, furniture; the Baxter Hotel; W. C. Rose's Cash Store; A. P. Miller, confectionery; Slagle Bros. Meat Market; and O. Wilson & Co., clothing.

Names and business houses change a great deal in eighteen years.

Justice Court blanks for sale at this office.

Arago School and Community

(By Bobbette)
 The Coquille vs. Arago practice game last Wednesday stood a tie at the end of the last quarter. A five minute period was allowed. At the end of that period the score stood 25 to 15 in favor of Arago.

Rev. W. S. Smith, Presbyterian preacher of Coquille, preached to the Community church congregation last Sunday. Mr. Smith will preach once every month.

Mr. and Mrs. David Root are rejoicing over the arrival of a nine pound baby boy. The baby was born Thursday morning, January 10. The Cradle Roll superintendent must take notice. Mrs. Root and the baby are at the Pinkston hospital in Coquille. Both are in the best of condition. Dave appears like a recruiting officer. He walks like a trained soldier. He seems to have grown taller. The many friends of Dave and Grace rejoice with them and extend their congratulations.

George Gillespie has rented the place formerly occupied by Mr. Kirkpatrick. Mrs. Johnson and family are now living here. They will not need to move till later in the spring as George does not contemplate occupying the buildings until some time in the spring.

Sunday school will commence at ten o'clock Sunday whether Mr. Sevy is there or not. Be sure and count one at the roll call.

Wm. Stauff had a birthday. Unless we miscounted he appears to be about ten years older than we thought he was. We were judging his age by the looks of his wife.

Sambo came to his pastor with a troubled expression. He said, "Brother Jones I's seriously perplexed about a matter I wish you'd clear up for me. I am worried about when I get to Heaven how I'm going to get my shirt on over my wings."

Brother Jones replied: "Sambo you don't need to worry about that any longer. Your trouble is going to be how to get your hat on over your horns." Only another example that the most of our worry is entirely unnecessary.

Mrs. Lewis Aasen is back on the job again. The flu gave her a long vacation. We are glad she is back to normalcy. We will be looking for more flowers now.

Miss Bates of Bandon substituted two days for Miss Day last week.

About twenty-five attended the Sunday School party at the teacherage last Wednesday night. Miss Edith Woodward and Miss Day with their assistants proved very effectual entertainers. Everybody reported a first class time.

The hill road into Arago from Myrtle Point is in bad condition. It needs much more gravel. By backing up and trying again and carefully picking out the shallowest ruts we managed to get through. The bridge leading into Myrtle Point from the west is surely no credit to somebody. The Chamber of Commerce ought to hold several meetings in Stringtown so they would all have to pass over this bridge. The stranger coming into Myrtle Point from the west is sure he has lost the main way and is coming into town on a detour.

The final examinations for the first semester are being held Friday and Saturday of this week. The second semester classes will start next Monday, Jan. 21.

Quite a number of the pupils of Arago are interested in the oratorical contest sponsored in Oregon by the Morning Oregonian of Portland. We expect a number of entries.

The Bull Dog's Bark for January 11 put out by the Arago student body was a very excellent paper. Some of the material in this issue was superior. Everybody back the paper. It is a worthwhile activity and full of much practical discipline for the pupils.

Mr. Vetter and family spent Sunday with friends in Myrtle Point.

Anton Abel hopes to raise thirty heifers this year. He is building shed room for his calves.

Mr. Burtis had a slight attack of the flu but is back to normal again.

Audrey and Beneva Volkmar were visitors at the Keltner home last Saturday and Sunday.

The Blue-Birds had a party at the gym last Friday night. Melden Carl acted as referee for a lively game of basketball. Mrs. Burtis is teacher of this class.

Ernest Ferrari spent Saturday and Sunday in the bay cities.

The Arago Sextette entertained at the Grange supper in Schroeder hall last Tuesday evening.

Mr. Green and son will leave this week for Portland. Mrs. Green and the girls will remain here until school is out.

Mr. and Mrs. L. M. Aasen and family, Deloris Barklow and Letha Munford were entertained at the Hoffman home Sunday last.

The Powers-Arago game was played Wednesday night at the Arago gym. A lunch was served the two teams after the game.

Mr. Dornath recently purchased a new car.

Mr. and Mrs. Walter Barklow, Mr. and Mrs. Ed Meyers, Mr. and Mrs.

transacted demonstrating that the State Board of Health is a busy institution which is trying to protect the citizens of this state against preventable diseases. The work is only limited by the amount of money that is available for health protection.

Ford Changes Model Seldon

At a meeting of the Society of Automobile Engineers lately an address was made by a prominent national engineer who told his listeners that there was great danger, in fact the trouble had already started, through their efforts in bringing out a new model every year or less, and that danger was that they were promoting "automobile buying indigestion." He said that new models were so frequent it was very much like asking a man to eat six meals a day with the inevitable result that he would have to see a doctor and stop eating altogether. "Why," said he, "before a man has finished paying for his car you

bring out from one to two new models which is not pleasing to the man who has the then old model and unfinished payments for it on his hands."

The Ford Motor Company's policy has always been for no yearly models and to make all mechanical improvements interchangeable with the older cars. The old model T Ford was made for eighteen years with only minor changes. The model A is following the same path. Improvements when made will be so designed that they can be installed on the older cars.

Stop in at the Ford Garage in Coquille and look them over and take a ride in one of the model A cars. If you have never ridden in one it will be a revelation in easy riding and smooth running. 5113

Call Farr & Elwood for transfer and fuel.

Trespass Notices, printed on cloth, for sale at this office.

Stanley Halter, and Mr. and Mrs. Wayne Woodward and son were very pleasantly entertained at the Griffin home last Sunday.

The cards for the six weeks grades and the term finals will be given out next Monday.

The following high school pupils have signed up for the state oratorical contest: Houston Robison, Clarence Mullins, Georgia Deardorf, Pearl Meyers, Lyle Paul, Orvus Miller.

25 Years of Health Work

(Oregon State Board of Health)
 The first annual meeting of the State Board of Health was held in Salem, December 22, 1903. The following members were present: Drs. A. C. Smith, C. J. Smith, E. A. Pierce, Harry Lane, E. Bartino Pickel, and Woods Hutchinson. Dr. Alfred Kinney was absent being in the East. Dr. Andrew C. Smith was elected president to succeed himself and E. A. Pierce vice president.

Oregon was without a department of health until 1903. At this time an epidemic of smallpox was uncontrolled and the state legislature created the State Board of Health. Most states had health departments 25 years ago and now every state in the Union has a department of health.

When you consider that over \$40,000,000 are lost each year in this state due to diseases that are preventable the importance of a health department becomes very apparent.

Oregon now has a health department which ranks favorably with any in the United States although the appropriation for disease prevention is much less than most of the states.

The Board met for its 25th annual meeting in Salem, January 8, 1929. The following members were present: Drs. E. B. Pickel, W. B. Morse, J. H. Rosenberg, Harold C. Bean and Frederick D. Stricker. Dr. Harold C. Bean was elected president, W. B. Morse, vice president; and Frederick D. Stricker executive secretary.

At this meeting steps were taken to control better the spread of influenza. Venereal disease control was discussed and steps were taken to improve the treatment of this disease and to limit the infection.

Stream pollution was discussed and the Sewer Rental law was suggested as a remedy which places sewage disposal on the same basis as water rates. Rules and regulations were also adopted to protect the purchasers of Ethyl gas which should be used only in engines and not for domestic purposes.

Considerable other business was
